

Contents

1. Introduction	1
(By L. NOVER)	
2. The Heat Shock Proteins	1
(By L. NOVER and K.-D. SCHARF)	
2.1. Definition and Survey on Heat Shock Proteins	1
2.2. Properties and Modification of Heat Shock Proteins	4
2.3. Structure-Bound Minor Heat Shock Proteins	7
3. Inducers of Heat Shock Protein Synthesis	7
(By L. NOVER)	
3.1. Induction by Non-Heat Shock Stress Factors	8
3.2. The Signal Transformation Chain: Is there a Common Stress Sensor System? 10	
4. Heat Shock-Induced Changes of Transcription	12
(By L. NOVER and K.-D. SCHARF)	
4.1. Synthesis and Processing of Pre-rRNA	12
4.2. Synthesis of Small Stable RNAs	15
4.3. Reprogramming of mRNA Synthesis	15
4.3.1. Synthesis of Heat Shock Proteins Requires New mRNAs	15
4.3.2. Synthesis and Processing of hnRNP	16
4.3.3. Changing Poly(A) Metabolism	18
5. Structure of hsp-Coding Genes in <i>Drosophila</i>	18
(By D. HELLMUND and E. SERFLING)	
5.1. The hsp 70 Genes	19
5.2. The hsp 83 Gene	23
5.3. Genes Coding for hsps 28, 26, 23 and 22	23
5.4. Regulatory Elements of the hs Gene Promoter	24
5.5. Chromatin Structure in Front of hsp-coding Genes	26
5.6. Cloning and Structure Analyses of hsp-Coding Genes of Other Organisms ...	27
6. Changing Translation Patterns	28
(By L. NOVER)	
6.1. Polysome Decay	28
6.2. Translation Specificity of hs Polysomes	30
6.3. Degradation of mRNA	34

7. Control of hsp Synthesis	34
(By L. NOVER)	
7.1. The Extraordinary Rapidity of the Inductive Response	34
7.2. Variability of hsp Patterns	35
7.3. Autorepression of hsp Synthesis.....	36
8. Changing Protein Modification	37
(By K.-D. SCHARF and L. NOVER)	
8.1. Modification of Histones and Other Nuclear Proteins.....	37
8.2. Phosphorylation of Ribosomal Proteins	38
8.3. Phosphorylation of Initiation Factor eIF-2	39
9. Heat Shock and Cell Cycle Activity	39
(By L. NOVER)	
10. Changes of Cell Ultrastructure	42
(By L. NOVER and D. NEUMANN)	
10.1. Membrane Lesions and Induced Membrane Stability	42
10.2. Cellular Skeletal Systems as Primary Targets of hs Effects.....	43
10.3. Ultrastructure of the Nucleus	44
10.4. Cytoplasmic hs Granules	45
11. Heat Shock and Virus Multiplication	45
(By L. NOVER)	
11.1. Virus Induction of hsp Synthesis	45
11.2. Virus Inhibition of hsp Synthesis	49
11.3. Heat Shock Resistant Virus Multiplication	49
11.4. Heat Shock Inhibits Virus Multiplication	49
11.5. Maturation of the Avian Sarcoma Virus Transforming Protein	50
12. Heat Sensitivity of Cancer Cells	51
(By L. NOVER)	
13. Function of Heat Shock Proteins	51
(By L. NOVER)	
13.1. Induced Thermotolerance: Are Heat Shock Proteins Involved?	52
13.2. Intracellular Localization of Heat Shock Proteins	54
13.3. Are there Heat Shock-Induced Enzymes?	55
14. Heat Shock-Induced Developmental Defects	57
(By L. NOVER)	
15. Induced hsp Synthesis in <i>Escherichia coli</i>	58
(By L. NOVER)	
16. Summary and Conclusions	59
(By L. NOVER)
