

CONTENTS

A Prefatory Note: Some Perspectives on Time in Politics	7
Acknowledgments	9
Contents	11

Part I

A Rational Choice Theory of Political Time

1.	Introduction: Time and the Crisis of Politics	17
1.1.	Poor Designs of Time and Policy Failure	17
1.2.	"Time" as a Common Target	20
1.3.	Definitions of the Crucial Dimensions of Time	24
1.4.	A Design Perspective on the Treatment of Time	29
1.5.	Choosing Temporality: An Outline of the Model	32
1.6.	Analyzing by Disaggregating: An Outline of the Study	35
1.7.	Insights From a Comparison	38
2.	Designing Time in a Rational Choice Perspective	41
2.1.	Subdecisions and the Concept of Time Preference	41
2.2.	Disputes about the Collective Rate of Discount	43
2.3.	The Choice of Time at an Individual Level	44
2.3.1.	Open Questions in Models of Designing Temporality	44
2.3.2.	Implications for a Model of Temporal Choice	52
2.4.	Hurdels of Aggregation and Implementation	54
3.	The Explicit and the Implicit Treatment of Time	60
3.1.	Moving Beyond Speculations About Temporality	60
3.2.	The Understanding of Time in the Social Sciences	61
3.2.1.	Concepts on the Individual Level: Psychological Time	61
3.2.2.	A Concept Between the Levels: Diplomatic Time	65
3.2.3.	Concepts on the Collective Level	65
3.2.4.	A Brief but General Theory of Time	68
3.2.5.	How Time Runs amongst the Nations	69
3.3.	Aspects in Planning and Policy-Making Theory	70
3.3.1.	Incrementalism or Synoptic Analysis	71
3.3.2.	Advantages of Foresight	74
3.3.3.	Institutionalism: What Kind of Organization Matters?	79
3.4.	The Difference Between Issue Areas	82
3.5.	Thoughts and Words, Words and Deeds	85

Part II

Time and Planning

4.	Why Do Governments Plan With Varying Intensity?	91
4.1.	The Significance of Planning	91
4.2.	The Different Aspects of Planning Intensity	93
4.3.	National Planning Characteristics	99
4.4.	Searching for Factors Explaining the Use of Planning	109

5.	Why Do Governments Vary Their Frames Differently?	119
5.1.	Measures of Variation	119
5.2.	National Features in Varying Time Horizons	122
5.2.1.	The Different Aspects of Variation	122
5.2.2.	How Governments Circumscribe Multiple Strategies	124
5.2.3.	"Innovative" and Less "Innovative" Governments	126
5.3.	* Reasons for Variation: Evidence for Three Approaches	129
6.	How Far Do Governments Look Ahead?	135
6.1.	Explaining the Length in Time Horizons: An Outline	135
6.2.	Dealing with a Multi-Dimensional Concept	135
6.3.	Contrasts and Similarities in Setting Time Horizons	140
6.3.1.	How Do Governments Anticipate Dates and Events?	140
6.3.2.	Which Government is the Most "Far-Sighted"?	142
6.4.	"Strong" and "Weak" Factors as Reason for Variation	150
6.4.1.	Game Theory or the "Shadow of the Future"	151
6.4.2.	Investment Theory or the Discount Rate II	155
6.4.3.	Public Choice or Myopia under Re-election Pressure	158
6.4.4.	Systems Theory or the Impact of "Complexity"	165
6.4.5.	Incrementalism or the Necessity of Pragmatism	166
6.4.6.	The Structural View or the Impact of Institutions	168
6.4.7.	Rank Theory or the Myopia of the Poor	173
6.4.8.	Socio-Psychology or the Role of Personality	175
6.5.	The Extensions as a Consequence of Two Factors	177
7.	Why Does the Role of Planning Change?	180
7.1.	Consistency in the Design of Temporality	180
7.2.	Comparison between Economic and Foreign Policy	180
7.3.	Summary of the Findings About Time Horizons	184
7.4.	Relationship Between Planning and Policy-Making	184

