

INTERNATIONAL CONFERENCE ON ADVANCES IN JOINING NEWER STRUCTURAL MATERIALS

CONFÉRENCE INTERNATIONALE SUR LE PROGRES POUR L'ASSEMBLAGE DES MATÉRIAUX DE CONSTRUCTION LES PLUS RÉCENTS

Houdremont Lecture	Conférence Houdremont	
Challenges in joining emerging materials	Défis à relever dans le domaine de l'assemblage des matériaux modernes	3
T.W. Eagar (USA)		
Keynote Lectures	Conférences Invitées	
The joining of plastics and their composites G. Menges (FRG/RFA)		33
Problèmes d'assemblage posés par l'évolution des matériaux M. Colombié (France)		65
Joining engineering ceramics R.E. Loehman (USA)		83
Coatings for newer materials M. Malik (FRG/RFA)		99
Sessions	Sessions	
I.1 Ceramics	I.1 Céramiques	101
I.2 Plastics and composites	I.2 Plastiques et composites	161
II New metallic materials	II Nouveaux matériaux métalliques	215
Special session organised by the Commission XVI	Session spéciale organisée par la Commission XVI	
Plastics and composites	Plastiques et composites	323

**LIST OF PAPERS
LISTE DES COMMUNICATIONS**

SESSION I.1

CERAMICS/CÉRAMIQUES

	101
I.1 Assemblages céramo-métalliques - Techniques de liaisons interactions mécaniques et physico-chimiques G. Lascar (France)	103
I.2 Application of conductor electric explosion to join ceramics K.A. Yushchenko, V.S. Nesmikh, I.V. Dubovetskii (USSR/URSS)	109
I.3 Properties of vacuum brazed Si_3N_4 /steel joint using active brazing filler metal Bao Fanghan, Ren Jialie, Zhou Yunhong, Yan Ping (China/Chine)	117
I.4 Heat treatment effect on porcelain-titanium bond strength H. Kimura, C.J. Hornig, M. Okazaki (Japan/Japon)	123
I.5 A research on the mechanism of joining graphite to ceramics of 95% Al_2O_3 C. Qiu, H. Xia (China/Chine)	129
I.6 Effects of brazing temperature on joint properties of SiC fiber reinforced aluminium alloy matrix composites H. Morimoto, T. Tanaka, T Saito, K. Yamada (Japan/Japon)	137
I.7 Brazing of sheet composite materials with aluminium matrix V.F Khorunov, V.S. Kutchuk-Yatsenko, I. S. Dykhno, N.V. Kasatkina (USSR/URSS)	143
I.8 Contraintes et distorsions liées au brasage de matériaux à caractéristiques mécaniques et thermiques dissemblables D. Durand, C. Philip, F. Ragueb, G. Reymond (France)	155

SESSION I.2

PLASTICS AND COMPOSITES/PLASTIQUES ET COMPOSITES

	161
I.9 Ultrasonic welding of self-reinforced polypropylene using tie-layer materials N. Tateishi, G. Ramarathnam, T.H. North (Canada)	163
I.10 The lamination of oriented thermoplastic sheet, part II K.G. Leewis, M.T. Kortschot, T.H. North (Canada)	173
I.11 Welding of PE-liners for waste disposal landfills J. Hessel (FRG/RFA)	187
I.12 A development of visible light cured FRP denture base H. Kimura, F. Teraoka (Japan/Japon)	193
I.13 Weldability of polymeric materials heterogeneous as to chemical nature from the standpoint of morphology L.I. Bezruk, G.B. Esaulenko, V. Yu. Kondratenko, G.N. Korab (USSR/URSS)	197
I.14 State of composite material structure control in situ M. Huther, M. Joan (France)	203
I.15 A program for design of sandwich material connections in ship building J. Gérald, I. Ragout (France)	209

