

Contents

Preface

Barth, C. A., E. Schlimme	V
-------------------------------------	---

Introductory Remarks

Research Funding by the EEC

Gay, J.	1
-----------------	---

The Industry's Interest in Protein Research

Nienhaus, A.	5
----------------------	---

Milk Protein and Nitrogen Equilibrium

How to Evaluate Dietary Protein

Young, V. R., P. L. Pellett	7
---------------------------------------	---

Milk Proteins and Tissue Nitrogen Equilibrium

Reeds, P. J.	37
----------------------	----

The Endocrine Response to Dietary Protein: the Anabolic Drive on Growth

Millward, D. J.	49
-------------------------	----

Endocrine Response to Animal and Vegetable Protein

Barth, C. A., K. E. Scholz-Ahrens, M. Pfeuffer, M. de Vrese	62
---	----

Reliability and Limitations of the Homoarginine Method for Evaluation of Protein Digestibility in the Pig

Hagemeister, H., M. Schmitz, H. Erbersdobler	68
--	----

Lactoferrin Content in Feces in Ileostomy-operated Children Fed Human Milk

Hambraeus, L., G. Hjorth, B. Kristiansson, H. Hedlund, H. Andersson, B. Lönnerdal, L.-B. Sjöberg	72
---	----

Specificity of the Intestinal Lactoferrin Receptor

Davidson, L. A., B. Lönnerdal	76
---	----

VII

The Effects of Quantity and Type of Dietary Protein on the Rehabilitation after a Period of Energetic Undernourishment	
de Waard, H., P. L. M. Reyven	83
General Discussion:	
Milk Protein and Nitrogen Equilibrium	
Fürst, P.	84
Milk Proteins and Ligands	
Milk Proteins and Metabolic Requirements of Trace Elements, Minerals, and Vitamins	
Lönnerdal, B.	87
Manganese Absorption from Human Milk, Cow Milk, and Infant Formulas	
Davidsson, L., Å. Cederblad, B. Lönnerdal, B. Sandström	97
Intrinsic Labelling of Iron in Milk	
Gislason, J., B. Jones, B. Lönnerdal, L. Hambraeus	100
Does Bovine Lactoferrin Resist Absorption in the Small Intestine of Neonatal and Adult Pigs?	
Schmitz, M., H. Hagemeister, I. Görtler, J. G. Bindels, C. A. Barth	103
Can Lactoferrin Supplementation Improve the Availability of Iron from Milk?	
Schulz-Lell, G., H.-D. Oldigs, K. Dörner, J. Schaub	105
The Nutritive Value of Bovine Lactoferrin	
Schoppe, J., C. A. Barth, H. Hagemeister	108
General Discussion:	
Milk Proteins and Ligands	
Hambraeus, L.	110
Milk Proteins: Structural and Genetic Aspects	
Structure and Variability of Milk Proteins	
Ribadeau-Dumas, B.	112
Modification of Milk by Gene Transfer	
Simons, J. P.	124
Analysis of Protein Structure in Solution by Two-Dimensional NMR Spectroscopy: 2D-¹H NMR Investigation of Ribonuclease T₁ and Its Complexes with 2'- and 3'-Guanosine Monophosphates	
Rüterjans, H., E. Hoffmann, J. Schmidt, J. Simon	133

Bioactive Sequences in Milk Proteins	
Schlimme, E., H. Meisel, H. Frister	143
Isolation and Chemical Characterization of a Phosphopeptide from In Vivo Digests of Casein	
Meisel, H., H. Frister	150
Expression of an α_s1-Casein cDNA-Clone in a Cell-free and Prokaryote Model System	
Niebold, F., P. Dovč, O. J. Rottmann	155
Heat Stability of Milk with Increased Whey Protein Content	
Jelen, P., J. Patočka	158
Ultrastructural Characterization of High Molecular Weight Milkfat Globule Membrane Glycoproteins	
Buchheim, W.	162
Colostrum as a Source of Antibodies	
de Crignis, G. L., H. H. Mank, H. Elbertzhagen, H. Klostermeyer	165
Expression of the Bovine α_s1-Casein cDNA in CHO Cells	
Dovč, P., H. Elbertzhagen, F. Niebold, O. J. Rottmann	168
Screening Methods for Genetic Variants of Milk Proteins	
Krause, I., J. Buchberger, G. Weiß, H. Klostermeyer	171
Rheological Properties of Heat-Induced Whey Protein Gels	
Paulsson, M., P. Dejmeek	174
General Discussion:	
Milk Proteins – Structural and Genetic Aspects	
Klostermeyer, H.	178
Milk Proteins: Technological and Functional Aspects	
Protein Modification: Effects on Functional Properties and Digestibility	
Kinsella, J. E.	179
Structural Changes in Milk Proteins	
Swaisgood, H. E.	192
Technological and Functional Aspects of Milk Proteins	
de Wit, J. N., G. Klarenbeek	211

In Vitro Digestion of Bovine Milk Proteins by Trypsin Hydrolysis and pH-Stat Analysis	
Antila, P.	223
Degradation of β-casein by Mesophilic Starter Lactococci	
Bockelmann, W., B. Kiefer, A. Geis, M. Teuber	225
Determination of Furosine, Lysinoalanine (LAL) and 5-Hydroxymethylfurfural (HMF) as a Measure of Heat Intensity for UHT-Milk	
Dehn-Müller, B., B. Müller, M. Lohmann, H. F. Erbersdobler	228
Analysis of Milk Proteins and Their Proteolytic Products by Use of a Modified OPA-method	
Frister, H., H. Meisel, E. Schlimme	233
Effect of Technological Treatments of Milk on Gastric Digestion	
Garnier, P., B. Savalle, G. Miranda, J.-P. Pélissier	237
Molecular Weight Determination of Protein Hydrolysates (FPLC)	
Georgi, G., G. Sawatzki	238
Heat Coagulability of Whey Proteins in Acidic Conditions	
Jelen, P.	242
Selected Gelation Properties of Beta-Lactoglobulin in Comparison with Whey Protein Concentrate	
Lorenzen, P. Chr., M. Grzinia	247
Study on Heat Stability and Coagulation Properties of Milks with Different Protein Genotype	
Rampilli, M., T. Cattaneo, A. Caroli, P. Bolla, A. San Martino, A. Sciocco Saito	251
Modelization of Gastric Digestion of Milk Proteins	
Savalle, B., G. Miranda, J.-P. Pélissier	256
General Discussion:	
Milk Proteins – Technological and Functional Aspects	
Reimerdes, E. H.	258
Milk Protein and Clinical Nutrition	
Milk Protein Allergy: Clinical Features, Pathogenesis, and Therapeutic Implications	
Ferguson, A., K. C. Watret	261
Milk Protein and Enteral and Parenteral Feeding in Disease	
Grimble, G. K., D. B. A. Silk	270

Is Milk Intake Still Adequate in Present-day Practice of Child Nutrition? Kersting, M., W. Rühle, G. Schöch	283
Enteral vs Parenteral Nutrition in the Early Postoperative Phase with Special Regard to Protein Metabolism Lünstedt, B., J. Seifert	287
Influence of Casomorphin on Plasma Lipid Levels and Lipid Secretion Rates Pfeuffer, M., C. A. Barth	291
The Absorption of Proteins From the Gut in Cyclosporin-A Treated Animals Seifert, J., G. Axt, P. Bonacker	293
Influence of Diet and Stage of Lactation on Taurine Contents in Milk v. Blomberg, B., E. A. Trautwein, H. F. Erbersdobler	296
General Discussion:	
Milk Protein and Clinical Nutrition Schöch, G.	299
List of Participants	302
