

CONTENTS

PREFACE	v
Wang Daheng (China)	
1. DEPOSITION TECHNIQUES	
1. Large Area Optical Coatings (Invited Paper) Thelen A.J.(FRG)	3
2. Ion-Assisted Deposition (Invited Paper) Macleod H.A. (USA)	4
3. Enhanced Physical Vapor Deposition and Resulting Microstructure of Thin Films (Invited Paper) Guenther K.H. (USA)	8
4. Vapor-phase Mixed Deposition of Optical Coatings (Invited Paper) Zhou Jiulin (China)	13
5. Optically Selective Coatings (Invited Paper) Chopra K.L. (India)	18
6. Pressure and Evaporation Power Control for the Obtainment of T_iN_x Films by Means of Ion-Stimulated Sorption Donkov N.I. (Bulgaria)	19
7. Plasma Cathode Ion Source for an Ion Assisted Deposition Shibuya T., Shiono T., Harano Y., Hashimoto S., Yabe E., Yokota H. and Takayama K. (Japan)	22
8. Effects of Ion-Assisted Deposition on ZrO_2 Films Zhong Qin, Ge Qin and Yuan Youxin (China)	26
9. Pulse Laser Evaporation—a Method for Semiconductor Thin Films Deposition Sendova Mariana and Baleva Mitra (Bulgaria)	30
10. Properties of Optical Coatings Deposited by Ion Assisted Deposition Gu Peifu, Chen Yuming, Tang Jinfa and Hu Xuequn (China)	34
11. Ion Assisted Deposition of Some Thin Film Devices and Ion Etching of Physical Gratings by a Wide Beam Ion Source Zhao Futing, Yan Hong and Hu Quanxing (China)	38
12. Orthochromatic Coating Directly to a SELFOC Lens Array (Abstract) Kyogoku K., Suzuki T. and Mino M. (Japan)	42
13. Copper Oxide Thin Films Deposited by Reactive Magnetron Sputtering Docheva P.I., Popov D.N. and Koeva M.P. (Bulgaria)	43
14. Deposition of ITO Films by Reactive Magnetron Sputtering Popov D.N. and Docheva P.I. (Bulgaria)	47
15. Transparent and Infra-red Reflecting ITO Films by Reactive Ion Plating Deposition Miao Jingqi and Wang Guirong (China)	51

16. Ion Assisted Deposition with Hall Current Ion Source Shao Jianxin and Yan Yixun (China)	53
17. Ion-Assisted Deposition for Films Ling Shide, Liang Xiao and Zhou Pengfei (China)	57
18. Ion-Assisted Deposition of Optical Thin Films with Different Ion Beam Energy Fan Ruiying and Lu Yuemei (China)	62
19. Influence of Ion Beam Assisted Deposition Technology on the Properties and Microstructure of Optical Thin Films Wang Ziyi (China)	66
II. MONITORING	
1. Thin Film Production: Performances and Problems (Invited Paper) Pelletier E. (France)	71
2. Some Aspects of Monitoring of Optical Coatings (Invited Paper) Zhu Zhen, Zhao Futing and Zhang Fuchu (China)	75
3. An Optical Film Thickness Monitoring System Chen Zhenrong, Lin Jiang and Lin Yongzhong (China)	81
4. Wide-Band Spectrum Profile Real-Time Displaying and Monitoring System for Optical Coating Wang Yingru, Zhu Zhen, Xue Jingde, Li Wensheng, Xing Zhongjun, Sun Longying, Lu Qi and Jing Jinrong (China)	85
5. Antireflection Coatings of Laser Diode Monitored by Detecting Spontaneous Emission of a Diode Lu Yucun, Li Dayi, Chen Jianguo, Pan Daren and Fang Liming (China)	88
III. MATERIALS AND OPTICAL PROPERTIES	
1. ZrO_2 - Y_2O_3 and HfO_2 - Y_2O_3 Composite Coatings for High Power UV Laser Applications Jin Tianfeng, Yuan Youxin and Xu Juan (China)	93
2. Physical Analysis of Mixed Optical Films by Coevaporation Chen Zhe, Gao Bolong, Wang Jiwu and Shi Xiuyu (China)	98
3. Some Peculiarities of Semiconductor Films Epitaxially Grown by Pulse Laser Evaporation Baleva M. and Sendova M. (Bulgaria)	102
4. Investigation of Vanadium Oxide Thin Films by Raman Spectroscopy Han Liying and Lin Zhihong (China)	105
5. The Study of the Growth of E-Beam Evaporated Polycrystalline Nickel Film Zheng Tianshui, Shen Yuanhua, Wang Wencheng Zhang Zhiming and Wang Zhijiang (China)	109
6. Preparation and Optical Properties of In_2O_3 : Sn and In_2O_3 : Sn- SnO_2 : Sb- In_2O_3 : Sn Films Kulaszewicz S., Lasocka J., Lasocki Z. and Turowska K. (Poland)	115
7. Influence of Size Effects and Film Structure on Optical Properties of Metallic Films Dimmich R. (Poland)	118
8. Absorbing and Reflecting Au-Cr Thin Films for High Density Optical Data Storage Gadenne P. and Sella C. (France)	122

