Table of Contents

Invited Talks

Adversarial and Uncertain Reasoning for Adaptive Cyber Defense:
Building the Scientific Foundation ............................................. 1
George Cybenko, Sushil Jajodia, Michael P. Wellman, and Peng Liu

SNIPS: A Software-Defined Approach for Scaling Intrusion Prevention
Systems via Offloading ............................................................. 9
Victor Heorhiadi, Seyed Kaveh Fayaz, Michael K. Reiter, and Vyas Sekar

Contributed Papers

Security Inferences

Inference-Proof Data Publishing by Minimally Weakening a Database
Instance ................................................................. 30
Joachim Biskup and Marcel Preuß

Extending Dolev-Yao with Assertions ........................................ 50
R. Ramanujam, Vaishnavi Sundararajan, and S.P. Suresh

Inferring Accountability from Trust Perceptions ............................ 69
Koen Decroix, Denis Butin, Joachim Jansen, and Vincent Naessens

Client Side Web Session Integrity as a Non-interference Property .... 89
Wilayat Khan, Stefano Calzavara, Michele Bugliesi, Willem De Groef, and Frank Piessens

Security Policies

Impact of Multiple t-t SMER Constraints on Minimum User
Requirement in RBAC ...................................................... 109
Arindam Roy, Shamik Sural, and Arun Kumar Majumdar

Temporal RBAC Security Analysis Using Logic Programming in the
Presence of Administrative Policies ....................................... 129
Sadhana Jha, Shamik Sural, Jaideep Vaidya, and Vijayalakshmi Atluri

A Formal Methodology for Modeling Threats to Enterprise Assets .... 149
Jaya Bhattacharjee, Anirban Sengupta, and Chandan Mazumdar
## Table of Contents

### A Novel Approach for Searchable CP-ABE with Hidden Ciphertext-Policy

*Mukti Padhya and Devesh Jinwala*

**167**

### Security User Interfaces

**Towards a More Democratic Mining in Bitcoins**

*Goutam Paul, Pratik Sarkar, and Sarbajit Mukherjee*

**185**

**Authentication Schemes - Comparison and Effective Password Spaces**

*Peter Mayer, Melanie Volkamer, and Michaela Kauer*

**204**

**A Security Extension Providing User Anonymity and Relaxed Trust Requirement in Non-3GPP Access to the EPS**

*Hiten Choudhury, Basav Roychoudhury, and Dilip Kr. Saikia*

**226**

**A Usage-Pattern Perspective for Privacy Ranking of Android Apps (Short Paper)**

*Xiaolei Li, Xinshu Dong, and Zhenkai Liang*

**245**

### Security Attacks

**Privacy Leakage Attacks in Browsers by Colluding Extensions**

*Anil Saini, Manoj Singh Gaur, Vijay Laxmi, Tushar Singhal, and Mauro Conti*

**257**

**CORP: A Browser Policy to Mitigate Web Infiltration Attacks**

*Krishna Chaitanya Tejikicherla, Venkatesh Choppella, and Bruhadeshwar Bezawada*

**277**

**An Improved Methodology towards Providing Immunity against Weak Shoulder Surfing Attack**

*Nilesh Chakraborty and Samrat Mondal*

**298**

**Catching Classical and Hijack-Based Phishing Attacks**

*Tanmay Thakur and Rakesh Verma*

**318**

### Malware Detection

**PMDS: Permission-Based Malware Detection System**

*Paolo Rovelli and Ymir Vigfusson*

**338**

**Efficient Detection of Multi-step Cross-Site Scripting Vulnerabilities**

*Alexandre Vernotte, Frédéric Dadeau, Franck Lebeau, Bruno Legarda, Fabien Peureux, and François Piat*

**358**
# CliSeAu: Securing Distributed Java Programs by Cooperative Dynamic Enforcement

*Richard Gay, Jinwei Hu, and Heiko Mantel*

- Page 378

## Automatic Generation of Compact Alphanumeric Shellcodes for x86 (Short Paper)

*Aditya Basu, Anish Mathuria, and Nagendra Chowdary*

- Page 399

## Forensics

### Analysis of Fluorescent Paper Pulps for Detecting Counterfeit Indian Paper Money

*Biswajit Halder, Rajkumar Darbar, Utpal Garain, and Abhoy Ch. Mondal*

- Page 411

### A Vein Biometric Based Authentication System (Short Paper)

*Puneet Gupta and Phalgumi Gupta*

- Page 425

### Digital Forensic Technique for Double Compression Based JPEG Image Forgery Detection (Short Paper)

*Pankaj Malviya and Ruchira Naskar*

- Page 437

## Location Based Security Services

### Preserving Privacy in Location-Based Services Using Sudoku Structures

*Sumitra Biswal, Goutam Paul, and Shashwat Raizada*

- Page 448

### Location Obfuscation Framework for Training-Free Localization System (Short Paper)

*Thong M. Doan, Han N. Dinh, Nam T. Nguyen, and Phuoc T. Tran*

- Page 464
