Preface	V
1 Foundation	1
1.1 Knowledge	3
1.1.1 Knowledge in Organizational Settings	4
1.1.2 Definition	19
1.2 Knowledge Work	24
1.2.1 Definition and Characteristics	25
1.2.2 Traditional Work versus Knowledge Work	26
1.3 Knowledge Management	30
1.3.1 Roots of Knowledge Management	30
1.3.2 From Data to Knowledge Management	34
1.3.3 Definition	37
1.4 Knowledge Management Instruments	39
1.4.1 Definition	39
1.4.2 Classification	42
1.5 Information System Architectures	47
1.5.1 System Architectures	49
1.5.2 Enterprise Architectures	59
1.6 Knowledge Infrastructures	69
1.6.1 Perspectives on Knowledge Management	69
1.6.2 Characteristics	71
1.6.3 Definition	73
1.6.4 Architecture of Knowledge Infrastructure	75
2 Infrastructure	83
2.1 Network Infrastructure	84
2.1.1 Topologies	85
2.1.2 Geographical Expansion	87
2.1.3 Layered Network Architecture	88
2.2 Network Standards	90
2.2.1 Physical and Data Link Layer	90
2.2.2 Network and Transport Layer	99
2.2.3 Network Management	104
2.2.4 Network Hardware	106

2.3	Infrastructural Services	108
2.3.1	Storage	109
2.3.2	Access	119
2.3.3	Messaging	123
2.3.4	Security	124
2.4	Application Infrastructure	136
2.4.1	Application Server	136
2.4.2	Component Frameworks	139
3	Integration Services	147
3.1	Data Integration	149
3.1.1	Semi-structured Data	149
3.1.2	Uniform Resource Identifier and Unicode	151
3.1.3	Extensible Markup Language (XML)	153
3.1.4	XML Schema	158
3.1.5	XSL Transformation	162
3.2	Semantic Integration	171
3.2.1	Meta-data Standards	173
3.2.2	Ontology	175
3.2.3	Topic Maps	178
3.2.4	Resource Description Framework (RDF)	182
3.2.5	RDF Schema	188
3.2.6	Web Ontology Language (OWL)	192
3.2.7	Higher Levels of the Semantic Web Stack	197
3.3	User Integration	198
3.3.1	Terms and Definition	199
3.3.2	Account Management	199
3.3.3	Identity Management	201
3.4	Function and Process Integration	203
3.4.1	Function Integration	203
3.4.2	Process Integration	210
3.4.3	Web Service Composition	215
3.4.4	Semantic Web Services	218
4	Knowledge Services	225
4.1	Discovery Services	226
4.1.1	Preparation Phase	229
4.1.2	Search Process	232
4.1.3	Internet and Intranet Search Compared	239
4.1.4	Explorative Search	242

4.2	Publication Services	246
4.2.1	Document Life-Cycle	247
4.2.2	Content Life-Cycle	258
4.3	Collaboration Services	267
4.3.1	Communication	268
4.3.2	Cooperation	276
4.4	Learning Services	286
4.4.1	Foundation	286
4.4.2	Design	294
4.4.3	Learning	302
5	Access Services	311
5.1	Server-side Access Technologies	312
5.1.1	Portals	312
5.1.2	Personalization	316
5.2	Client-side Access Technologies	320
5.2.1	Thin Clients	320
5.2.2	Rich Thin Clients	323
5.2.3	Rich Clients	324
5.2.4	Desktop Integration	326
5.3	Mobile Access	334
5.3.1	Mobile Computing	334
5.3.2	Mobile Devices	337
5.3.3	Mobile Applications	343
6	Conclusion	351
6.1	Activity-based Support for Knowledge Work	352
6.2	State-of-Practice of Knowledge Management	355
6.3	Supporting KM Instruments	360
6.4	Centralized versus Distributed Architectures	364
6.5	The Future of Knowledge Infrastructures	368
	Bibliography	373
	Index	379
