

Contents

| | |
|---|-----|
| Preface | v |
| Chapter 1. The CDP: A Unifying Formulation for Heuristic Search, Dynamic Programming, and Branch-and-Bound V. Kumar and L. Kanal | 1 |
| Chapter 2. An Algebra for Search Problems and Their Solutions P. Helman | 28 |
| Chapter 3. A General Branch-and-Bound Formulation for AND/OR Graph and Game Tree Search V. Kumar, D.S. Nau and L. Kanal | 91 |
| Chapter 4. Average-Case Analysis of Heuristic Search in Tree-Like Networks A. Bagchi and A.K. Sen | 131 |
| Chapter 5. The Optimality of A* R. Dechter and J. Pearl | 166 |
| Chapter 6. Network Search Algorithms with Modifiable Heuristics A. Mahanti and K. Ray | 200 |
| Chapter 7. Optimal Path Finding Algorithms R. Korf | 223 |
| Chapter 8. Developments with GPS R.B. Banerji and G.W. Ernst | 268 |
| Chapter 9. Tree Search and Arc Consistency in Constraint Satisfaction Algorithms B. Nadel | 287 |

| | | |
|-------------|--|-----|
| Chapter 10. | Backtrack-Free and Backtrack-Bounded Search E. Freuder | 343 |
| Chapter 11. | Network-Based Heuristics for Constraint-Satisfaction Problems R. Dechter and J. Pearl | 370 |
| Chapter 12. | Fundamental Properties of Networks of Constraints: A New Formulation U. Montanari and F. Rossi | 426 |
| Chapter 13. | Comparison of the MINIMAX and PRODUCT Back-Up Rules in a Variety of Games P. Chi and D.S. Nau | 450 |
| Index | | 473 |
