

Contents

Murnau and the History of Psychiatry H. HIPPIUS, P. HOFF, and U. MÜNCH	1
Evidence for Increase in Rates of Depression in North America and Western Europe in Recent Decades G. L. KLERMAN. With 5 Figures	7
The Affective Disorders: Results from the Epidemiologic Catchment Area Study (ECA) M. M. WEISSMAN, J. K. MYERS, P. J. LEAF, G. L. TISCHLER, and C. E. HOLZER. With 2 Figures	16
The Course of Major Depression, Atypical Bipolar Disorder, and Bipolar Disorder J. ANGST. With 3 Figures	26
Validating Depressive Subtypes H. KATSCHNIG, D. NUTZINGER, and H. SCHANDA	36
Personality and Bipolar Disorder R. M. A. HIRSCHFELD	45
Self-Report Inventories in the Study of Depression P. PICHOT	53
Bereavement and Its Relation to Clinical Depression P. J. CLAYTON	59
Familial Classification of Depressive Illnesses G. WINOKUR	70
Recent Genetic Findings in Mood Disorders E. S. GERSHON, J. I. NURNBERGER, and N. SITARAM	79
Repeated Treatment with Antidepressant Drugs: Responses Mediated by Brain Dopamine Receptors J. MAJ	90
Latest Findings in the Treatment of Depression P. KIELHOLZ. With 4 Figures	99

Treatment of Atypical Depression: Phenelzine, Imipramine, and Placebo. M. R. LIEBOWITZ, F. M. QUITKIN, J. W. STEWART, P. J. MCGRATH, W. HARRISON, J. RABKIN, E. TRICAMO, J. S. MARKOWITZ, and D. F. KLEIN	112
Biology, Therapeutics, and Prophylaxis in Recurrent Depression D. J. KUPFER, E. FRANK, and J. M. PEREL. With 1 Figure	118
Reduced Lithium Dosage Improves Prophylaxis: A Possible Mechanism. A. COPPEN and C. SWADE	126
Effects of Lithium on Cell Membranes: Relation to Prophylactic Response. W. GREIL, M. HAAG, and D. VAN CALKER. With 8 Figures	131
Dimensional Classification as an Instrument for Biological Research in Endogenous Depression M. PHILIPP, W. MAIER, and O. BENKERT. With 5 Figures	145
Biochemical Markers of Serotonin Functions in Depression and Suicidal Behavior M. ÅSBERG, B. MÅRTENSSON, and A. WÄGNER	156
A Biochemical and Neuroendocrine Study of the Serotonergic System in Depression T. KOYAMA and H. Y. MELTZER. With 13 Figures	169
Responses to Clonidine in Acute and Remitted Depressed Patients L. J. SIEVER, E. F. COCCARO, F. ADAN, R. C. MOHS, and K. L. DAVIS. With 3 Figures	189
Investigations of the Cholinergic-Adrenergic Balance in Affective Disorders. H. BECKMANN. With 3 Figures	196
The Role of the Hypothalamus-Pituitary-Adrenocortical System in Depression. D. VON ZERSEN, M. BERGER, P. DOERR, C. LAUER, C. KRIEG, and K.-M. PIRKE. With 3 Figures	205
Studies of the Hypothalamus-Pituitary-Adrenocortical System: An Example of Progress in Psychoneuroendocrinology F. HOLSBOER, U. VON BARDELEBEN, and A. GERKEN With 10 Figures	217
Pharmacoendocrine Studies in Health Subjects and Depressed Patients. G. LAAKMANN, A. HINZ, and E. NEULINGER With 7 Figures	250
Subject Index	261
