| Breaking of e to jo, ju 241 | | | | |

WGm. **u* and **o* in coastal Dutch

- 15.1 Research history and preliminaries 244
 - 15.1.1 Research history 244
 - 15.1.2 On the presence vs. absence of an *i*-mutation factor 251
 - 15.1.3 On the allophones **u* and **o* **251**
 - 15.1.4 On closed and open syllables 252
 - 15.1.5 On the graphemics of rounded vowels 253

15.2 Unrounding of **ü* **254**

- 15.2.1 Unrounding in closed syllable 257
- 15.2.2 Flemish unrounding before rC 278
- 15.2.3 Unrounding in open syllable 282
- 15.2.4 Alleged evidence to be dismissed 289
- 15.2.5 Summary and interpretation 301
 - a. In closed syllable 301
 - b. In open syllable 305
 - c. General conclusions 307
 - d. On the geographic distinction between i and e 308
- 15.3 Fronting of **u* and **o* in coastal Dutch **309**
 - 15.3.1 Short vowel 310
 - A. With *i*-mutation 310
 - B. Without *i*-mutation 321
 - 15.3.2 Lengthened vowel 342
 - A. With *i*-mutation **342**
 - B. Without *i*-mutation 357
 - 15.3.3 Etymological variation between /u/ and /ü/ 367
 - 15.3.4 Summaries 372
 - 15.3.5 Interpretation 384

CHAPTER 16

WGm. *ū

- 16.1 Period and conditioning of the fronting 391
- 16.2 Oe-relics in coastal Dutch toponyms 394
- 16.3 Oe-relics in the Standard Dutch vocabulary 397
- 16.4 Conclusion 403

CHAPTER 17

WGm. **ea*, *eo and *ō

- 17.1 Coastal Dutch *ee* for StDu. *ie* **405**
- 17.2 Coastal Dutch oo for StDu. oe 408
