

# Contents

## part one

### **INTRODUCTION TO BEHAVIOR IN ORGANIZATIONS 1**

#### **1 Managers and Behavior in Organizations 3**

Why Study Behavior? *What Managers Do. Kinds of Behavior Managers Encounter.* Organizations as Social Units: *Characteristics of Organizations. Interactions of People and Organizations.* Plan of the Book.

#### **2 Sources of Knowledge about Behavior in Organizations 17**

Criteria for Evaluation of Knowledge about Behavior. Personal Experience as a Source of Knowledge. Methodological Approaches to Studying Behavior. Relatively Less Systematic Approaches: *Cases. Participant Observation.* Systematic Assessment: *One-Time Systematic Assessment. Longitudinal Assessment.* Experimentation: *Laboratory Experiments. Field Experiments. Natural Experiments.*

## part two

### **BASES OF INDIVIDUAL BEHAVIOR 41**

#### **3 Approaches to Understanding Behavior in Organizations 45**

The Importance of Assumptions about Behavior. The Causes of Behavior. The Cognitive Approach: *Basis. Cognitive Elements. Cognitive Structure. Cognitive Functions. Some Applications of Cognitive Theory to Organizational Behavior.* The Reinforcement Approach: *Basis. Reinforcement Concepts. Some Applications of Reinforcement Theory to Organizational Behavior.* The Psychoanalytic Approach: *Basis. The Structure of the Personality. Functioning of the Personality. Some Applications of Psychoanalytic Theory to Organizational Behavior.* Summary: *Comparing the Three Approaches: Emphasis. Causes of Behavior. Processes. Importance of the Past in Determining Behavior. Level of Consciousness. Data. Determining the Right Approach.*

- 4 Motivation 73**  
 The Role of Motivation in Performance. Models of Individual Motivation. Expectancy Models: *An Attitude Model of Behavioral Intentions. A Basic Expectancy Model. A Perceptual Model.* An Operant Model: *The Response. The Stimulus. Time and Prior Reinforcement History. Contingencies of Behavior.* Major Differences between Expectancy and Operant Models: *Variables of Interest. Evidence for the Models. Differences in Predictions.*
- 5 Individual Differences and Environmental Factors 105**  
 Individual Differences: *Differences in Motives or Reinforcers. Differences in Ability.* Environmental Factors: *The Physical Environment. The Social Environment.* Some Implications for Management.
- part three**  
**INDIVIDUAL BEHAVIOR IN ORGANIZATIONS 123**
- 6 Perceiving and Evaluating 127**  
 Perceptual Processes. The Role of the Object in Perception: *Selection. Organization.* The Role of the Environment: *The Physical Environment. The Social Environment.* The Role of the Observer: *Perceptual Tendencies. Individual Differences.* A Model of Individual Perception. Some Implications of Perceptual Processes. Performance Evaluation: *Perceptual Inaccuracies in Performance Appraisal. Performance Appraisal Methods.*
- 7 Individual Decision Making 155**  
 Elements of Decision Making. The Decision: *Efficiency Criteria. Effectiveness Criteria.* The Problem: *Types of Problems. Problem Characteristics Affecting Decision Making.* Individuals as Decision Makers: *Models of Man as Decision Maker. Personality Factors. Personal Characteristics. Physiological Factors.*
- 8 Decision-Making Processes and Environments 179**  
 The Decision-Making Environment: *The Physical Environment. The Social Environment.* Processes of Decision Making: *A Normative Model of Decision Making. A Descriptive Model.*
- 9 The Creative and Innovative Individual 201**  
 The Need for Creative Behavior. The Nature of Creativity: *Creative Behavior and Creative Ability. Creativity and Intelligence. Creative*

*Abilities and the Structure of the Intellect. Developing Creativity. Measuring Creative Potential: Methods. Validity of Measurement. Results of the Testing of Creativity. Characteristics of Creatively Behaving Individuals: Demographic Characteristics. Behavioral Characteristics. Personality Characteristics.*

**10 Creative Processes and Environments 235**

*The Creative Process: Preparation. Incubation. Insight. Verification. The Organization's Role in Creativity: Impediments to Creative Behavior. How Organizations Hinder the Creative Process. Aids to Creative Behavior. How Organizations Facilitate the Creative Process.*

**11 Expressing Attitudes, Satisfaction, and Dissatisfaction 253**

*The Nature of Attitudes: Components of Attitudes. Consistency of Attitudes. Sources of Attitudes. Functions of Attitudes. Job Satisfaction: Managerial Interest in Job Satisfaction. Measuring Job Satisfaction. Factors Affecting Job Satisfaction. How Satisfied Are Workers? Relative Satisfaction of Types of Workers. Job Satisfaction, Dissatisfaction, and Worker Behavior: Absenteeism and Tardiness. Turnover. Productivity.*

