

Contents

1.	Introduction	3
1.1.	Motivation for the Book	3
1.2.	Structure for the Book	4
2.	Why Do Financial Intermediaries Exist?	9
2.1.	Introduction	9
2.2.	Methodology	10
2.2.1.	Event Study Methodology	10
2.2.2.	Bootstrapping	13
2.3.	Evidence	14
2.3.1.	Loan Announcements	14
2.3.2.	Bank Distress/Merger Announcements	19
2.3.3.	Long-Run Impact of Bank Distress on Firm Performance	20
3.	The Industrial Organization Approach to Banking	26
3.1.	Introduction	26
3.2.	Methodology: Measuring Banking Competition and Market Power	27
3.2.1.	Traditional Industrial Organization	28
3.2.1.1.	Structure-Conduct-Performance	28
3.2.1.2.	Studies of Bank Efficiency	30

3.2.1.3.	Studies of Economies of Scale and Scope	32
3.2.2.	New Empirical Industrial Organization	33
3.2.2.1.	Panzar and Rosse (1987)	34
3.2.2.2.	The Boone (2008) Competition Indicator	36
3.2.2.3.	Conjectural-Variations Method	37
3.2.2.4.	Structural Demand Models	40
3.2.2.5.	Other Structural Models	41
3.2.2.5.1.	Sunk-Cost Models	41
3.2.2.5.2.	Structural Models of Entry	42
3.3.	Evidence	44
3.3.1.	Market Structure and Conduct	44
3.3.1.1.	Loan Markets	44
3.3.1.1.1.	Local Markets	44
3.3.1.1.2.	Multimarket	48
3.3.1.2.	Deposit Markets	49
3.3.1.2.1.	Local Market	49
3.3.1.2.2.	Multimarket	53
3.3.1.3.	Interplay between Markets	54
3.3.2.	Market Structure and Strategy: Product Differentiation and Network Effects	54
4.	The Lender–Borrower Relationship	57
4.1.	Introduction	57
4.1.1.	Definitions	57
4.1.2.	Asymmetric Information	58
4.1.3.	Theory	59
4.1.4.	Switching Costs	60
4.1.5.	Relevance and Outline of This Chapter	61
4.2.	Methodology	62
4.2.1.	Duration Analysis	62
4.2.2.	Tobit and Count Models	65
4.2.3.	Nested Multinomial Logit	67
4.2.4.	Heteroskedastic Regression	70
4.3.	Evidence	72
4.3.1.	Determinants of Characteristics of Bank Relationships	72

4.3.1.1.	Switching Probabilities and Costs	72
4.3.1.1.1.	Importance	72
4.3.1.1.2.	Magnitude	73
4.3.1.1.3.	Value for the Bank	74
4.3.1.2.	Duration	77
4.3.1.3.	Scope	80
4.3.1.4.	Number (and Concentration)	81
4.3.1.4.1.	Micro Factors	85
4.3.1.4.2.	Macro Factors	86
4.3.1.4.3.	Number versus Concentration	92
4.3.1.5.	Intensity, Social Interaction, and Bank Control	95
4.3.1.6.	Relationships in Deposit and Interbank Markets	95
4.3.2.	Impact of Bank Relationships	97
4.3.2.1.	Impact on the Cost of Credit	97
4.3.2.2.	Impact on Collateral, Loan Size, Credit Availability, and Maturity	105
4.3.2.3.	Jointness	105
4.3.2.4.	Impact of Other Relationship Characteristics	107
4.3.2.5.	Impact on Other Financing	108
4.3.2.6.	Impact on Firm Performance	109
4.3.2.7.	Impact on Firm Assistance	115
4.3.2.8.	Market and Macro Impacts	115
4.3.3.	Strategy: Bank Orientation and Specialization?	115
4.3.3.1.	Theory	115
4.3.3.2.	Local Markets: Indirect and Direct Evidence	118
4.3.3.2.1.	United States	118
4.3.3.2.2.	Other Countries	121
4.3.3.3.	National and Cross-Country Studies	121
5.	Equilibrium and Rationing in the Credit Market	123
5.1.	Introduction	123
5.2.	Evidence on Location: Conduct and Strategy	123
5.2.1.	Distance versus Borders	123

5.2.2.	Conduct	124
5.2.2.1.	Spatial Rationing	124
5.2.2.2.	Spatial Pricing	127
5.2.2.3.	Borders and Segmentation	128
5.2.3.	Strategy	129
5.2.3.1.	Distance and Branching	129
5.2.3.2.	Borders and Entry	129
5.2.3.3.	Borders and Mergers and Acquisitions	131
6.	The Macroeconomic Consequences of Financial Imperfections	135
6.1.	Introduction	135
6.2.	Methodology	136
6.2.1.	Growth Regression	136
6.2.2.	Instrumental Variable Estimation	137
6.2.3.	Interaction Variables	140
6.3.	Evidence	141
6.3.1.	Banks and Growth	141
6.3.2.	Causality: Banks to Growth?	142
6.3.3.	Banks, Financial Markets, and Growth	143
7.	Individual Bank Runs and Systemic Risk	149
7.1.	Introduction	149
7.2.	Evidence	152
7.2.1.	Determinants of Banking Crises: Market and Economic Conditions	152
7.2.2.	Implications of Banking Crises	154
7.2.3.	Regulation and Banking Crises	158
7.2.4.	Contagion	159
8.	Managing Risks in the Banking Firm	164
8.1.	Introduction	164
8.2.	Methodology: Value at Risk and Credit Risk Measurement	165
8.2.1.	Assumptions	166
8.2.2.	Estimation Approaches	167
8.2.3.	Nontradable Loans, Herding, and VaR Use	167
8.3.	Evidence	169
8.3.1.	Default or Credit Risks	170

Contents	xiii
8.3.2. Liquidity Risks	170
8.3.3. Market Risks	171
9. The Regulation of Banks	174
9.1. Introduction	174
9.2. Methodology: Difference in Difference	175
9.3. Evidence	176
9.3.1. Regulation and Market Structure	176
9.3.2. Regulation and Bank Conduct	177
9.3.3. Regulation and Bank Strategy	178
9.3.4. Regulation and Financial Stability and Development	179
10. Conclusion	181
11. Epilogue: The Banking Crisis of 2007–2008	183
