

TABLE OF CONTENTS

FOREWORD	9
Chapter 1. – INTRODUCTION AND SUMMARY	11
Introduction	11
Summary of Main Findings	13
Chapter 2. – ISSUES IN INTERNATIONAL COMPARISONS	15
Population Composition	15
Medical Practice Patterns	16
Price Levels	19
Concentration of Spending	21
Chapter 3. – THE HEALTH SYSTEMS OF OECD COUNTRIES	24
Financing	25
Eligibility	25
Benefits	25
Reimbursement	26
Organisation and Development of the Delivery System	30
Chapter 4. – MEASURING THE EFFECTIVENESS OF HEALTH EXPENDITURES	33
Defining Health	33
Measures of Health Status	34
Mortality	35
Causes of Death	43
Costs of Illness	47
Chapter 5. – SIZE AND GROWTH OF THE HEALTH SECTOR	54
Share of Health in GDP and the Public Share	54
Nominal Levels of Health Expenditure	55
Real Growth in Health Expenditures Relative to GDP	56
Decomposition of Nominal Health Expenditure Increases into Price, Population, and Utilisation and Intensity Effects	57
Chapter 6. – COMPOSITION OF HEALTH SPENDING	60
Institutional Expenditures	60
Ambulatory Care	72
Pharmaceuticals	76
Other Health Expenditures	77
Chapter 7. – CROSS-COUNTRY DIFFERENCES IN HEALTH SPENDING	79
Relationship between Health Expenditures and GDP	79
Effects of Other Economic and Demographic Factors on Cross-Country Differences in Health Expenditures	79
Cross-Country Analysis of Changes in Health Expenditures	85
Chapter 8. – TECHNOLOGY, DEMOGRAPHIC CHANGE AND LONG-TERM CARE	87
Technology Change	87
Demographic Change	88
Long-Term Care	91

Chapter 9. – CONCLUSIONS FOR POLICY	93
Difficulties in Health Policy Formulation	93
Issues for Policy	94
Conclusions	98
