Contents

1. The Biological Basis for Trace Elements in Hair 1

1.1. Historical Introduction 1
1.2. Hair Morphology, Histologic Structure, and Growth 6
1.3. Incorporation of Trace Elements into the Hair 10
1.4. Fundamental Assumptions 14

2. Factors Affecting the Trace Element Contents of Hair 17

2.1. Length of Hair 17
2.2. Anatomical Location 19
2.3. Age, Race, and Gender of Donor 20
2.4. Hair Color 23
2.5. Geographical Habitat 24
2.6. Use of Dietary Supplements and Medicines 25

3. Assessment of Nutritional Status 27

3.1. Essential Trace Elements 27
3.2. Manifestations of Mineral Deficiencies 28
3.3. Applications in Human and Animal Nutrition 31

4. Identification of Systemic Intoxication 37

4.1. The Toxic Elements 37
4.2. Clinical Observations 39
4.3. Relationships between Toxic Elements in Hair and Their Concentrations in Fluids and Other Tissues 41
4.4. Applications to the Recognition of Acute Chronic Poisoning in Humans 44

5. Diagnosis of Diseases 49

5.1. Role of Trace Elements in Disease 49
5.2. Correlations of Disease with Hair Trace Element Levels 51
5.3. Applications as Diagnostic Aids 60

Bibliografische Informationen

digitalisiert durch DEUTSCHE NATIONAL BIBLIOTHEK

6. Evaluation of Environmental Exposures 61
6.1. Occupational Exposures 61
6.2. Nonoccupational Exposures 65

7. Collection and Preparation of Hair Samples 73
7.1. Anatomical-Longitudinal Variations of Trace Elements in Hair 73
7.2. Recommended Sampling Protocols 75
7.3. Washing Procedures for Removing Exogenous Trace Elements 77
7.4. Recommended Cleaning Procedures 80
7.5. Procedures for Dissolving Hair Samples 82

8. Determination of Trace Element Levels in Hair 85
8.1. Neutron Activation Analysis (NAA) 85
8.2. Atomic Absorption Spectrometry (AAS) 87
8.3. Proton-Induced X-Ray Emission (PIXE) Spectrometry 90
8.4. Other Methods 92
8.5. Selection of Analytical Techniques 94

9. Quality Assurance of Hair Analysis 95
9.1. Sampling 96
9.2. Analysis 96
9.3. Instrument Calibration 98
9.4. Quality Control 99
9.5. Reference Materials 100

10. The Significance of Hair Analysis 105
10.1. Current Status 105
10.2. Future Perspectives 112
10.3. Conclusions 114
