CHAPTER 1

INTRODUCTION TO FINANCIAL ACCOUNTING THEORY **2**

Opening issues	3
What is a theory?	3
Why it is important for accounting students to study accounting theory	5
A brief overview of theories of accounting	7
Evaluating theories of accounting	13
Can we prove a theory?	16
Evaluating theories—considerations of logic and evidence	18
Key factors that influence the research process	24
Outline of this book	26
Questions	28
References	30

CHAPTER 2

THE FINANCIAL REPORTING ENVIRONMENT **34**

Opening issues	35
Introduction	35
An overview of the development and regulation of accounting practice	38
The rationale for regulating financial accounting practice	44
The role of professional judgement in financial accounting	47
How powerful is the accountant?	49
Chapter summary	55
Questions	56
References	58

CHAPTER 3

THE REGULATION OF FINANCIAL ACCOUNTING 62

Opening issues	63
Introduction	63
What is regulation?	64
The 'free-market' perspective	64
The 'pro-regulation' perspective	69
Public interest theory	79
Capture theory	80
Economic and social impacts of accounting regulation	87
Lobbying and the economic interest group theory of regulation	89
Accounting regulation as an output of a political process	93
Chapter summary	96
Questions	97
References	104

CHAPTER 4

INTERNATIONAL ACCOUNTING 108

Opening issues	109
Introduction	109
Evidence of international differences in accounting prior to recent standardisation initiatives	110
Does it really matter if different countries use different accounting methods?	112

A brief overview of the IASB and its globalisation activities	115
The United States' role in the international standardisation of financial accounting	121
Does the international standardisation of accounting standards necessarily lead to the international standardisation of accounting practice?	129
Explanations of differences in accounting	133
Concluding comments about obstacles to the ongoing standardisation of financial accounting	153
Chapter summary	154
Questions	155
References	160

CHAPTER 5

MEASUREMENT ISSUES: ACCOUNTING FOR THE EFFECTS OF CHANGING PRICES AND MARKET CONDITIONS 162

Opening issues	163
Introduction	163
The process of measurement	164
Measurement bases utilised within accounting standards	167
Factors to consider when choosing between alternative measurement bases	168

Limitations of historical cost accounting in times of rising prices	169	Recognition of the elements of financial reporting	250
Current purchasing power accounting	174	Measurement principles	251
Current cost accounting	184	Benefits and criticisms associated with having a conceptual framework	256
Exit price accounting: the case of Chambers' continuously contemporary accounting	190	Conceptual frameworks as a means of legitimising standard-setting bodies	258
Fair value accounting	194	Some further thoughts on accountability	259
The demand for price-adjusted and value-adjusted accounting information	201	Chapter summary	262
Professional support for various approaches to accounting for changing prices	203	Questions	263
Chapter summary	206	References	266
Questions	207		
References	209	CHAPTER 7	
		POSITIVE ACCOUNTING THEORY	270
CHAPTER 6			
NORMATIVE THEORIES OF ACCOUNTING: THE CASE OF CONCEPTUAL FRAMEWORK PROJECTS	212		
Opening issues	213	Opening issues	271
Introduction	213	Introduction	271
What is a conceptual framework of accounting?	214	Positive Accounting Theory defined	272
A brief overview of the history of the development of conceptual frameworks	218	The origins and development of Positive Accounting Theory	274
Building blocks of a conceptual framework	225	Opportunistic and efficiency perspectives	287
Can financial statements provide neutral and unbiased accounts of an entity's performance and position?	240	Owner-manager contracting	291
Definition of the elements of financial reporting	242	Debt contracting	302
		Political costs	308
		Relevance of PAT-based research to current efforts by the IASB and FASB to promote fair value accounting	314
		Some criticisms of Positive Accounting Theory	319
		Chapter summary	323
		Questions	325
		References	334

CHAPTER 8

UNREGULATED CORPORATE REPORTING DECISIONS: CONSIDERATIONS OF SYSTEMS-ORIENTED THEORIES

338

Opening issues	339
Introduction	340
Political Economy Theory	341
Legitimacy Theory	343
Some issues that are not currently addressed by Legitimacy Theory	365
Stakeholder Theory	371
Institutional Theory	382
Chapter summary	392
Questions	394
References	400

CHAPTER 9

EXTENDING CORPORATE ACCOUNTABILITY: THE INCORPORATION OF SOCIAL AND ENVIRONMENTAL FACTORS WITHIN EXTERNAL REPORTING

408

Opening issues	409
Introduction	410
A brief overview of the history of social and environmental reporting	412
Definitions of social, environmental and sustainability reporting	414
Developing notions of sustainability	415

Reporting on integrated understandings of sustainability and sustainable development	419
Stages of sustainability reporting	421
Objectives of the social and environmental reporting process—the <i>why</i> stage	422
Identifying stakeholders—the <i>who</i> stage	433
Identifying stakeholder information needs and expectations—the <i>what</i> stage	435
Theoretical perspectives on some social and environmental reporting procedures—the <i>how</i> stage	442
Integrated reporting	458
Accounting for externalities	462
Some other innovative social and environmental reporting approaches currently in use	466
Climate change	472
Social audit	476
Corporate governance mechanisms aimed at improving social and environmental performance	484
Personal social responsibility	485
Chapter summary	486
Questions	487
References	494

CHAPTER 10

REACTIONS OF CAPITAL MARKETS TO FINANCIAL REPORTING

498

Opening issues	499
Introduction	499
An overview of capital markets research	500

The information content of earnings	508	Protocol analysis	558
Results of capital market research into financial reporting	514	The relevance of differences in culture	559
Do current share prices anticipate future accounting earnings announcements?	523	Limitations of behavioural research	560
Relaxing assumptions about market efficiency	528	Chapter summary	561
Chapter summary	530	Questions	561
Questions	531	References	564
References	536		
 CHAPTER 11		 CHAPTER 12	
 REACTIONS OF INDIVIDUALS TO FINANCIAL REPORTING: AN EXAMINATION OF BEHAVIOURAL RESEARCH IN ACCOUNTING		 CRITICAL PERSPECTIVES OF ACCOUNTING	
	538		568
<hr/>			
Opening issues	539	Opening issues	569
Introduction	539	Introduction	569
An overview of behavioural research	541	The critical perspective defined	570
The Brunswik Lens Model	543	Critical accounting research versus social and environmental accounting research	575
The use of particular information items and the implications of different forms of presentation	547	Possible impact of critical accounting research on social practice	579
Decision-making processes and the use of heuristics	551	The role of the state in supporting existing social structures	583
Environmental factors that influence decisions	556	The role of accounting research in supporting existing social structures	584
Issues of decision accuracy	557	The role of accounting practice in supporting existing social structures	587
		A critical reflection on the role of critical accounting researchers in creating change	592
		Chapter summary	595
		Questions	596
		References	598
