	<b>Preface</b>	<i>xi</i>
	<b>List of Abbreviations</b>	<i>xiii</i>
<b>1</b>	<b>Atovaquone: An Antipneumocystic Agent</b>	<b>1</b>
	Answers	4
	References	8
<b>2</b>	<b>SEN794: An SMO Receptor Antagonist</b>	<b>9</b>
	Answers	13
	References	20
<b>3</b>	<b>Synthesis of an H1–H3 Antagonist</b>	<b>21</b>
3.1	Synthesis of Fragment 2	21
3.2	Synthesis of Fragment 3	26
3.3	Fragment Assembly and End of Synthesis	27
	Answers	29
	References	40
<b>4</b>	<b>Synthesis of Eletriptan</b>	<b>41</b>
	Answers	45
	References	50
<b>5</b>	<b>Total Synthesis and Structure Revision of Streptophenazine A</b>	<b>51</b>
	Answers	54
	References	59
<b>6</b>	<b>Synthesis of Leiodermatolide, A Biologically Active Macrolide</b>	<b>61</b>
6.1	Access to Fragment C	62
6.1.1	Preparation of Compound 2	62
6.1.2	Preparation of Compound 7	63
6.1.3	Preparation of Compound 12	63
6.1.4	Preparation of Fragment C	65
6.2	Access to Fragment D	65
6.2.1	Preparation of Compound 26	65
6.2.2	Preparation of Fragment D	66
6.3	Final Steps	67

- 6.3.1 Assembly of B and Formation of A by Ring-Closing Alkyne Metathesis 67
- 6.3.2 Coupling of Sugar and Macrocycle 68
  - Answers 68
  - References 76
  
- 7 Azobenzene-Thiourea Catalysts for the Control of Chemical Reactivity with Light 77**
  - 7.1 Synthesis of Azobenzene-Thiourea Derivatives 77
  - 7.2 Investigation of Catalytic Properties 82
    - Answers 85
    - References 92
  
- 8 Synthesis and Properties of a Photo-activatable Mimic of Pyridoxal 5'-Phosphate 93**
  - Answers 99
  - References 105
  
- 9 Fluorescent Peptides for Monitoring Activity of Autophagy-Initiating Enzyme 107**
  - 9.1 Solid-Phase Synthesis of a Putative Fluorogenic Peptide Substrate for ATG4B 107
  - 9.2 Evaluation as Fluorogenic Substrates for ATG4B 108
  - 9.3 Solution-Phase Synthesis of a Fluorogenic Substrate Analog Containing a Self-Immolating Linker 111
    - Answers 112
    - References 118
  
- 10 Fluorescent Peptide Probes for Cathepsin B 119**
  - 10.1 Solution Synthesis of a Water-Soluble Cyanine Fluorophore 119
  - 10.2 Synthesis of a Water-Soluble Cyanine Fluorophore Using a Polymeric Support 121
  - 10.3 Synthesis and Evaluation of Cyanine-Based NIR Peptide Probes for Monitoring Cathepsin B Activity 123
    - Answers 129
    - References 138
  
- 11 Total Synthesis of Stemoamide 141**
  - 11.1 Radical Approach to the Construction of the Tricyclic Core of Stemoamide 141
  - 11.2 Formal Synthesis of ( $\pm$ )-Stemoamide 143
  - 11.3 Enantioselective Total Synthesis of (-)-Stemoamide 145
    - Answers 148
    - References 158
  
- 12 Total Synthesis and Structure Revision of Caraphenol B 159**
  - 12.1 Synthesis of the Proposed Structure of Caraphenol B 159

12.2	Synthesis of the Revised Structure of Caraphenol B	162
	Answers	164
	References	170
<b>13</b>	<b>Synthetic Routes Toward Muricatacin and Analogs</b>	<b>171</b>
13.1	Synthesis of (+)-Muricatacin	171
13.2	Synthesis of (+)- <i>epi</i> -Muricatacin by Enantioselective Ketone Reduction	173
13.3	Synthesis of (-)-Muricatacin	176
	Answers	178
	References	187
<b>14</b>	<b>Asymmetric Synthesis of (-)-Martinelllic Acid</b>	<b>189</b>
14.1	Preliminary Studies: Toward the Formation of a Model Tricyclic Compound	189
14.2	Synthesis of an Advanced Intermediate	192
14.3	Completion of the Synthesis	194
	Answers	196
	References	203
<b>15</b>	<b>Cyclic Pseudopeptides as Potent Integrin Antagonists</b>	<b>205</b>
15.1	Conformational Analysis	205
15.2	Synthesis of Bicyclic Lactam Templates	208
15.3	Solid Phase Peptide Synthesis	211
15.4	Pharmacological Study	214
	Answers	215
	References	224
<b>16</b>	<b>Enantioselective Synthesis of Nonnatural Amino Acids for Incorporation in Antimicrobial Peptides</b>	<b>227</b>
16.1	First Generation Mimetics: Synthesis and Biological Evaluation	227
16.2	Structural Analysis and Mechanism of Action	229
16.3	Sequence Optimization: Synthesis of Nonnatural Amino Acids	231
16.3.1	Synthesis of Homophenylalanine (Hfe)	231
16.3.2	Synthesis of Phenylglycine (Phg)	232
16.3.3	Synthesis of 4-Chlorophenylalanine (Clf)	234
16.3.4	Synthesis of 2-Naphtylalanine (2-Nal)	235
16.3.5	Synthesis of 1-Naphtylalanine (1-Nal)	235
16.3.6	Synthesis of Cyclohexylalanine (Cha)	236
16.3.7	Synthesis of Norleucine (Nle)	237
16.3.8	Synthesis of Biphenylalanine (Bip)	238
	Answers	240
	References	256
