Contents

Chapter 1. Introduction 1
  1.1. Motivation 1
  1.2. Background to the Ratios Conjectures 2

Chapter 2. Eigenvalue Statistics of Orthogonal Matrices 9
  2.1. Integral Theorem 9
  2.2. Ratios Theorem 12
  2.3. Residue Lemma 14
  2.4. n-level Density of Orthogonal Matrices 18

Chapter 3. Eigenvalue Statistics of Symplectic Matrices 27
  3.1. Integral Theorem 27
  3.2. Ratios Theorem 28
  3.3. Residue Theorem 29
  3.4. n-level Density of Symplectic Matrices 30

Chapter 4. L-functions 33
  4.1. L-functions: a definition 33
  4.2. Elliptic Curve L-functions 34
  4.3. Dirichlet L-functions 36
  4.4. Grand Riemann Hypothesis (GRH) 37
  4.5. Twisting L-functions into Families 37

Chapter 5. Zero Statistics of Elliptic Curve L-functions 41
  5.1. Ratios of Elliptic Curve L-functions 41
  5.2. Discussion of the Error Term 43
  5.3. Differentiating Ratios of Elliptic Curve L-functions 44
  5.4. Residue Theorem for Elliptic Curve L-functions 49
  5.5. n-level Density of Zeros of Families of L-functions of Elliptic Curves 54

Chapter 6. Zero Statistics of Quadratic Dirichlet L-functions 63
  6.1. Ratios of Quadratic Dirichlet L-functions 63
  6.2. Differentiating Ratios of Quadratic Dirichlet L-functions 64
  6.3. Residue Theorem for Quadratic Dirichlet L-functions 66
  6.4. n-level Density of Zeros of Families of Quadratic Dirichlet L-functions 66

Chapter 7. n-level Densities with Restricted Support 71
  7.1. Orthogonal 72
  7.2. Symplectic 74
