

## CONTENTS

Preface ix

1 · Time Series Analysis in the Social Sciences 1

2 · Modeling 10

(1) *Preliminary Definition* 10

(2) *Preparing for Analysis* 13

(3) *Seasonal Components and Trend* 24

(4) *Systematic Patterns of Residuals* 29

(5) *Fitting the Residuals* 50

(6) *Further Reading* 77

3 · Diagnostics 79

(1) *Residual Assumptions* 79

(2) *The Case of Monthly Violent Crime Rates, 1983–1992* 85

(3) *Further Reading* 89

4 · Forecasting 90

(1) *How to Forecast Values* 90

(2) *Measuring the Accuracy of Time Series Models* 93

(3) *The Case of Monthly Violent Crime Rates, 1983–1992* 100

(4) *Further Reading* 105

5 · Smoothing 106

(1) *Moving Average Smoothing* 107

(2) *Exponential Smoothing* 108

(3) *The Case of Monthly Violent Crime Rates, 1983–1992* 110

(4) *Further Reading* 114

6 · Time Series Analysis with Two or More Time Series	115
(1) <i>Correlation and Regression Analysis</i>	115
(2) <i>Prewhitening</i>	127
(3) <i>Multiple Time Series Analysis with Lagged Variables</i>	143
(4) <i>Diagnostics</i>	164
(5) <i>Further Reading</i>	173
7 · Time Series Analysis as an Impact Analysis Method	176
(1) <i>Interrupted Time Series Analysis</i>	176
(2) <i>The Case of Monthly Violent Crime Rates, 1985–2004</i>	186
(3) <i>Further Reading</i>	192

#### Appendices

1. <i>Links to Online Time Series Analysis Program Manuals</i>	193
2. <i>U.S. Monthly Violent Crime Rates, 1983–2004</i>	195
3. <i>Data Resources for Social Science Time Series Analysis</i>	197
4. <i>Statistical Tables</i>	204
