## CHAPTER 1

### MULTIDIMENSIONAL ANALYSIS IN THE STUDY OF ENVIRONMENTAL BEHAVIOR AND ENVIRONMENTAL DESIGN

REGINALD G. GOLLEDGE

Measurement and Data . . . . .	2
Some Multidimensional Methods . . . . .	4
Fundamentals of Multidimensional Scaling . . . . .	5
Factor Analysis . . . . .	20
Cluster Analysis . . . . .	29
Repertory Grids . . . . .	34
Some Other Multivariate Methods . . . . .	35
Summary . . . . .	36
References . . . . .	38

## CHAPTER 2

### UNDERSTANDING PROFESSIONAL MEDIA: ISSUES, THEORY, AND A RESEARCH AGENDA

DONALD APPLEYARD

Roles of Simulation in the Planning/Design Process . . . . .	47
Analysis of the Existing Environment . . . . .	47
Design Generation . . . . .	47
Presentation and Public Communication . . . . .	48
A Communications Model of the Planning-Review Process . . . . .	48

The Proponents . . . . .	50
The Evaluators . . . . .	53
Simulations . . . . .	54
The Information Base and Storage System . . . . .	55
Simulation Media and Presentation Formats . . . . .	56
The Simulation Setting . . . . .	56
Public Criteria for Simulation Media . . . . .	57
Realism: Which Reality? Whose Reality? . . . . .	58
Accuracy . . . . .	60
Comprehensibility and Evaluation . . . . .	61
Engagement . . . . .	62
Costs and Flexibility . . . . .	63
Initial Costs . . . . .	63
Production Costs . . . . .	64
Flexibility . . . . .	64
Conflicts Among Criteria . . . . .	65
Assessing Realism . . . . .	65
Visual Replication . . . . .	66
Detail and Texture . . . . .	66
Tone . . . . .	67
Color . . . . .	67
Field of View . . . . .	67
Multiple Viewpoints . . . . .	68
Three-Dimensionality . . . . .	68
Movement . . . . .	69
Sound . . . . .	69
The Media . . . . .	70
Verbal Descriptions . . . . .	70
Architectural Plans, Sections and Elevations, Site and Land- Use Plans . . . . .	71
Aerial Perspectives, Axonometrics . . . . .	72
Ground-Level Perspectives . . . . .	72
Photomontage . . . . .	74
Perspective Sequences . . . . .	75
Abstract Models . . . . .	77
Naturalistic Models . . . . .	77
Computer Graphics . . . . .	79
Model Simulators . . . . .	80
Evaluating the Media . . . . .	83
Research Agenda . . . . .	83
References . . . . .	86

CHAPTER 3

ENVIRONMENTAL STRESS

RICHARD S. LAZARUS  
 JUDITH BLACKFIELD COHEN

Sources of Stress . . . . .	90
Environmental Stressors . . . . .	90
Person-Induced Stress . . . . .	99
Stress-Response Characteristics . . . . .	101
Somatic . . . . .	101
Behavioral . . . . .	102
Subjective . . . . .	105
Inadequacies of Conventional Approaches to Stress . . . . .	105
An Alternative Model . . . . .	108
Stress at Different Levels of Analysis . . . . .	108
Mediating Processes . . . . .	110
Transaction and Interaction . . . . .	112
Implications for Environmental Psychology Research . . . . .	115
Implications for Research on Stress and Coping . . . . .	120
References . . . . .	121

CHAPTER 4

APPLIED BEHAVIOR ANALYSIS AND THE SOLUTION OF ENVIRONMENTAL PROBLEMS

JOHN D. CONE  
 STEVEN C. HAYES

Introduction . . . . .	129
The Current State of Environmental Psychology and the Solution of Environmental Problems . . . . .	130
The Applied Analysis of Environmentally Relevant Behavior . . . . .	131
Environmental Aesthetics . . . . .	134
The Problem of Littering . . . . .	134
The Problem of Noise . . . . .	142
Conserving Natural and Human-Produced Resources . . . . .	147
Promoting Recycling . . . . .	147
Changing the Use of Transportation Systems . . . . .	151
Changing Patterns and Levels of Energy Use . . . . .	159

Conclusions and Implications . . . . .	172
Problem-Focused Research . . . . .	172
Generalization to Other Environmental Problems . . . . .	173
Synergistic Effects . . . . .	176
References . . . . .	176