**part four**

**BASES OF GROUP BEHAVIOR**

**287**

**12 Interpersonal Attraction and Group Formation 289**

*The Nature of Groups: Types of Groups. Joining Groups: Reasons for Joining Groups. The Bases of Interpersonal Attraction. A Model of Interpersonal Attraction.*

**13 Group Development and Structure 313**

*Group Development: Developing Power and Authority Structures. Developing Interpersonal Relationships. Group Maturity. Roles: Role Set. Role Conflict. Status: Sources of Status. Equity in Status. Cohesiveness: Sources of Cohesiveness. Effects of Cohesiveness.*

**part five**

**GROUPS AND SOCIAL BEHAVIOR IN ORGANIZATIONS**

**335**

**14 Communications 339**

*The Communication Process. Factors Influencing Communications: Factors Affecting Direction and Frequency. Factors Affecting Accuracy. The Structure of Communication Networks: Effects of Structure on Network Performance. Effects of Task Complexity. Organiza-*

tional Communications: *Functions of Communications. Directions of Communication. Communications in Research and Development Organizations: Channels of Communication. Factors Affecting the Use of Channels. Communication Networks. The Role of Technological Gatekeeper.*

- 15 Group Decision Making 367**  
 Reasons for the Trend to Group Decisions. Elements of Group Decision Making. Group Decision-Making Processes: *Discussion among Members. Decision Making as a Group Task.* Outcomes of Group Decision Making. Effects of Group Processes on the Decision: *Accuracy. Judgment and Problem Solving. Creativity. Risk Taking. The Cultural Value Effect.* Effects of Group Processes on Group Members: *Better Understanding. Commitment. Changes in Goals. Effects on Losers.* Time and Cost Considerations. Alternatives to Face-to-Face Group Techniques.
- 16 Helping, Cooperating, and Competing 401**  
 Helping Behavior: Altruism: *Determinants of Altruistic Behavior. Implications for Organizations.* Cooperating and Competing: *Differences between Cooperation and Competition. Some Effects of Cooperation and Competition. Factors Affecting Cooperation and Competition. Coalition Formation. Productivity under Cooperation and Competition.*
- 17 Conflict 429**  
 The Nature of Conflict in Organizations. Why Do Organizations Experience Conflict? *Interdependence. Differences in Goals. Differences in Perceptions.* Effects of Intergroup Conflict: *Changes within Each Group. Changes between Groups.* How Do Organizations React to Intergroup Conflict? *Nonintervention Approaches. Intervention Approaches.* Reducing the Negative Consequences of Conflict: *Relatively Ineffective Tactics. Relatively Effective Tactics.* Preventing Intergroup Conflict.
- 18 Influence and Power 461**  
 What Is Influence? Characteristics of Agents and Targets of Influence: *The Agent's Resources. Characteristics of the Target.*
- 19 Influence Processes and Conformity 479**  
 Processes of Influence: *Institutionalized Influence. Uninstitutionalized Influence. Socialization. Processes Inducing Targets to Conform.* Responses to Influence: *Studies of Perception. Studies of Conformity. A Study of Obedience.* An Example of a Socialization Process: *What Makes A Kamikaze Pilot?*

## part six

**LEADERSHIP AND CHANGING BEHAVIOR IN ORGANIZATIONS 501****20 Leadership Behavior and Effectiveness 503**

The Characteristics of Leaders. The Behavior of Leaders: *Authoritarian, Democratic, and Laissez-Faire Leadership Styles. Showing Consideration and Initiating Structure. Employee-Oriented and Production-Oriented Behavior.* Determinants of Leadership Behavior: *Characteristics of Subordinates. The Task. Organizational Policy and Climate. Superiors. Peers. The Leader's Own Characteristics. Subordinates' Responses.* Leadership Effectiveness: *Effects of Democratic and Authoritarian Styles. Effects of Initiating Structure and Showing Consideration.* A Contingency Model of Leadership Effectiveness: *Elements of the Situation. The Leader's Traits. Group Effectiveness. Validity of the Model.* A Path-Goal Theory of Leadership Effectiveness: *Some Propositions of Path-Goal Theory. Validity of Path-Goal Theory.*

**21 Changing Behavior in Organizations 539**

Pressures for Change in Organizations: *External Sources of Pressure. Internal Sources of Pressure. Organizational Requirements for Change.* Problems in Changing Behavior in Organizations: *Change the Person or Change the Environment? Change Abilities or Change Motivation? Change Individuals or Change Groups? Resistance to Change. A Model for Overcoming Resistance to Change.* Changing People: *Recruitment and Selection. Training.* Changing Environments: *Behavior Modification. Goal Setting. Management by Objectives. Organization Development.*
