|  |     |
|--|-----|
| <b>Preface</b> .....   | ix  |
| <b>Some Novel Aspects of the Cauchy Problem</b>                                  |     |
| <i>Leon Ehrenpreis</i> .....   | 1   |
| <b>Analytic and Algebraic Ideas: How to Profit from Their Complementarity</b>    |     |
| <i>Alain Yger</i> .....  | 15  |
| <b>On Certain First-Order Partial Differential Equations in <math>C^n</math></b> |     |
| <i>Carlos A. Berenstein, Bao Qin Li</i> .....                                    | 29  |
| <b>Hermite Operator on the Heisenberg Group</b>                                  |     |
| <i>Ovidiu Calin, Der-Chen Chang, Jingzhi Tie</i> .....                           | 37  |
| <b>A Div-Curl Lemma in BMO on a Domain</b>                                       |     |
| <i>Der-Chen Chang, Galia Dafni, Cora Sadosky</i> .....                           | 55  |
| <b>Subharmonic Functions on Discrete Structures</b>                              |     |
| <i>Christer O. Kiselman</i> .....  | 67  |
| <b>Nearly Hyperbolic Varieties and Phragmén–Lindelöf Conditions</b>              |     |
| <i>R. W. Braun, R. Meise, B. A. Taylor</i> .....                                 | 81  |
| <b>Sampling and Local Deconvolution</b>  |     |
| <i>David F. Walnut</i> .....   | 97  |
| <b>Orthogonal Projections on Hyperbolic Space</b>                                |     |
| <i>Yuying Qiao, John Ryan</i> .....  | 111 |
| <b>Eigenwavelets of the Wave Equation</b>  |     |
| <i>Gerald Kaiser</i> .....   | 121 |

**Security Analysis and Extensions of the PCB Algorithm for Distributed  
Key Generation**

*Radha Poovendran, Brian Matt* ..... 135

**Quotient Signal Estimation**

*D. Napoletani, C. A. Berenstein, P. Krishnaprasad, D. C. Struppa* ..... 151