## CHAPTER 5

### PERSONAL SPACE: AN ANALYSIS OF E. T. HALL'S PROXEMICS FRAMEWORK

IRWIN ALTMAN  
ANNE M. VINSEL

Introduction . . . . .	181
Spatial Distances and Zones . . . . .	183
Intimate Distance . . . . .	183
Personal Distance . . . . .	184
Social Distance . . . . .	185
Public Distance . . . . .	186
Qualifications Concerning Spatial Zones . . . . .	187
The Rationale for Four Spatial Zones . . . . .	187
Qualifying Factors . . . . .	188
Culture and Proxemics . . . . .	189
The Present Status of Research on Personal Space . . . . .	191
Methods of Study . . . . .	191
Content Areas of Research . . . . .	192
Plan for Analyzing Research on Personal Space . . . . .	193
General Characteristics of Personal Space Research . . . . .	194
Methodological Features of Research on Distancing Behavior	194
Use of Spatial Zones . . . . .	197
Studies of Spatial Intrusion and Invasion . . . . .	201
General Characteristics of Invasion Studies . . . . .	202
Findings of Spatial-Invasion Studies . . . . .	203
Reactions to Intruding on Others . . . . .	210
Interpersonal Relationships and Spatial Distance . . . . .	211
General Characteristics of Studies of Interpersonal	
Relationships . . . . .	212
Findings of Studies of Interpersonal Relations and Distance .	213
Individual Characteristics and Spatial Distance . . . . .	218
General Characteristics of Studies on Individual Factors . .	219
Findings of Studies of Individual Factors and Distance . .	228

Relationship between Distance and Other Behaviors . . . . .	230
General Characteristics of Studies of the Relationship between Distance and Other Behaviors . . . . .	231
Findings of Studies of the Relationship between Distance and Other Behaviors . . . . .	238
Culture and Personal Space . . . . .	240
General Characteristics of Studies of Culture and Distance . . . . .	241
Findings of Studies of Culture and Distance . . . . .	245
Summary and Conclusions . . . . .	249
Summary of Findings . . . . .	249
Directions for Future Research . . . . .	252
A Final Note . . . . .	254
References . . . . .	254

## CHAPTER 6

ENERGY AND THE STRUCTURING OF SOCIETY:  
METHODOLOGICAL ISSUES

SAMUEL Z. KLAUSNER

Tools for Thinking about Energy and Society . . . . .	261
Man-Environment Knowledge as Part of Knowledge about Society . . . . .	262
A Nesting System and Its Levels of Generality . . . . .	264
Energy as an Environmental Issue . . . . .	267
Environment and Culture: The General Connection . . . . .	267
Environment as a Socially Integrative Focus . . . . .	268
The Resolution of Environmental Conflicts . . . . .	275
Energy in Society . . . . .	277
Energy: The Social Potentiator . . . . .	278
Socially Relevant Characteristics of Energy . . . . .	281
Social Changes Associated with Energy . . . . .	282
A Research Suggestion . . . . .	286
Appendix A: On Social Science, Philosophical Anthropology, and Social Policy . . . . .	288
Appendix B: The Nested System: A Short Commentary . . . . .	289
The Three-Termed Unit Act . . . . .	290
The Cultural Paradigm . . . . .	291
Institutional Rules . . . . .	292
Relational Organizations . . . . .	292
Ecological Units and Ecological Organizations . . . . .	294

The Articulation of the Systems . . . . .	295
Appendix C: Indicators for the Energy-Society Model . . . . .	298
References . . . . .	303

## CHAPTER 7

### THE USE OF SOCIAL INDICATORS IN ENVIRONMENTAL PLANNING

STUART H. MANN

Introduction . . . . .	307
Social Indicators: Integral Components of Environmental Planning Models . . . . .	308
Some Questions to be Addressed . . . . .	308
A Brief History of the Social-Indicator Movement . . . . .	309
Environmental Planning in a General Systems-Theory Framework . . . . .	313
Planning Definition . . . . .	313
Definition of Environment . . . . .	313
Systems Definitions and Their Relevance to Social Indicators and Environmental Planning . . . . .	314
Social Indicators as Measures of System Performance . . . . .	318
Some Traditional Indicators . . . . .	318
Characteristics of Systems Allowing Measurement of Change	320
Characteristics of Social Indicators that Measure System Change . . . . .	320
A Measure of Perceived Life Quality . . . . .	321
A Measure of Satisfaction with the Allocation of Time . . . . .	323
Leisure Time . . . . .	326
Social Alienation . . . . .	326
Environmental Planning . . . . .	327
Conclusion . . . . .	328
References . . . . .	329
INDEX . . . . .	331
