

Contents

1	Introduction	1
2	Hemodynamic and Cardiac Function Changes in Pregnancy	4
2.1	Cardiac Output, Stroke Volume, Heart Rate, Left Ventricular Work	5
2.2	Blood Volume	6
2.3	Blood Pressure, Total Peripheral Resistance, Venous Pressure	8
2.4	Circulation Time, Pulse Wave Velocity	9
2.5	Intracardiac and Pulmonary Artery Pressure	10
2.6	Regional Circulation	10
2.7	Systolic Time Intervals	11
2.8	Oxygen Consumption	11
2.9	Hemodynamic and Oxygen Consumption Changes During Exercise and Medical Interventions	12
2.10	Supine Hypotensive Syndrome of Pregnancy	13
2.11	Changes in Heart Size and Cardiodynamics	14
3	Examination of the Cardiovascular System in Pregnancy	16
3.1	History	16
3.2	Physical Examination	17
3.3	Electrocardiographic Findings	20
3.4	X-ray Examination	21
3.5	Radionuclide Examination	21
3.6	Magnetic Resonance Tomography	22
3.7	Phonocardiography	22
3.8	Echocardiography	22
3.9	Vectorcardiography	23
3.10	Exercise Stress Testing	23
3.11	Basal Metabolism. Blood Examination	24
4	Cardiovascular Diseases and Pregnancy	25
4.1	Heart Failure	26
4.1.1	Acute Left Ventricular (Left-Sided) Failure	27
4.1.2	Acute Right Ventricular (Right-Sided) Failure	28
4.1.3	Chronic Left Ventricular Failure	28
4.1.4	Chronic Right Ventricular Failure	28

4.1.5	Combined Right and Left Ventricular Failure	28
4.2	Functional State of the Heart	29
4.3	Effects of Maternal Heart Disease on the Fetus	31
4.4	Influence of Age and Intercurrent Diseases on the Course of Pregnancy in Patients with Cardiovascular Disease	31
4.5	Pregnancy and Rheumatism	31
5	Acquired Valvular Heart Disease and Pregnancy	34
5.1	Mitral Stenosis	35
5.2	Mitral Regurgitation	40
5.3	Aortic Regurgitation	43
5.4	Aortic Stenosis	46
5.5	Tricuspid Regurgitation	48
5.6	Tricuspid Stenosis	50
5.7	Acquired Lesions of the Pulmonic Valve	51
5.8	Rheumatic Combined Valvular Heart Disease	51
6	Congenital Heart Disease and Pregnancy	53
6.1	Congenital Cardiovascular Anomalies	53
6.1.1	Atrial Septal Defect	56
6.1.2	Ventricular Septal Defect	58
6.1.3	Patent Ductus Arteriosus	59
6.1.4	Valvular Pulmonic Stenosis	60
6.1.5	Tetralogy of Fallot	61
6.1.6	Eisenmenger's Syndrome	62
6.1.7	Congenital Aortic Stenosis	64
6.1.8	Coarctation of the Aorta (Aortic Isthmus Stenosis)	65
6.1.9	Uncommon Congenital Heart Defects	67
6.2	Mitral Valve Prolapse	69
7	Diseases of the Myocardium, Endocardium, and Pericardium and Uncommon Heart Diseases in Pregnancy	71
7.1	Diseases of the Myocardium	71
7.1.1	Myocarditis	71
7.1.2	Cardiomyopathies	72
7.1.3	Specific Heart Muscle Diseases	75
7.1.4	Myocardial Infarction and Sudden Death	76
7.2	Diseases of the Endocardium	78
7.2.1	Subacute Bacterial Endocarditis	78
7.3	Diseases of the Pericardium	80
7.3.1	Acute Pericarditis	80
7.3.2	Constrictive Pericarditis	80
7.3.3	Pericardial Cysts	81
7.4	Uncommon Heart Diseases	82
7.4.1	Heart Tumors	82

