| LIST OF TABLES | iv |
| LIST OF FIGURES | v |
| FOREWORD | xi |
| PREFACE | xii |
| ACKNOWLEDGEMENTS | xiii |
| ABSTRACT | xv |
| 1. CHAPTER ONE. INTRODUCTION: ROCK-ART, OPEN-AIR ROCK-ART AND THE CÔA VALLEY | 1 |
| Rock-art in context | 1 |
| Open-air rock-art | 3 |
| Rock-art in the Côa Valley, Portugal..... | 4 |
| Approaching preservation and conservation of the Côa Valley rock-art | 12 |
| Preservation of the Côa Valley rock-art..... | 12 |
| Conservation of the Côa Valley rock-art..... | 13 |
| Questions, Aims, and Objectives | 14 |
| Methods and approaches..... | 14 |
| Sample selection | 14 |
| Conclusion | 19 |
| 2. CHAPTER TWO. LITERATURE REVIEW OF OPEN-AIR ROCK-ART CONSERVATION ISSUES | 21 |
| Open-air rock-art conservation | 21 |
| Transdisciplinary approaches..... | 22 |
| The importance of documenting rock-art..... | 23 |
| Understanding natural degradation of open-air rock-art | 24 |
| Open-air rock-art conservation and climate | 25 |
| Conservation interventions on open-air rock-art | 26 |
| Experiments in the Côa Valley | 26 |
| Ethical and aesthetic issues regarding conservation work | 27 |
| Rock-art removal | 28 |
| Removal for conservation purposes | 28 |
| Conclusion | 29 |
| 3. CHAPTER THREE. ANALYSIS OF RELEVANT INTERNATIONAL CASE STUDIES. | 31 |
| Norway | 31 |
| Management, preservation and conservation issues..... | 33 |
| Conservation work at Ausevik | 35 |
| Piauí, Brazil | 37 |
| Management issues at Capivara | 39 |
| Conservation interventions at Capivara | 40 |
| Arizona, United States of America | 42 |
| Visits to rock-art sites | 43 |
| Management, preservation, and conservation issues..... | 45 |
| Rock coatings..... | 47 |
| Ronald Dorn and the Rock Art Stability Index (RASI) | 47 |
| Bangudae, South Korea | 48 |
| Preservation and conservation issues | 48 |
| Conclusion..... | 49 |

| | |
|--|-----|
| 4. CHAPTER FOUR. CHARACTERIZATION OF THE LOWER CÔA REGION WITH A FOCUS ON CLIMATE PATTERNS | 51 |
| General background..... | 51 |
| Regional geomorphological and geological setting..... | 52 |
| Climate in the Lower C a Valley region..... | 54 |
| Macro and medium-scale analysis..... | 54 |
| Microclimate variables in the Park’s territory..... | 62 |
| Overall conclusions..... | 70 |
| Air temperature..... | 70 |
| Precipitation and relative humidity..... | 71 |
| Final considerations on climate change..... | 72 |
| | |
| 5. CHAPTER FIVE. EVALUATION OF RISK FACTORS TO ASSESS AND MONITOR THE CONDITION OF THE C A VALLEY ROCK-ART OUTCROPS | 75 |
| Rock characteristics..... | 75 |
| Mineralogical characteristics..... | 75 |
| Chemical characteristics..... | 75 |
| Porosity properties..... | 75 |
| Rock Strength..... | 76 |
| Weathering processes..... | 76 |
| Physical weathering processes..... | 76 |
| Chemical weathering processes..... | 82 |
| Rock coatings..... | 82 |
| Setting..... | 83 |
| Slope..... | 83 |
| Aspect..... | 84 |
| Biodeterioration..... | 86 |
| Micro-organisms..... | 86 |
| Lichens..... | 87 |
| Plants..... | 88 |
| Animals..... | 89 |
| Regional scale processes and phenomena affecting outcrops..... | 90 |
| Acidity of ground water..... | 90 |
| Flooding..... | 90 |
| Seismicity..... | 90 |
| Conclusion..... | 91 |
| | |
| 6. CHAPTER SIX. CONDITION ASSESSMENT OF SAMPLE OUTCROPS | 92 |
| Rock characteristics assessment..... | 92 |
| Mineralogical characteristics..... | 92 |
| Chemical characteristics..... | 93 |
| Porosity characteristics..... | 93 |
| Rock strength..... | 95 |
| Tilting of outcrops..... | 95 |
| Risk characterization..... | 95 |
| Physical weathering processes assessment..... | 98 |
| Physical weathering risk characterization..... | 98 |
| Setting assessment..... | 100 |
| Slope..... | 100 |
| Aspect..... | 101 |
| Biodeterioration assessment..... | 112 |
| Lichens..... | 112 |
| Plants..... | 113 |
| Animals..... | 113 |
| Biodeterioration risk characterization..... | 113 |
| Flooding..... | 116 |
| Flooding risk characterization..... | 116 |
| Conclusion..... | 116 |

| | |
|---|------------|
| 7. CHAPTER SEVEN. CREATION AND CONCLUDING REMARKS ON MERITS, WEAKNESSES AND APPLICABILITY OF THE URGENCY SCALE | 117 |
| Creation of the intervention urgency scale | 117 |
| Pondering issues..... | 118 |
| Individual categories ranking system..... | 119 |
| Intervention urgency scale, cross tabulation of results and relevant insights | 120 |
| Concluding remarks: Merits, limitations and applicability of the intervention urgency scale..... | 124 |
| | |
| APPENDIX A. DATABASE OF COLLECTED INFORMATION REGARDING THE CONDITION OF ANALYSED OUTCROPS | 126 |
| | |
| APPENDIX B. ROCK SAMPLES FROM THE CÔA | 286 |
| | |
| APPENDIX C. SEM CHEMICAL ANALYSIS RESULTS | 289 |
| | |
| BIBLIOGRAPHY | 295 |
