1	Introduction	1
1.1	Philosophy and the Birth of Modern Science	1
1.2	Radical Answers.....	2
1.3	Moderate Answers.....	2
1.4	Death of Philosophy?.....	3
1.5	Criticisms by Scientists.....	4
1.6	Why Still Philosophy?	5
1.7	Aim of the Book.....	5
1.8	Organization of the Book.....	6
1.9	Conventions.....	7
	References.....	7
Part I The Nature of Philosophy		
2	The Heuristic View	11
2.1	The Characteristics of Philosophy	11
2.2	Philosophy and the World	12
2.3	Philosophy and Globality.....	13
2.4	Philosophy and Essential Problems	14
2.5	Philosophy and Knowledge.....	14
2.6	Philosophy and the Armchair.....	16
2.7	Philosophy and the Sciences	16
2.8	Philosophy and the Results of the Sciences	17
2.9	Philosophy and Method	18
2.10	Philosophy and the Aim to Acquire Knowledge.....	19
2.11	Philosophy and the Aim to Obtain Rules of Discovery	20
2.12	Philosophy and the Birth of New Sciences	21
2.13	Philosophy and the History of Philosophy.....	22
2.14	Philosophy and Intuition	23

2.15	Philosophy and Emotion	24
2.16	Philosophy and the Solvability of Problems	25
2.17	Philosophy and Progress	25
2.18	Philosophy and Professionalization	26
2.19	The Heuristic View vs. Philosophy as Criticism of Principles.....	27
	References.....	28
3	The Foundationalist View	31
3.1	The Foundationalist View and the Architectural Metaphor	31
3.2	The First Assumption of the Foundationalist View	32
3.3	The Second Assumption of the Foundationalist View	33
3.4	Frege's and Russell's Foundational Programs for Mathematics ..	34
3.5	Russell's Alternative Foundational Program for Mathematics ...	35
3.6	Hilbert's Foundational Program for Mathematics	36
3.7	Russell's Foundational Program for Empirical Knowledge.....	36
3.8	Inadequacy of the Architectural Metaphor	37
3.9	The Weak Foundationalist View.....	37
3.10	The Alleged Death of Epistemology	38
	References.....	39
4	The Limits of Scepticism	41
4.1	The Question of Sceptical Doubt.....	41
4.2	The Sceptical Doubts Raised by Two Ancient Schools	42
4.3	Aristotle's Argument Against the Two Schools	43
4.4	Limits of Aristotle's Solution.....	44
4.5	Self-Defeating Character of the Two Schools.....	45
4.6	Sextus Empiricus' Indeterminacy Doubt	46
4.7	Descartes' Dream Doubt.....	47
4.8	Descartes' Demon Doubt.....	48
4.9	Hume's Induction Doubt.....	50
4.10	Scepticism, Mysticism, and the Foundationalist View.....	51
	References.....	52
5	Philosophy and the Humanistic Disciplines	53
5.1	The View That Philosophy Is a Humanistic Discipline	53
5.2	Relation with a Non-analytic Tradition.....	54
5.3	What Is Scientism, Really?.....	55
5.4	Sciences and the World as It Is in Itself	55
5.5	Sciences and the Independence of Perspective	55
5.6	Sciences and the Absolute Conception	56
5.7	Philosophy as Different from the Sciences	56
5.8	Philosophy and History.....	57
5.9	Continuity with the Philosophical Tradition	58
5.10	Theoretical and Practical Knowledge	59
5.11	The Humanistic Disciplines Revisited.....	61
	References.....	61

Part II The Nature of Knowledge

6	Knowledge and Naturalism	65
6.1	What Is Knowledge?.....	65
6.2	A Naturalistic Approach to Knowledge.....	67
6.3	The Biological Role of Knowledge.....	68
6.4	Knowledge as a Natural Process.....	70
6.5	Knowledge and Consciousness.....	70
6.6	Knowledge and Evolution.....	71
6.7	Cultural Role of Knowledge.....	72
6.8	Biological Evolution and Cultural Evolution.....	73
6.9	Objections to the Continuity View.....	74
6.10	Science and Evolution.....	75
6.11	Mathematics and Evolution.....	76
6.12	Objections to the Dependence of Mathematics on Evolution.....	77
6.13	Evolution and Teleology.....	78
6.14	Remarks on a Different Naturalistic Approach to Knowledge.....	79
6.15	A Theistic Objection to Naturalism.....	79
	References.....	80
7	Knowledge and Reality	83
7.1	The Relation of Knowledge to Reality.....	83
7.2	Direct Realism.....	83
7.3	Representative Realism.....	84
7.4	Scientific Realism.....	85
7.5	Liberalized Scientific Realism.....	86
7.6	Mathematical Structural Realism.....	87
7.7	Semantic Structural Realism.....	88
7.8	Essentialist Realism.....	89
7.9	Subjective Idealism.....	90
7.10	Phenomenalism.....	90
	References.....	91
8	Knowledge and Truth	93
8.1	The Aim of Science and Truth.....	93
8.2	Truth as Correspondence.....	94
8.3	Concept of Truth and Criterion of Truth.....	95
8.4	Truth as Correspondence and Scientific Realism.....	96
8.5	Impossibility of a Criterion of Truth.....	97
8.6	An Alleged Rehabilitation of Truth as Correspondence.....	97
8.7	Truth as Intuition of the Essence.....	99
8.8	Truth and Modern Science.....	100
8.9	Absoluteness Claims.....	101
8.10	Alternative Concepts of Truth.....	102

8.11	Truth as Consistency	102
8.12	Truth as Systematic Coherence	103
8.13	Truth as Satisfiability	104
8.14	Truth as Provability	104
8.15	Truth and Mythology	105
	References	106
9	Knowledge, Plausibility, and Common Sense	107
9.1	Plausibility in Place of Truth	107
9.2	Plausibility as Different from Truth	108
9.3	Plausibility as Different from Probability	109
9.4	Plausibility as Different from Warranted Assertibility	109
9.5	Plausibility and <i>Endoxa</i>	110
9.6	Knowledge and Our Ways of Apprehending the World	111
9.7	Limitations of the Human Cognitive Apparatus	111
9.8	The Relevance of Such Limitations	112
9.9	Knowledge and Things in Themselves	113
9.10	Common Sense Knowledge and Scientific Knowledge	114
9.11	Common Sense Knowledge and Innate Knowledge	115
9.12	Common Sense Knowledge and Scientific Realism	116
	References	117
10	Other Questions About Knowledge	119
10.1	Objectivity as Independence of Any Subject	119
10.2	Objectivity as the View from Nowhere	120
10.3	Objectivity as Plausibility	121
10.4	Mathematical Knowledge and Plausibility	122
10.5	Certainty	123
10.6	Intuition	124
10.7	Fallible Intuition	126
10.8	Deduction	127
10.9	Rigour	128
	References	129
 Part III The Methods to Acquire Knowledge		
11	A Discourse on Method	133
11.1	The Need for Method	133
11.2	The Denial of a Logic of Discovery	134
11.3	Discovery and the Romantic Myth of Genius	135
11.4	Discovery and Serendipity	136
11.5	Discovery and Deductive Logic	137
11.6	The Denial of Method	138
11.7	Method and Rationality	139

11.8	The Psychology of Discovery	141
11.9	An Attempt to Trivialize Discovery	142
11.10	Heuristic vs. Algorithmic Methods	142
11.11	Algorithmic Methods, Discovery, and Justification	143
11.12	Consequences of the Denial of Method	144
11.13	The Alleged Obsolescence of Method	145
11.14	The Vindication of Method	146
