

## Contents

<b>Preface</b> .....	vii
<b>Acknowledgements</b> .....	x
<b>Chapter One: Constructions</b> .....	1
1. Entities, constructions, and functions .....	1
2. Two views of arithmetic .....	2
3. The linguistic turn .....	5
<b>Chapter Two: Fregean Functions</b> .....	16
4. Frege and constructions .....	16
5. Functions as structured entities .....	21
6. The Extensionality Thesis .....	25
7. Unsaturatedness .....	26
8. The Immediacy Thesis .....	29
<b>Chapter Three: Fregean Objects</b> .....	33
9. Objects as their own constructions .....	33
10. Objects as meta-constructions .....	36
11. Multiple analyses .....	41
<b>Chapter Four: Variables</b> .....	47
12. Russell's Paradox .....	47
13. The Vicious Circle Principle .....	50
14. An objectual notion of variable .....	56
<b>Chapter Five: A Hierarchy of Entities</b> .....	63
15. The five modes of forming constructions .....	63
16. The ramified hierarchy .....	65
17. Substitution .....	70
<b>Chapter Six: Two Interpretations of the Concept Script</b> ..	77
18. The syntax of the Concept Script .....	77
19. Interpretation A .....	82
20. Interpretation B .....	87
21. The ambiguity embraced .....	92

<b>Chapter Seven: Senses and Presentations</b>	98
22. The ambiguity	98
23. Rigid presentations	23
24. Indexicals	24
<b>Chapter Eight: The Mediacy Thesis</b>	113
25. The discrepancy	113
26. The definite article	120
27. Oblique reference	125
<b>Chapter Nine: Disambiguating Natural Discourse</b>	130
28. Context dependence	130
29. The asymmetry argument	136
30. Russell's Theory of Descriptions	144
<b>Chapter Ten: Church's Logic of Sense and Denotation</b>	150
31. Disambiguating with the grain	150
32. Church's system rectified	154
33. Assertion	162
34. The cross-reference problem	167
<b>Chapter Eleven: Logical Space</b>	172
35. The nature of determiners	172
36. Possible worlds	177
37. The temporal dimension	186
38. Epistemic framework	194
<b>Chapter Twelve: Transparent Intensional Logic</b>	201
39. Application	201
40. Aboutness	207
41. <i>De dicto</i> and <i>de re</i>	212
42. The limitations of logical space	218
43. Constructional attitudes: aboutness revisited	221
44. Codes and languages	227
<b>Chapter Thirteen: Inference</b>	234
45. The two views	234
46. 'Natural deduction'	240
47. Sequents	248
<b>Chapter Fourteen: The Fallacy of Subject Matter</b>	254
48. 'Arbitrary objects'	255
49. Fictional and historic reference	261
50. 'Formal axiomatics'	270
51. Epilogue	281

<b>Contents</b>	xiii
<b>Appendices</b>	288
<b>Bibliography</b>	294
<b>Index of Names</b>	299
<b>Index of Subjects</b>	300
