| 3.3                                   | Deletion                                   | 70               |
| 3.3.1                                 | Consonant deletion                         | 70               |
| 3.3.2                                 | Vowel deletion                             | 73               |
| 3.4                                   | Epenthesis                                 | 74               |
| 3.5                                   | Some other rules                           | 75               |
| 3.6                                   | Summary                                    | 76               |

## **CHAPTER 4: NOMINAL MORPHOLOGY** **77-120**

|       |                                       |     |
|-------|---------------------------------------|-----|
| 4.0   | Outline                               | 77  |
| 4.1   | Morphological properties of the nouns | 77  |
| 4.1.1 | Gender                                | 79  |
| 4.1.2 | Number                                | 83  |
| 4.1.3 | Noun classifiers                      | 84  |
| 4.1.4 | Case marking                          | 85  |
| 4.2   | Syntactic properties of nouns         | 98  |
| 4.2.1 | Noun stem                             | 101 |
| 4.3   | Morphological properties of Pronouns  | 105 |
| 4.3.1 | Personal pronouns                     | 105 |
| 4.3.2 | Pro-forms                             | 113 |
| 4.4   | Summary                               | 120 |

## **CHAPTER 5: ADJECTIVES AND NUMERALS** **121-136**

|       |                          |     |
|-------|--------------------------|-----|
| 5.0   | Outline                  | 121 |
| 5.1   | Morphological properties | 121 |
| 5.1.1 | Monomorphemic adjectives | 121 |
| 5.1.2 | Derived adjectives       | 121 |
| 5.2   | Semantic properties      | 126 |
| 5.2.1 | Spatial dimensional      | 126 |
| 5.2.2 | Age                      | 127 |
| 5.2.3 | Value (or evaluative)    | 127 |
| 5.2.4 | Colour                   | 128 |

|                                   |                                         |                |
|-----------------------------------|-----------------------------------------|----------------|
| 5.2.5                             | Physical property                       | 128            |
| 5.2.6                             | Human propensity                        | 129            |
| 5.2.7                             | Speed                                   | 129            |
| 5.2.8                             | Other semantic types                    | 129            |
| 5.3                               | Syntactic properties                    | 132            |
| 5.3.1                             | Predicates in copular clauses           | 132            |
| 5.3.2                             | Modifiers in the noun phrase            | 132            |
| 5.3.3                             | Functions                               | 133            |
| 5.4                               | Numerals                                | 134            |
| 5.4.1                             | Morphological properties                | 134            |
| 5.4.2                             | Syntactic properties                    | 136            |
| 5.5                               | Summary                                 | 136            |
| <b>CHAPTER 6: VERB MORPHOLOGY</b> |                                         | <b>137-193</b> |
| 6.0                               | Outline                                 | 137            |
| 6.1                               | Verb stems and inflections              | 137            |
| 6.1.1                             | Verb stems                              | 137            |
| 6.1.2                             | Verb inflections                        | 139            |

## **CHAPTER 7: ADVERBS AND POSTPOSITIONS 194-209**

|       |                               |     |
|-------|-------------------------------|-----|
| 7.0   | Outline                       | 194 |
| 7.1   | Formation of adverbs          | 194 |
| 7.1.1 | Bound morphemes               | 194 |
| 7.1.2 | Independent words             | 196 |
| 7.1.3 | Derived words                 | 196 |
| 7.1.4 | Syntactic constructions       | 196 |
| 7.2   | Semantic classification       | 197 |
| 7.2.1 | Manner adverbs                | 198 |
| 7.2.2 | Place adverbs                 | 199 |
| 7.2.3 | Intensity adverbs             | 200 |
| 7.2.4 | Time and aspectuality adverbs | 200 |

|       |                         |     |
|-------|-------------------------|-----|
| 7.2.5 | Instrumental adverbs    | 203 |
| 7.2.6 | Epistemic adverbs       | 204 |
| 7.2.7 | Expressive adverbs      | 204 |
| 7.3   | Distribution of adverbs | 205 |
| 7.4   | Postpositions           | 206 |
| 7.5   | Summary                 | 209 |

## CHAPTER 8: SIMPLE CLAUSES 210-223

|       |                                                     |     |
|-------|-----------------------------------------------------|-----|
| 8.0   | Outline                                             | 210 |
| 8.1   | Non-verbal predicates                               | 210 |
| 8.1.1 | Copular clauses with adjectival predicates          | 210 |
| 8.1.2 | Copular clauses with adverbial predicate            | 211 |
| 8.1.3 | Copular clauses with nominal predicate              | 211 |
| 8.1.4 | Copular clauses with locative predicate             | 212 |
| 8.2   | Verbal predicates                                   | 214 |
| 8.2.1 | Simple intransitive clauses                         | 214 |
| 8.2.2 | Simple transitive clauses                           | 215 |
| 8.2.3 | Simple intransitive clauses with an indirect object | 216 |
| 8.2.4 | Transitive clauses with an indirect object          | 217 |
| 8.3   | Other sentence types                                | 217 |
| 8.3.1 | Declarative sentences                               | 217 |
| 8.3.2 | Interrogative sentences                             | 218 |
| 8.4   | Summary                                             | 223 |

## CHAPTER 9: NOMINALIZATIONS 224-242

|       |                                                         |     |
|-------|---------------------------------------------------------|-----|
| 9.0   | Outline                                                 | 224 |
| 9.1   | Forms and distributional properties of the nominalizers | 224 |
| 9.1.1 | Forms of nominalizers                                   | 224 |

|                                     |                                                           |                |
|-------------------------------------|-----------------------------------------------------------|----------------|
| 9.1.1.1                             | Nominalizer <i>-m</i>                                     | 224            |
| 9.1.1.2                             | Nominalizer <i>-si</i>                                    | 227            |
| 9.1.1.3                             | Nominalizer <i>-sa</i>                                    | 228            |
| 9.1.1.4                             | Nominalizer <i>-na</i>                                    | 229            |
| 9.1.1.5                             | Nominalizer <i>-dam</i>                                   | 229            |
| 9.1.1.6                             | Nominalizer <i>-do</i>                                    | 230            |
| 9.1.1.7                             | Nominalizer <i>-k<sup>h</sup>om</i>                       | 231            |
| 9.1.2                               | Distribution of nominalizers                              | 231            |
| 9.2                                 | The semantic characterization of <i>-na</i> and <i>-m</i> | 232            |
| 9.3                                 | Derivational nominalization at the morphological level    | 233            |
| 9.3.1                               | Derivation of lexical adjectives                          | 233            |
| 9.3.2                               | Derivation of lexical nouns                               | 235            |
| 9.4                                 | Clausal nominalization                                    | 236            |
| 9.4.1                               | Attributive phrases                                       | 236            |
| 9.4.2                               | Nominal-complement constructions                          | 237            |
| 9.4.3                               | Relative clauses                                          | 238            |
| 9.4.4                               | Verbal-complement clauses                                 | 238            |
| 9.4.5                               | Adverbial clauses                                         | 239            |
| 9.4.6                               | Free-standing independent clauses                         | 240            |
| 9.5                                 | Verb-phrase nominalized clauses                           | 241            |
| 9.6                                 | Summary                                                   | 242            |
| <b>CHAPTER 10: CLAUSE COMBINING</b> |                                                           | <b>243-266</b> |
| 10.0                                | Outline                                                   | 243            |
| 10.1                                | Subordination                                             | 243            |

|                                                         |                                   |                |
|---------------------------------------------------------|-----------------------------------|----------------|
