

# **CONVERGING REALITIES**

TOWARD A COMMON PHILOSOPHY  
OF PHYSICS AND MATHEMATICS

**Roland Omnès**

PRINCETON UNIVERSITY PRESS  
PRINCETON AND OXFORD

# Contents

PREFACE vii

## *PART ONE - PRELIMINARIES*

### **CHAPTER ONE**

Beginnings 3

### **CHAPTER TWO**

Brain and Reality 12

### **CHAPTER THREE**

Mathematics and Classical Reality 22

## *PART TWO - REALITY AND THE QUANTUM WORLD*

### **CHAPTER FOUR**

First Encounter with the Quantum World 51

### **CHAPTER FIVE**

Quantity and Reality 65

### **CHAPTER SIX**

More about Physical Quantities 76

### **CHAPTER SEVEN**

On the Extent of the "Lingua Mathematica" 86

### **CHAPTER EIGHT**

Virtual Processes 95

### **CHAPTER NINE**

Back to Classical Reality 105

CONTENTS

**CHAPTER TEN**

Decoherence 114

**CHAPTER ELEVEN**

Did You Say "Paradox"? 126

*PART THREE - THE CHARACTER OF PHYSICAL LAWS*

**CHAPTER TWELVE**

The Character of Fundamental Laws 141

**CHAPTER THIRTEEN**

The Character of Classical Reality 164

*PART FOUR - PHYSISM*

**CHAPTER FOURTEEN**

The Philosophy of Mathematics 179

**CHAPTER FIFTEEN**

Physism: The Thesis 199

**CHAPTER SIXTEEN**

Physism and the Philosophy of Mathematics 216

**CHAPTER SEVENTEEN**

Physism: A Discussion 231

**CHAPTER EIGHTEEN**

Ontology 243
