

Contents

1	Introduction	1
2	Global Coverage, Climate and Soil	13
2.1	Global Coverage	13
2.2	Climate Variability	17
2.3	Edaphic Features.....	19
2.3.1	Spatial Heterogeneity and Availability of Nutrients	20
2.3.2	Soil Microbial Biomass and Ecosystem Functioning	24
2.3.3	Carbon Balance and CO ₂ Flux	27
2.3.4	Carbon Balance and Global Change.....	28
3	Vegetation Attributes	31
3.1	The Tropical Dry Forest.....	31
3.1.1	Tropical Dry Forest Vegetation of India.....	32
3.1.2	Small-Scale Variations in Environmental Factors and the Distribution of Woody Species.....	43
3.1.3	Composition and Dynamics of Tropical Dry Forest in Relation to Soil Texture	43
3.1.4	Effect of Woody Plant Canopies on Species Composition and Diversity of Ground Vegetation.....	45
3.2	Seasonality, Phenology and Deciduousness	47
3.2.1	Phenology of Seasonally Tropical Dry Forest: Two Case Studies	53
3.2.2	Reproductive Phenology	57
3.2.3	Seasonal Variation in Tree Water Status	58
3.3	Seasonality, Leaf Attributes and Growth Rates.....	60
3.4	Plant Strategies Against Drought.....	63
3.5	Relations Between Water Balance, Wood Traits and Phenological Behaviour	65

4	Plant Traits and Regeneration	69
4.1	Plant Functional Traits	69
4.1.1	Leaf Traits	71
4.1.2	Stem and Root Traits.....	75
4.1.3	Reproductive Traits	75
4.1.4	Functional Trait Syndrome for Maintaining Growth in Seasonally Dry Environments.....	77
4.2	Plant Functional Types.....	78
4.3	Seed Size: A Key Trait Determining Species Distribution	79
4.4	Seed and Seedling Ecology.....	84
4.4.1	Seed Viability and Dormancy	84
4.4.2	Seed Size, Germination, Water Stress and Seedling Growth	85
4.4.3	Major Environmental Factors Influencing Seedling Recruitment.....	88
4.5	Regeneration	107
5	Productivity and Nutrient Cycling	111
5.1	Carbon Stock and Biomass Accumulation Pattern	111
5.1.1	Dry Matter Dynamics, Storage and Flux of Nutrients in TDF of India: A Case Study	115
5.1.2	Carbon Stock and Accumulation in Woody Species of TDF in India	126
5.2	Nutrient Cycling and Nutrient Conservation Strategies	130
5.2.1	Effect of Precipitation Regime on N and P Cycles.....	130
5.2.2	Foliar Nutrient Concentration and Temporal Variation.....	132
5.2.3	Litter Decomposition	140
6	Influence of Biotic Pressure and Land-Use Changes.....	149
6.1	Biotic Disturbance in Tropical Dry Forests	149
6.2	Tree Species Composition, Dispersion and Diversity: A Case Study from a Tropical Dry Forest Region of India	154
6.3	Impact of Forest Fragmentation and Edge Effects on Species Diversity.....	155
6.4	Diversity, Recruitment and Future Composition of Juveniles and Saplings	159
6.5	Fodder and Fuel Extraction and Functioning of Village Ecosystems.....	164
6.6	Effect of Cultivation on Soil Subsystem.....	165
6.6.1	Viable Nitrifier Community and Nutrient Availability in TDF and Derived Cropland Sites.....	165
6.6.2	Comparative Analysis of Microbial C, N and P in TDF and the Alternate Land Uses	168
6.7	Invasive Alien Plants and Their Effect on TDFs in India	173

6.8	Degradation and Savannization.....	175
6.9	Water-Stable Aggregates and Microbial Biomass in TDF and Derived Ecosystems	178
7	Research Perspectives.....	191
