Contributors	vi
Introduction	vii

PART I: Theory

Stochastic Dominance in Nonlinear Utility Theory <i>P.C. Fishburn</i>	3
The "Comparative Statics" of the Shackle-Vickers Approach to Decision-Making in Ignorance <i>Donald W. Katzner</i>	21
Stochastic Dominance and Transformations of Random Variables <i>Jack Meyer</i>	45
Representative Sets for Stochastic Dominance Rules <i>W.R. Russell and T.K. Seo</i>	59
Stochastic Dominance for the Class of Completely Monotonic Utility Functions <i>G.A. Whitmore</i>	77

PART II: Estimation and Testing

The Stochastic Dominance Estimation of Default Probability <i>Mary S. Broske and Haim Levy</i>	91
Testing for Stochastic Dominance <i>Daniel McFadden</i>	113

PART III: Applications

Insurance and the Value of Publicly Available Information <i>Marcel Boyer, Georges Dionne, Richard Kihlstrom</i>	137
Vertical Transactions under Uncertainty <i>J. Horen and S.Y. Wu</i>	157
Optimal Tariffs and Quotas under Uncertain International Transfer <i>Takao Itagaki</i>	187
Investment, Capital Structure and Cost of Capital: Revisited <i>Yoram Kroll and Haim Levy</i>	201
Utility Functions, Interest Rates, and the Demand for Bonds <i>John W. Pratt</i>	225
