

## CONTENTS

### INTRODUCTION

- Knowledge Based Systems for Test and Diagnosis  
M.A. Breuer, Rajesh Gupta, Rajiv Gupta,  
Kuen-Jong Lee, Jung-Cheun Lien 3

### CHAPTER I : TEST STRATEGY PLANNING AND TEST EXPERTISE

- AI Aspects of TEST : A System for Designing Testable  
VLSI Chips  
M.A. Breuer, Rajiv Gupta and Rajesh Gupta 31
- A Tool for Testability Analysis and Design for  
Testability of VLSI Devices  
G. Buonanno, D. Sciuto 77
- Cost Effective Test Strategy Selection  
C. Dislis, I.D. Dear, S.C. Lau, J. Miles, A.P. Ambler,  
K.A.E. Totton 93
- Test Planning from High-level Specifications  
M. Crastes de Paulet, M. Karam, G. Saucier 111
- The Types of Knowledge required for an Expert Test Advisor  
S. Cosgrove, G. Musgrave 131
- Artificial Intelligence Techniques in HITEST  
P. S. Parry 145

### CHAPTER II : KNOWLEDGE BASED DIAGNOSIS

- Survey of Diagnosis Expert Systems  
O. Raoult 153
- Knowledge Engineering Issues in Constraint Based Diagnosis  
F. Malabocchia 169
- Experience with an Expert Diagnostic System Shell  
D. Kennett, K.A.E. Totton 183

**APEX : an Expert System Shell for Technical Diagnosis  
and Maintenance**

Th. Billoir

195

**CHAPTER III : RULE BASED DESIGN VERIFICATION AND  
MAINTENANCE****Electrical Verification Using Rule Based Programming  
and Symbolic Analysis**

I. Bolsens, W. De Rammelaere, L. Claesen, H. De Man

211

**Rule Based Board Verification**

M. Crastes de Paulet, P. Bayle

229

**An Expert System for Maintenance Program Generation**

C. Robach, N. Mardam-Bek, D. Lutoff

243