Part III

Time and Policy-Making

8.	Many Words, Many Deeds: But Do They Correspond?	189
8.1.	Evaluating the Effects of Government Planning	189
8.2.	Measuring Discrepancy as a Questionable Endeavour	191
8.3.	Contrasting Intentions and Actual Developments	196
8.4.	Rational and Irrational Predictions in Foreign Policy	200
8.4.1.	A Survey of Forecasts on International Developments	200
8.4.2.	Style and the Accuracy of Political Forecasting	204
8.5.	The Growing Accuracy of Socio-Economic Predictions	206
8.5.1.	The Discrepancy Between Goals and Outcomes	206
8.5.2.	Correspondence Between Style and Performance	219
8.6.	Consequences of Designing Temporality	221
9.	Timing and Sequencing: How Important Is Initiation?	223
9.1.	Change and Innovation as Neglected Phenomenona	223
9.2.	Reasons for Initiations: Comparison of Four Designs	227
9.3.	The Ambiguous Face of Timing	237
9.4.	Outsmarting Smart People	241
9.5.	Which Effect With Which Strategy: Conclusion	243

Part IV
The Significance of Time in Politics

10.	Conclusion: Moving Towards New Designs of Time	247
10.1.	The Dispute On Five Dimensions of Temporality	247
10.2.	The Motivation for Choosing Different Schemes	253
10.2.1.	Insights from the Debate on Temporality	253
10.2.2.	Some Answers for the Variation of Time Horizons	254
10.3.	The Effectiveness of Different Schemes of Temporality	259
10.3.1.	Planning Accountability as a Disputed Subject	259
10.3.2.	Conditions for Effectively Carrying Out Intentions	260
10.4.	The Need to Overcome Outworn Dichotomies	262
10.5.	Recommendations for Improving the Designs of Time	264

Appendixes and Bibliography

Appendix I:	List of Countries and Documents	271
Appendix II:	Methodological Remarks to Part II	275
Appendix III:	List and Descriptions of Independent variables	279
Appendix IV:	Codebook	298
Appendix V:	List of Acronyms	304
Bibliography		307

Figure 2-2:	<i>Aggregate model of time choice</i>	59
Figure 4-1:	<i>Factors explaining planning intensity</i>	110
Figure 5-1:	<i>Factors explaining the variation of time horizons</i>	129
Figure 6-1:	<i>Factors explaining the length of time horizons</i>	150
Figure 8-1:	<i>Yearly mean of real GNP growth forecasting errors</i>	210
Figure 8-2:	<i>Yearly mean of inflation forecasting errors</i>	210
Figure 8-1:	<i>Yearly mean of NMP forecasting errors</i>	218
Figure 8-1:	<i>Yearly mean of real GNP growth forecasting errors</i>	218
Figure 9-1:	<i>The design of political time in initiation strategies</i>	234
Figure 9-2:	<i>Four designs of temporality in policy initiation</i>	235
Figure 10-1:	<i>Aggregate model of time choice</i>	251

Tables

Table 3-1: Comparison synoptic and incrementalistic choice	71
Table 3-2: The Dimensions in theories of "visionary leadership"	77
Table 4-1: Correlations between the dependent variables	97
Table 4-2: Univariate analysis of dependent variables	99
Table 4-3: Relative frequency of time horizons in foreign policy	100
Table 4-4: Relative frequency of time horizons in economic policy	101
Table 4-5: A profile of governments	102
Table 4-6: Correlations	117
Table 5-1: Correlations between the dependent variables	123
Table 5-2: Univariate analysis of dependent variables	124
Table 5-3: Variation of time horizons in foreign policy	126
Table 5-4: Variation of time horizons in economic policy	127
Table 5-5: General coefficient of variation	128
Table 5-6: Correlations	133
Table 6-1: Correlations between the dependent variables	140
Table 6-2: Univariate analysis of dependent variables	142
Table 6-3: Average span of time horizons in foreign policy	143
Table 6-4: Other dependent variables (foreign policy)	144
Table 6-5: Average span of time horizons in economic policy	145
Table 6-6: Other dependent variables (economic policy)	146
Table 6-7: Aggregate time horizons	147
Table 6-8: Correlations	178
Table 6-9: Linear regression model	179
Table 7-1: Correlations between the corresponding variables	181
Table 7-2: Comparison between foreign and economic policy	182
Table 8-1: Discrepancy in economic policy	196
Table 8-2: Discrepancy in foreign policy)	198
Table 8-3: Evaluation of foreign policy statements	203
Table 8-4: Accuracy of year-ahead forecasts for GNP/inflation	212
Table 8-5: Accuracy of year-ahead forecasts for NMP/IP	216
Table 8-6: Correspondance planning style/aspects of time	219
Table 10-1: Positions with regard to the choice of precepts	249