9. Spectrally Selective Multilayer Coatings Using Cermets Near the Percolation Sella C., Bichri A., Martin J.C., Lafait J., Driss-Khodja K. and Berthier S. (France)	126
10. Preparation and Applications of Durable CaF ₂ Thin Films Zhang Baoren and Su Kailong (China)	130
11. Reflectance of Metal-Dielectric Layered Media Grebenschikov S.V., Grishina N.V. and Malkhozov M.F. (USSR)	133
12. Comparative Study of Some Techniques Used to Manufacture Optical Coatings Flory F., Amra C., Commandré M., Pelletier E. and Albrand G. (France)	137

IV. THIN FILM DEVICES AND APPLICATIONS

1. Nonlinear Interference Filters (Invited Paper) Zhen Yianfei, Xie Da, Gu Peifu, Li Shijie and Tang Jinfa (China)	143
2. Optical Applications of Thin Film Systems (Invited Paper) Dobrowolski J.A. (Canada)	149
3. Phase Dispersion Induced Transmission Filters with Narrow Halfwidths Zheng Suying, Yan Zhaonan, Ma Xia and Guo Ping (China)	150
4. A Rugate Filter Prepared by the Wideband Monitoring Method Li Li and Yan Yixun (China)	154
5. A New Method Improving the Performance of Cadmium Telluride Thin Film for Solar Cell Applications Yi Xinjian and Wang Linjie (China)	159
6. Optimum Design and Preparation of Multilayered Magneto-Optical Recording Media Tang Jiuyao and Tang Jinfa (China)	163
7. Laser-Induced Mark Formation on Phase Change Storage Thin Film Xue Songsheng, Fan Zhengxiu and Gan Fuxi (China)	169
8. Improvement of Optically Bistable ZnS Interference Filters Wei Jun, Xiong Jun, Sun Yinguan and Wang Weimin (China)	173
9. Normal Incidence X-UV Mirrors Jin Lei and Fan Zhengxiu (China)	176
10. Some Considerations on the Fabricating of X-Ray Reflecting Mirrors with Ni-C Multilayered Coatings Ke Guoqing, Zheng Tianshui and Shen Yuanhua (China)	180

V. MICROSTRUCTURE

1. Ellipsometry of the Nucleation and Growth of Zinc Sulphide Films in Ultra High Vacuum (Invited Paper) Atkinson R., Lissberger P.H. and Manzoor T. (UK)	187
2. Development of Microroughness in Thin Films: Theory and Experiment Walther Heinz-Günter, Duparré Angela and Schirmer Gustav (GDR)	191
3. Characterization of Thin Film Surface Roughness Using Microdensitometer Analysis Hu Xiaodong, Zhou Jiulin and Li Ruying (China)	196

4. Light Scattering Spectroscopy: A New Technique to Determine Interface Roughness Roos A., Bergkvist M., Ribbing C-G. and Mattsson L. (Sweden)	201
5. Renormalized Optical Dielectric Function of Inhomogeneous Thin Films Driss-Khodja K., Berthier S. and Lafait J. (France)	205
6. In Situ Measurements of Optical Anisotropies Induced by Thin Film Microstructure Hodgkinson I.J. (New Zealand)	210
7. Graphical Description of Equivalent Index Approximations and Limitations Willey R.R. (USA)	214
8. A New Method of Quickly Seeking Optimum Solution in Thin Film Optimization Design Zhou Pengfei and Li Dongguang (China)	218

