

Table of Contents

Preface	VII
1. Topological Foundations	1
1.1 Manifolds and Differentiable Manifolds	1
1.2 Homotopy of Maps. The Fundamental Group	3
1.3 Coverings	7
1.4 Global Continuation of Functions on Simply-Connected Manifolds	16
2. Differential Geometry of Riemann Surfaces	19
2.1 The Concept of a Riemann Surface	19
2.2 Some Simple Properties of Riemann Surfaces	22
2.3 Metrics on Riemann Surfaces	23
2.3.A Triangulations of Compact Riemann Surfaces	34
2.4 Discrete Groups of Hyperbolic Isometries. Fundamental Polygons. Some Basic Concepts of Surface Topology and Geometry	41
2.4.A The Topological Classification of Compact Riemann Surfaces	55
2.5 The Theorems of Gauss-Bonnet and Riemann-Hurwitz	59
2.6 A General Schwarz Lemma	66
2.7 Conformal Structures on Tori	74
3. Harmonic Maps	81
3.1 Review: Banach and Hilbert Spaces. The Hilbert Space L^2 ..	81
3.2 The Sobolev Space $W^{1,2} = H^{1,2}$	93
3.3 The Dirichlet Principle. Weak Solutions of the Poisson Equation	102
3.4 Harmonic and Subharmonic Functions	106
3.5 The C^α -Regularity Theory	113
3.6 Maps Between Surfaces. The Energy Integral. Definition and Simple Properties of Harmonic Maps	120
3.7 Existence of Harmonic Maps	126
3.8 Regularity of Harmonic Maps	135

3.9	Uniqueness of Harmonic Maps	140
3.10	Harmonic Diffeomorphisms	145
3.11	Metrics and Conformal Structures	154
4.	Teichmüller Spaces	161
4.1	The Basic Definitions	161
4.2	Harmonic Maps, Conformal Structures and Holomorphic Quadratic Differentials. Teichmüller's Theorem	164
4.3	Fenchel-Nielsen Coordinates. An Alternative Approach to the Topology of Teichmüller Space	174
4.4	Uniformization of Compact Riemann Surfaces	184
5.	Geometric Structures on Riemann Surfaces	189
5.1	Preliminaries: Cohomology and Homology Groups	189
5.2	Harmonic and Holomorphic Differential Forms on Riemann Surfaces	197
5.3	The Periods of Holomorphic and Meromorphic Differential Forms	205
5.4	Divisors. The Riemann-Roch Theorem	211
5.5	Holomorphic 1-Forms and Metrics on Compact Riemann Surfaces	222
5.6	Divisors and Line Bundles	224
5.7	Projective Embeddings	234
5.8	Algebraic Curves	242
5.9	Abel's Theorem and the Jacobi Inversion Theorem	254
5.10	Elliptic Curves	262
	Sources and References	269
	Bibliography	271
	Index of Notation	273
	Index	275