SESSION II

NEW METALLIC MATERIALS/NOUVEAUX MATÉRIAUX MÉTALLIQUES

215

- II.1 Characterization of titanium weldments - corrosion resistance in concentrated hydrochloric acid
A. Elahouel, S.K. Marya, F. Priem, J.P. Frayret (France) 217
- II.2 Study on mechanical properties of Ti alloy brazed joint with newly developed Pd alloys and other high temperature filler metals
Y. Suezawa (Japan/Japon) 223
- II.3 Soudage des composants de forte épaisseur en titane pour exigences élevées
J.J. Chêne, G. Schmelzer (Switzerland/Suisse) 229
- II.4 Brazing of active titanium and zirconium-base alloys: an updated review
A. Rabinkin (USA) 237
- II.5 Causes of decrease in strength of niobium welded joints
E.A. Asnis (USSR/URSS) 239
- II.6 Corrosion fracture of welded joints in zirconium and its alloys in acids and other aggressive media
A.B. Goncharov, M.M. Nerodenko (USSR/URSS) 247
- II.7 Joining of the Al-Li alloy 8090
M.F. Gittos (United Kingdom/Royaume Uni) 257
- II.8 Weld solidification cracking in commercial Al-Li alloys
J.C. Lippold (USA) 263
- II.9 Adhesive bonding of zinc coated steel sheets
O. Hahn, K. Kroos (FRG/RFA) 271
- II.10 Flash welding of titanium aluminides
T. Stotler, J.E. Gould, C. English (USA) 279
- II.11 Weldability of nickel aluminides
G.M. Goodwin, S.A. David (USA) 287
- II.12 Joining a Ni-based creep-resistant (ODS) alloy by brazing
I.A. Bucklow (United Kingdom/Royaume-Uni) 293
- II.13 Diffusion bonding a creep-resistant Fe-ODS alloy
I.A. Bucklow (United Kingdom/Royaume-Uni) 299
- II.14 Manual arc welding of new high Mo nickel base alloys
R. Delporte, Th. Vallier (Belgium/Belgique) 305
- II.15 Specific features of welding of iron-based highly-carbonized materials
M. Domoratsky (USSR/URSS) 311
- II.16 Weld metal and HAZ toughness in SA-welded joints of new TMCP steels
W. Burget, J.G. Blauel (FRG/RFA) 317

**SPECIAL SESSION ORGANISED BY THE COMMISSION XVI
SESSION SPÉCIALE ORGANISÉE PAR LA COMMISSION XVI**

PLASTICS AND COMPOSITES/PLASTIQUES ET COMPOSITES	323
Welds in thermoplastic composite materials N.S. Taylor (United Kingdom/Royaume-Uni)	325
Crystallinity in polyethylene and polypropylene welds using Fourier transform infrared-microspectrometry S.M. Stevens (United Kingdom/Royaume-Uni)	331
Computer aided quality control in the heated tool welding process H. Potente, J. Natrop (FRG/RFA)	335
Scale-up laws in heated tool butt welding of amorphous thermoplastics H. Potente, M. Heil (FRG/RFA)	341
Optimization strategy for ultrasonic welding of thermoplastic materials N. El Barbari (Switzerland/Suisse)	347
Process variant of vibration welding with variable welding pressure H. Potente, H. Kaiser (FRG/RFA)	355
Hot melt joints for carbon fibre reinforced composites C. Netz, W. Michaeli (FRG/RFA)	361
High strength joints between metal and plastic - manufacture and reliability L. Dorn, G. Moniatis (FRG/RFA)	367
Physical gas discharge procedure for adhesive surface pretreatment of polymer composite materials O. Hahn, B. Hüsgen (FRG/RFA)	375
Reconditioning of slab moving main drive by bonding to the gear rim and the wheel body with adhesive O. Hahn, U. Schuht (FRG/RFA)	383
Application of hot melt adhesive for dental technique H. Kimura, F. Teraoka (Japan/Japon)	391
Education and training of plastics-welders for gas and water pipelines: procedures and results in the FRG H. Kaufmann (FRG/RFA)	395
Keyword index	401
