| 1. Radioiodine Therapy of Hyperthyroidism | 1 |
| 2. Radioiodine Therapy of Differentiated Thyroid Carcinoma | 37 |
| 3. Medullary Carcinoma of the Thyroid | 91 |
| 4. Meta[¹³¹ I] iodobenzylguanidine Therapy of Malignant Pheochromocytomas and Other Neuroendocrine Lesions | 99 |
| 5. Adjuvant Therapy of Peritoneal Metastases Using Intraperitoneal Radiocolloids | 109 |
| 6. Radiocolloid Therapy of Recurrent Malignant Ascites | 129 |
| 7. Radiocolloid Therapy of Malignant Pleural Effusions | 139 |
| 8. Radiocolloid Therapy of Malignant Pericardial Effusion | 149 |
| 9. Radiocolloid Therapy of Cystic Craniopharyngiomas | 157 |
| 10. Radiocolloid Therapy in Joint Diseases | 169 |
| 11. Intrathecal Radiocolloids in Meningeal Leukemia | 187 |
| 12. Phosphorus-32 Therapy in the Myeloproliferative Diseases | 193 |
| 13. Radionuclide Therapy of Bone Pain | 207 |
| 14. Radionuclide Therapy of Ocular Melanoma | 221 |
| 15. Tumor Therapy with Radiolabeled Antibodies | 229 |
| 16. Therapy with Intra-arterial Radioactive Particles | 239 |
| 17. Radiobiology: Biologic Effects of Ionizing Radiations | 257 |
| <i>Kathryn D. Held</i> | |
| 18. Absorbed Dose Calculations | 285 |
| <i>James S. Robertson</i> | |

x CONTENTS

Appendix A: Radiation Safety Requirements in Therapeutic Use of Radiopharmaceuticals297

Appendix B: Physical Data299

Appendix C: Reference Man301

Appendix D: Low-Iodine Diet307

Appendix E: Dosimetric Studies of the Memorial Sloan-Kettering Cancer Center for Treating Metastases of Well-differentiated Thyroid Carcinoma with ¹³¹I309

Appendix F: Beta-Ray Dose Rates in Water for Selected Beta-Emitters313

Appendix G: Properties of Radiocolloids.....317

Appendix H: Intracavitary Dosimetry of ³²P Radiocolloids321

Appendix I: Other Therapeutic Uses of Radionuclides323

Index327