VI. MEASUREMENTS

1. Precision Measurement of Absolute Reflectivities of UV Optical Coatings Zhuang Dakui, Shi Yifan, Liu Yashu, Yang Tianli and Liu Hua (China)	225
2. Stress Measurement of Optical Coatings by a Fiber Optics Sensor Sun Shouyao and Zhou Jiulin (China)	230
3. Effective Refractive Index of Adsorbed Protein Layers Jinyu Wang, Hlady V., Andrade J.D. and Y.Q. Zhang (USA)	233
4. Some Useful Applications of the Equipment (DFTR-METER) Gao Bolong (China)	237
5. On Determination of Optical Constants of Thin Films Tikhonravov A.V. and Kuzanjan K.M. (USSR)	241

VII. LASER-INDUCED DAMAGE AND CHARACTERIZATION

1. Structure/Thermal Influences in the Laser Damage Resistance of Optical Thin Films (Invited Paper) McIver J.K. and Guenther A.H. (USA)	245
2. High Power Laser Coatings (Invited Paper) Fan Zhengxiu (China)	250
3. Photothermal Absorption Measurement of Optical Coatings Walther Heinz-Guenter, Welsch Eberhard and Schirmer Gustav (GDR)	258
4. Laterally Resolved Absorption Measurements at Optical Thin Films at Wavelengths 1.06 and 10.6 μm Wolf R., Steiger B., Wenzel F., Zscherpe G. and Schäfer D. (GDR)	261
5. In-Situ Photothermal Study of Laser-Induced Damage in Optical Coatings Wu Zhoulng, Fan Zhengxiu, Su Xing and Wang Zhijiang (China)	266
6. Electric Field Distribution in an Inhomogeneous Thin-Film System at Oblique Incidence Ma Zi and Zhou Jiulin (China)	270
7. The Study of Laser-Induced Breakdown-Plasma on Dielectric Thin Films Ni Xiaowu, Lu Jian, He Anzhi, Ma Zi and Zhou Jiulin (China)	273

8. 1.06 μ m Laser-Induced Damage to Thin Film MgF ₂ (AR) Optical Coatings Han Jizhi, Fang Minggang and Wen Hua (China)	277
9. Photothermal Deflection Microscopy of Optical Coatings Wu Zhouling, Wu Zhongjun, Fan Zhengxiu and Wang Zhijiang (China)	280
10. Theoretical Analysis and Experimental Investigation of Photothermal Deformation Signals in Optical Coatings Su Xing and Fan Zhengxiu (China)	285
VIII. INFRARED OPTICAL COATINGS	
1. Development of Infrared Thin Films for Applications (Invited Paper) Seeley J.S. (UK)	293
2. Some Study in Producing High Quality IR Coatings (Invited Paper) Yan Yixun and Zhang Fengshan (China)	294
3. Formation of Diamond Films with the Aid of Ionized Deposition (Invited Paper) Yoshikatsu Namba (Japan)	296
4. Developments of Optical Thin Films in the GDR (Invited Paper) Schirmer Gustav (GDR)	301
5. New Problems in the Synthesis of Thin Films (Invited Paper) Tikhonravov A.V. and Grishina N.V. (USSR)	305
6. Characteristics Investigation of Diamondlike Carbon Film Deposition on IR High Efficiency Anti-Reflection Coating Jiang Jie and Li Zhongqi (China)	308
7. Refractive Indices and Temperature Coefficients of Lead Telluride and Zinc Selenide Feng Weiting, Yan Yixun and Zhu Cuiyuan (China)	312
8. Carbon Optical Structures Danev G., Spasova E. and Spangenberg B. (Bulgaria)	316
9. Infrared Optical Behaviour of Cermet Films: Influence of the Metal Concentration and the Thickness Gadenne M. and Gadenne P. (France)	319
10. Hardness Study of Diamond Phase Carbon Films Prepared by Ionized Deposition Heidarpour E., Horikushi H. and Namba Y. (Japan)	323
11. Application of the Necessary Optimality Conditions for the Synthesis of Coatings with Specified Properties on the Basis of Discrete Set of Materials Gusev Ye.L. (USSR)	327
12. Spectral Characteristics of Metal-Dielectric Multilayer Coatings Gordeev V.F., Grebenshchikov S.V. and Malkhozov M.F. (USSR)	331
PAPERS FOR POSTER PRESENTATION (Abstracts only)	339
AUTHOR INDEX	345
