<b>1 Overview of Flexible Electronics Technology</b> .....	1
I-Chun Cheng and Sigurd Wagner	
1.1 History of Flexible Electronics .....	1
1.2 Materials for Flexible Electronics .....	3
1.2.1 Degrees of Flexibility .....	3
1.2.2 Substrates .....	5
1.2.3 Backplane Electronics .....	8
1.2.4 Frontplane Technologies .....	12
1.2.5 Encapsulation .....	16
1.3 Fabrication Technology for Flexible Electronics .....	18
1.3.1 Fabrication on Sheets by Batch Processing .....	18
1.3.2 Fabrication on Web by Roll-to-Roll Processing .....	19
1.3.3 Additive Printing .....	20
1.4 Outlook .....	20
References .....	20
<b>2 Mechanical Theory of the Film-on-Substrate-Foil Structure: Curvature and Overlay Alignment in Amorphous Silicon Thin-Film Devices Fabricated on Free-Standing Foil Substrates</b> .....	29
Helena Gleskova, I-Chun Cheng, Sigurd Wagner, and Zhigang Suo	
2.1 Introduction .....	29
2.2 Theory .....	32
2.2.1 The Built-in Strain $\epsilon_{bi}$ .....	35
2.3 Applications .....	36
2.3.1 Strain in the Substrate, $\epsilon_s(T_d)$ , and the Film, $\epsilon_f(T_d)$ , at the Deposition Temperature $T_d$ .....	36
2.3.2 Strain in the Substrate, $\epsilon_s(T_r)$ , and the Film, $\epsilon_f(T_r)$ , at Room Temperature $T_r$ .....	38
2.3.3 Radius of Curvature $R$ of the Workpiece .....	42
2.3.4 Strain of the Substrate and the Curvature of the Workpiece for a Three-Layer Structure .....	46
2.3.5 Experimental Results for a-Si:H TFTs Fabricated on Kapton .....	47

2.4	Conclusions .....	50
	References .....	50
<b>3</b>	<b>Low-temperature Amorphous and Nanocrystalline Silicon Materials and Thin-film Transistors .....</b>	<b>53</b>
	Andrei Sazonov, Denis Striakhilev, and Arokia Nathan	
3.1	Introduction .....	53
3.2	Low-temperature Amorphous and Nanocrystalline Silicon Materials .....	55
3.2.1	Fundamental Issues for Low-temperature Processing .....	55
3.2.2	Low-temperature Amorphous Silicon .....	56
3.2.3	Low-temperature Nanocrystalline Silicon .....	56
3.3	Low-temperature Dielectrics .....	57
3.3.1	Characteristics of Low-temperature Dielectric Thin-film Deposition .....	57
3.3.2	Low-temperature Silicon Nitride Characteristics .....	57
3.3.3	Low-temperature Silicon Oxide Characteristics .....	58
3.4	Low-temperature Thin-film Transistor Devices .....	59
3.4.1	Device Structures and Materials Processing .....	60
3.4.2	Low-temperature a-Si:H Thin-Film Transistor Device Performance .....	61
3.4.3	Contacts to a-Si:H Thin-film Transistors .....	62
3.4.4	Low-temperature Doped nc-Si Contacts .....	64
3.4.5	Low-temperature nc-Si TFTs .....	66
3.5	Device Stability .....	67
3.6	Conclusions and Future Prospective .....	70
	References .....	70