8	Heart Rhythm and Conduction Disturbances in Pregnancy	83
8.1	Cardiac Arrhythmias	83
8.1.1	Sinus Arrhythmia	83
8.1.2	Wandering Pacemaker	83
8.1.3	Atrioventricular Junctional (Nodal) Rhythm	83
8.1.4	Premature Beats	84
8.1.5	Sinus Tachycardia	84
8.1.6	Paroxysmal Tachycardia	84
8.1.7	Atrial Fibrillation	85
8.1.8	Wolff-Parkinson-White Syndrome	86
8.2	Conduction Disturbances	87
8.2.1	Sinoatrial Block	87
8.2.2	Atrioventricular Block	87
8.2.3	Intraventricular Block	88
8.2.4	Heart Block in Pregnancy	89
8.2.5	Long Q-T Syndrome	89
8.3	Artificial Pacemaker and Pregnancy	89
9	Pregnancy After Cardiac Surgery and Cardiac Surgery During Pregnancy	91
9.1	Pregnancy After Cardiac Surgery	91
9.2	Cardiac Surgery During Pregnancy	93
9.3	Pregnancy in Women with Prosthetic Cardiac Valves	94
10	Management of Pregnant Women with Heart Disease	98
10.1	General Principles of Management	98
10.2	Regimen and Diet	100
10.3	Treatment and Prophylaxis	102
10.3.1	Drugs and Pregnancy	103
10.3.2	Management of Patients with Rheumatic Heart Disease	109
10.3.3	Management of Patients with Congenital Heart Disease	111
10.3.4	Cardiosurgery During Pregnancy	112
10.3.5	Management of Patients with Nonrheumatic Myocarditis	112
10.3.6	Management of Patients with Hypertrophic Cardiomyopathy	113
10.3.7	Management of Patients with Peripartal Cardiomyopathy	113
10.3.8	Management of Patients with Thyrotoxic Heart Muscle Disease	113
10.3.9	Management of Patients with Anemic Heart Muscle Disease	114
10.3.10	Management of Patients with Myocardial Infarction	114
10.3.11	Management of Patients with Subacute Bacterial Endocarditis	115
10.3.12	Management of Patients with Pericarditis	116
10.3.13	Management of Patients with Heart Rhythm Disturbances	116
10.3.14	Preventive Treatment of Patients with Prosthetic Cardiac Valves	120

11	Labor and Termination of Pregnancy in Women with Cardiovascular Diseases	121
11.1	Management of Labor in Patients with Cardiovascular Diseases	121
11.2	Breast Feeding and Drugs	126
11.3	Termination of Pregnancy in Patients with Cardiovascular Diseases	127
12	Hypertension and Pregnancy	128
12.1	Essential Hypertension	129
12.2	Preeclampsia-Eclampsia	132
12.3	Renovascular Hypertension	135
12.4	Primary Aldosteronism (Conn's Disease)	136
12.5	Pheochromocytoma	137
12.6	Cushing's Disease	138
12.7	Chronic Glomerulonephritis	139
12.8	Chronic Pyelonephritis	140
12.9	Collagen Diseases	141
12.10	Polycystic Kidneys	141
12.11	Diabetic Nephropathy	141
12.12	Differential Diagnosis of Arterial Hypertension	142
12.13	Management of Patients with Arterial Hypertension	144
13	Arterial Hypotension and Pregnancy	150
14	Vascular Diseases and Pregnancy	154
14.1	Diseases of the Aorta and Arteries	154
14.1.1	Dissecting Aortic Aneurysm	154
14.1.2	Arterial Aneurysms	155
14.1.3	Takayasu's Disease	155
14.2	Diseases of the Veins	156
14.2.1	Varicose Veins	156
14.3	Thrombosis and Thromboembolism in Pregnancy	157
14.3.1	Thrombophlebitis (Venous Thrombosis) of the Inferior Vena Cava System	159
14.3.2	Pulmonary Thromboembolism	160
14.3.3	Leg Artery Thromboembolism	161
14.3.4	Mesenteric Artery Thromboembolism	161
14.3.5	Cerebral Thromboembolism	161
14.3.6	Treatment of Thrombosis and Thromboembolism	162
15	Contraception and Sterilization in Cardiovascular Diseases	165
15.1	Contraception in Cardiovascular Diseases	165
15.2	Sterilization in Cardiovascular Diseases	167
