Contents

Part I Innovations in Representation and Design

1 A Composition Approach to Design of Educational Animations 5
Richard Lowe and Jean-Michel Boucheix

2 Learning from Animations: From 2D to 3D? 31
Stephan Schwan and Frank Papenmeier

3 Looking Across Instead of Back and Forth: How the Simultaneous Presentation of Multiple Animation Episodes Facilitates Learning 51
Rolf Ploetzner and Richard Lowe

4 Learning from Static and Dynamic Visualizations: What Kind of Questions Should We Ask? 69
Inga Wagner and Wolfgang Schnotz

5 The Role of Craft-Based Knowledge in the Design of Dynamic Visualizations 93
Jodie Jenkinson

6 Designing Instructional Science Visualizations in the Trenches: Where Research Meets Production Reality 119
Gaël G. McGill

Part II Innovations in Assessment

7 Dynamic Visuospatial Ability and Learning from Dynamic Visualizations 155
Christopher A. Sanchez and Jennifer Wiley

8 Demonstration Tasks for Assessment 177
Richard Lowe, Jean-Michel Boucheix, and Benjamin Fillisch

digitalisiert durch:
IDS Basel Bern

9 **Assessing Science Inquiry and Reasoning Using Dynamic Visualizations and Interactive Simulations** 203
Jodi L. Davenport and Edys S. Quellmalz

10 **Design of Effective Dynamic Visualizations: A Struggle Between the Beauty and the Beast? Commentary on Parts I and II** 233
Katharina Scheiter

Part III Innovations in Scaffolding

11 **Attention Guidance Strategies for Supporting Learning from Dynamic Visualizations** 255
Björn B. de Koning and Halszka Jarodzka

12 **Learning Three-Dimensional Anatomical Structures with Animation: Effect of Orientation References and Learners' Spatial Ability** 279
Sandra Berney and Mireille Bétrancourt

Part IV Innovations in Learner Engagement

13 **Self-generated Drawing: A Help or Hindrance to Learning from Animation?** 309
Richard Lowe and Lucia Mason

14 **Drawing for Promoting Learning and Engagement with Dynamic Visualizations** 333
Mike Stieff

15 **Strategies for Learning from Animation With and Without Narration** 357
Rolf Ploetzner and Bianka Breyer

16 **Guiding Cognitive Processing During Learning with Animations: Commentary on Parts III and IV** 379
Richard E. Mayer
