

CONTENTS
Vol. I, Part 1

Preface of Editors	I
Authors' Preface	III
Preface by Prof. Prausnitz	VI
Contents	VIII
List of Symbols	IX
General Remarks and Explanations	XI
1. Introduction	XI
2. Equations from Thermodynamics	XI
2.1. Vapor-Liquid Equilibrium	XI
2.2. Correlation of Liquid-Phase Activity Coefficients	XIV
2.3. Thermodynamic Consistency Tests	XXII
3. Computer Processing of Vapor-Liquid Equilibrium Data	XXX
3.1. Treatment of VLE Data from Literature	XXX
3.2. Parameter Fitting	XXXIII
3.3. Equilibrium Diagrams	XXXV
4. Explanations and Recommendations for Using the Tables	XXXVII
4.1. Contents and Arrangement of the Data Collection	XXXVII
4.2. Explanation of Data Sheet	XXXVIII
4.3. Explanation of Plotted Diagrams	XLII
Data Collections and Bibliographies	XLIV
References to Literature	XLVII
Guide to Tables	XLIX
Tables	1
Binary Systems	1
Ternary Systems	552
Quaternary Systems	678
Appendix A. Pure Component Parameters	683
Appendix B. Dimerization Constants of Carboxylic Acids	687
Index of Systems	689

CONTENTS
Volume I, Part 2a

Subjects of Volume I	VI
Preface of Editors	VII
Authors' Preface	VII
Contents Volume I, Part 1	VIII
Contents Volume I, Part 2a	IX
Guide to Tables	XI
References	XVI
Tables	1
Binary Systems	1
Systems with Methanol	1
Systems with Ethanol	276
Systems with 1-Propanol	509
Ternary Systems	607
Systems with Methanol	607
Systems with Ethanol	642
Systems with 1-Propanol	690
Quaternary Systems	698
Appendix A: Pure Component Parameters	705
Appendix B: Dimerization Constants of Carboxylic Acids	709
Index of Systems	711
