FOREWORD	3
READER'S GUIDE	6
GENDER MATTERS?	8
▪ Why study gender differences?	8
▪ Overview.....	9
WHAT DOES THE LITERATURE SAY ABOUT GENDER DIFFERENCES FROM EARLY CHILDHOOD TO THE LABOUR MARKET?	9
▪ The structure of the brain	9
▪ Primary education	9
- Reading at grade 4 (PIRLS).....	9
- Mathematics and Science at grade 4 (TIMSS).....	10
▪ Secondary education	10
- Mathematics and science at grade 8 (TIMSS)	10
- Secondary level attainment.....	10
▪ Tertiary education	12
- Entrance into tertiary education	12
- Graduation from tertiary education.....	13
▪ Labour market.....	15
WHAT CAN PISA SAY ABOUT GENDER DIFFERENCES?	15
WHAT DID PISA 2000 TELL US ABOUT GENDER DIFFERENCES IN READING?	16
▪ Student performance	16
▪ Trends in gender differences in reading between PISA 2000 and PISA 2006.....	17
▪ Student interest and engagement in reading.....	17
▪ Other gender differences found in PISA 2000	18
WHAT DID PISA 2003 TELL US ABOUT GENDER DIFFERENCES IN MATHEMATICS?	19
▪ Student performance.....	19
▪ Trends in gender differences in mathematics between PISA 2003 and PISA 2006.....	20
▪ Student attitudes	20
WHAT DID PISA 2003 TELL US ABOUT GENDER DIFFERENCES IN PROBLEM SOLVING?	21

WHAT DID PISA 2006 TELL US ABOUT GENDER DIFFERENCES IN SCIENCE?..	22
▪ The PISA science framework	22
▪ Student performance.....	23
- Overall performance in science	23
- Performance in the competency <i>identifying scientific issues</i>	24
- Performance in the competency <i>explaining phenomena scientifically</i>	27
- Performance in knowledge about science	32
- Performance in the “Physical systems” area of knowledge of science	32
- Performance in the “Living systems” area of knowledge of science	33
- Performance in the “Earth and space systems” area of knowledge of science ..	33
▪ Gender differences within schools	33
▪ A typology of gender differences in science	34
▪ Computer-based assessment of science (CBAS) in PISA 2006	34
▪ Student attitudes	36
- Science performance and attitudes towards science.....	37
▪ Student background	38
- Socio-economic background	38
- Immigrant status.....	39
- Parental involvement.....	41
▪ Future career orientation	41
- Information on science-related careers and preparation for the future.....	41
- Do students expect to pursue a scientific career?	43
▪ School organisation	44
- Single sex-schooling	44
- Homework.....	47
CONCLUSION	47
REFERENCES.....	50
