<b><i>PART ONE THE TECHNIQUES OF CREATIVE ANALYSIS</i></b>	
<b><i>1 Introduction to Creative Analysis</i></b>	<b>2</b>
1.1 Scope and format of the book	2
1.2 The techniques and their subroutines	4
1.3 Creative analysis	8
1.4 Principles underlying creative analysis	9
1.5 The value of good record-keeping for creative analysis	15
1.6 Selecting techniques using the principles of creative analysis	16
1.7 Summary	21
<b><i>2 Restructuring Techniques</i></b>	<b>22</b>
2.1 Introduction	22
2.2 Morphological analysis (technique T.1.1)	24
2.3 Relevance systems (technique T.1.2)	27
2.4 Attribute listing (technique T.1.3)	32
2.5 Research planning diagrams (technique T.1.4)	34
2.6 Summary	36

3	<i>Decision Aids</i>	37
3.1	Checklists (technique T.2.1)	38
3.2	Weighting systems (technique T.2.2)	40
3.3	Miscellaneous inputs to decision making	43
3.4	Summary	45
4	<i>Redefinitional Procedures</i>	47
4.1	Testing your redefinitional style	47
4.2	Problem sensitivity and redefinition	47
4.3	Goal orientation (technique T.3.1)	50
4.4	Successive abstractions (technique T.3.2)	51
4.5	Analogy and metaphor procedures (technique T.3.3)	53
4.6	Wishful thinking (technique T.3.4)	54
4.7	Nonlogical stimuli (technique T.3.5)	55
4.8	Boundary examinations (technique T.3.6)	56
4.9	Reversals (technique T.3.7)	57
4.10	An exercise to practice the use of the redefinitional aids	58
4.11	Summary	58
5	<i>Group Techniques based on Brainstorming Principles and Practice</i>	59
5.1	Introduction	59
5.2	Suitable topics for brainstorming	61
5.3	Selecting a brainstorming group	61
5.4	Osborn-type brainstorming (technique T.4.1)	65
5.5	Trigger sessions (technique T.4.2)	69
5.6	Recorded round robin ('6-3-5') (technique T.4.3)	71
5.7	Wildest idea (technique T.4.4)	72
5.8	Reverse brainstorming (technique T.4.5)	74
5.9	Combining the elements for group idea-generation sessions	75
5.10	Effective evaluation of ideas from a brainstorming	75
5.11	Summary	77
6	<i>Group Problem-solving: Synectics-type Subroutines</i>	78
6.1	Introduction	78
6.2	Origins	78
6.3	A framework for introducing synectics elements into open-ended problem situations	79

<i>Contents</i>		<i>vii</i>
6.4	Elements of synectics	81
6.5	Implementation of ideas	90
6.6	Scope of synectics	92
6.7	Selection and training for synectics	93
6.8	Relationships between a group practising synectics and the rest of the organization	95
6.9	Summary	96
7	<i>Creative Analysis of Some Real Problems</i>	97
7.1	Problem 1: motivating older personnel	98
7.2	Problem 2: coping with the brilliant scientist	99
7.3	Problem 3: improving the effectiveness of a production line	100
7.4	Problem 4: persuading consumers	101
7.5	Problem 5: persuading senior managers	101
7.6	Summary	102
 <b>PART TWO CREATIVE ANALYSIS IN PRACTICE</b> 		
	<i>Introduction to Part Two</i>	104
8	<i>Case Studies from a Technically-based Group using Structured Techniques for Open-ended Problem-solving</i>	105
8.1	Background information	105
8.2	Case study 1: inventing a process for monitoring effluent	106
8.3	Case study 2: generation of concepts for consumer products	113
8.4	Case study 3: communicating a technical effect to nontechnical personnel	118
8.5	Case study 4: a five-day training course in group problem-solving techniques	119
8.6	Notes on case studies 1–4	122
9	<i>Case Studies Initiated by Various In-company Service Divisions</i>	125
9.1	Case study 5: a system for accelerating innovation developed by an OR group within a development unit of a consumer-goods organization	125

9.2	Case study 6: a search for new business opportunities	128
9.3	Case study 7: a training department introducing brainstorming as an integrating device at the start of a training course	132
9.4	Case study 8: an exercise to generate new business ideas within an engineering conglomerate	133
9.5	Case study 9: integration of idea-generation and group behavioural exercises by a unit within a market research organization	135
9.6	Notes on case studies 5–9	138
<b>10</b>	<b><i>Using Consumers to Generate New-product Ideas</i></b>	<b>141</b>
10.1	Introduction	141
10.2	Case study 10: NOP experience in using consumers to generate new-product ideas	141
10.3	Case study 11: an exercise in communications between technologists and consumers	143
10.4	Case study 12: creativity-testing of housewives to aid selection of idea-generation groups	145
10.5	Case study 13: 'extended creativity groups' for new-product development	146
10.6	Notes on case studies 10–13	147
<b>11</b>	<b><i>Miscellaneous Brainstorming Activities</i></b>	<b>149</b>
11.1	Introduction	149
11.2	Case study 14: a diversification exercise within a small fast-growing company	149
11.3	Case study 15: an examination of the material produced during a (training) brainstorming session	154
11.4	Case study 16: brainstorming of promotional ideas for a food product	156
11.5	Case study 17: brainstorming to improve the efficiency of a contract research organization	159
11.6	Case study 18: rent-a-brainstorming (Holland)	161
11.7	Notes on case studies 14–18	162
<b>12</b>	<b><i>Individual Open-ended Problem-solving</i></b>	<b>163</b>
12.1	Case study 19: creative thinking applied to a social problem	163

12.2	Case study 20: individual creativity leading to technical innovation	166
12.3	Case study 21: individual engineering creativity: breakaway road standards	168
12.4	Case study 22: creativity in a biological research project	171
12.5	Case study 23: invention of a novel business game 'Top Rat'	172
12.6	Notes on case studies 19–23	176

### *PART THREE APPENDICES AND BIBLIOGRAPHY*

<i>Appendix 1</i>	<i>Changes in Emphasis in Synectics Practice and a Glossary of Terms</i>	180
A1.1	Changes in emphasis in synectics practice	180
A1.2	Glossary of synectics terms	181
<i>Appendix 2</i>	<i>A Selection of Organizations with Interests Relevant to Creative Analysis</i>	188
<i>Bibliography</i>		191
<i>Index</i>		195
