

# Contents

<b>Chapter 1</b>	<b>Overview of ADHD</b>	<b>1</b>
	Greg, Age 7	1
	Amy, Age 13	1
	Tommy, Age 9	2
	Prevalence of ADHD	3
	School-Related Problems of Children with ADHD	3
	Subtypes of ADHD	6
	Possible Causes of ADHD	9
	The Impact of Situational Factors on Symptom Severity	11
	Long-Term Outcome of Children with ADHD	13
	Overview of Subsequent Chapters	15
<b>Chapter 2</b>	<b>Assessment of ADHD in School Settings</b>	<b>17</b>
	The Use of Diagnostic Criteria in the School-Based Assessment of ADHD	18
	Overview of Assessment Methods	23
	Stages of Assessment of ADHD	25
	Developmental Considerations in the Assessment of ADHD	47
	Case Example	49
	Summary	53
	Appendix 2.1 Criteria for the Revised ADHD Behavior Coding System	55
	Appendix 2.2 Criteria for the Teacher-Student Behavior Coding System	56
	Appendix 2.3 Criteria for the Social Behavior Coding System	59

<b>Chapter 3</b>	<b>ADHD and Learning Difficulties: What Is the Connection?</b>	<b>62</b>
	Association of ADHD with Cognitive Deficits	63
	Association of ADHD with Academic Underachievement	65
	Possible Causal Connections between ADHD and Academic Problems	66
	Subtyping of ADHD Based on Academic Skills Deficits	78
	Assessment Guidelines: ADHD and Academic Performance Deficits	80
	Case Example	84
	Implications for Intervention	86
	ADHD as a Special Education Category	88
	Summary	92
	Appendix 3.1 Zirkel's Checklist for Determining Legal Eligibility of ADD/ADHD Students	94
<b>Chapter 4</b>	<b>Classroom-Based Intervention Strategies</b>	<b>96</b>
	General Considerations for Classroom-Based Interventions	99
	Contingency Management Procedures	103
	Self-Management Interventions	117
	Effective Educational Strategies	122
	Support for Teachers	132
	Summary	134
<b>Chapter 5</b>	<b>Medication Therapy</b>	<b>135</b>
	Types of Psychotropic Medications Employed	136
	Behavioral Effects of Stimulants	141
	Possible Side Effects of Central Nervous System Stimulants	151
	Factors to Consider when Recommending a Medication Trial	153
	Assessment of Medication Effects in Classroom Settings	154
	Communication of Results with Prescribing Physician	162
	Ongoing Monitoring of Medication Response	164
	Limitations of Stimulant Medication Treatment	164
	Summary	165
	Appendix 5.1 Stimulant Medication Treatment of ADHD: A Teacher Handout	167
	Appendix 5.2 ADHD Self-Report Rating Scale	170

<b>Chapter 6</b>	<b>Adjunctive Interventions for ADHD</b>	<b>171</b>
	School-Based Interventions	172
	Home-Based Interventions	188
	Interventions with Limited or No Efficacy	193
	Summary	197
<b>Chapter 7</b>	<b>Communication with Parents, Professionals, and Students</b>	<b>199</b>
	DSM Diagnoses and Educational Services	200
	Educational Training and Responsibilities	203
	Issues Surrounding Stimulant Medication Treatment	205
	Communication between Education Professionals and Parents	208
	Communications with Physicians and Other Professionals	212
	Communications with Students	213
	Summary	215
	Appendix 7.1 Suggested Readings on ADHD and Related Difficulties for Parents and Teachers	216
	Appendix 7.2 Referral Letter to a Physician	217
	Appendix 7.3 Referral to Physician for Possible Medication Trial	218
	Appendix 7.4 Description of Medication Trial to Physician	219
	Appendix 7.5 Report of Results of Medication Trial to Physician	220
<b>Chapter 8</b>	<b>Conclusions and Future Directions</b>	<b>222</b>
	Future Directions for Working with Students with ADHD	225
	Conclusions	236
	References	237
	Index	265
