London Mathematical Society Lecture Note Series: 445

Introduction to Hidden Semi-Markov Models

JOHN VAN DER HOEK
University of South Australia

ROBERT J. ELLIOTT
University of South Australia and University of Calgary

CAMBRIDGE
UNIVERSITY PRESS

Contents

Preface *page* ix

1 Observed Markov Chains 1
- 1.1 Introduction 1
- 1.2 Observed Markov chain models 1
- 1.3 Notation 4
- 1.4 Construction of Markov chains 6
- 1.5 The general Markov chain 12
- 1.6 Conclusion 17
- 1.7 Exercises 17

2 Estimation of an Observed Markov Chain 18
- 2.1 Introduction 18
- 2.2 Estimation based on one sample path 18
- 2.3 Estimation using K sample paths of length L 23
- 2.4 Markov chains of order $M \geq 2$ 25
- 2.5 Exercises 28

3 Hidden Markov Models 29
- 3.1 Definitions 29
- 3.2 Calculation of the likelihood 38
- 3.3 Exercises 46

4 Filters and Smoothers 47
- 4.1 Introduction 47
- 4.2 Decoding 50
- 4.3 Further remarks on filters and smoothers 51
- 4.4 Exercises 55

5 The Viterbi Algorithm 56
- 5.1 Introduction 56

	5.2	Viterbi decoding	58
	5.3	Estimation of the model	61
	5.4	Exercises	63
6	**The EM Algorithm**		64
	6.1	Introduction	64
	6.2	Steps of the EM algorithm	66
	6.3	Exercises	74
7	**A New Markov Chain Model**		75
	7.1	Introduction	75
	7.2	Construction of the model	76
	7.3	Filters	79
	7.4	Smoothers	82
	7.5	The Viterbi algorithm	88
	7.6	Parameter estimation by the EM algorithm	90
	7.7	Steps of the EM algorithm	91
	7.8	Exercises	97
8	**Semi-Markov Models**		98
	8.1	Introduction	98
	8.2	Semi-Markov models	98
	8.3	Transition probabilities for semi-Markov chains	100
	8.4	Exercises	109
9	**Hidden Semi-Markov Models**		110
	9.1	Introduction	110
	9.2	A semi-martingale representation for a semi-Markov chain	113
	9.3	Construction of the semi-Markov model	117
	9.4	Hidden semi-Markov models	117
	9.5	Exercises	124
10	**Filters for Hidden Semi-Markov Models**		125
	10.1	Introduction	125
	10.2	The Viterbi algorithm	126
	10.3	Smoothers	129
	10.4	EM algorithm for estimating a hidden semi-Markov model	139
Appendix A	**Higher-Order Chains**		147
Appendix B	**An Example of a Second-Order Chain**		151
Appendix C	**A Conditional Bayes Theorem**		156

Appendix D **On Conditional Expectations** 158

Appendix E **Some Molecular Biology** 161

Appendix F **Earlier Applications of Hidden Markov Chain Models** 165
