How to use this book 1

A routine for finding and using information 2

Defining the problem 4

Choosing sources of information and their guides 6

Types of source 6

Access to sources 8

Guides to sources 9

Chart 1. Information sources and guides versus coverage 10

Chart 2. Routes from guides to sources of information 12

Chart 3. Information required versus sources and guides 13

People 14

Guides to people 15

Organizations 19

Commercial organizations 20

Guides to commercial organizations 20

Educational organizations 25

Guides to educational organizations 25

Official organizations 28

Guides to official organizations 29

Professional and research organizations 32

Guides to professional and research organizations 33

The literature 37

Structure of scientific and technical literature 38

Use of the literature (summary) 39

Guides to the literature 39

General guides 40

Subject guides 42

Abstracting and indexing journals 46

Guides to abstracting and indexing journals 54

Chart 4. Subject coverage of some better-known abstracting and indexing journals 57
