

Contents

Contributors ix

Part I. Introduction

- 1** Introduction to Gas Separation
by Polymers 3
Naoki Toshima

Part II. Separation by Physical Method

- 2** Theory of Membrane Permeation 15
Shoji Kimura and Takuji Hirose
- 3** Relationships between Aggregation State and
Gas Permeation Properties 51
Tisato Kajiyama
- 4** Design of Polymer Membranes for
Gas Separation 107
Hisashi Odani and Toshio Masuda

Part III. Separation by Chemical Methods

- 5** Porous Polymer Complexes for
Gas Separation 147
Naoki Toshima and Hiroyuki Asanuma

- 6** Polymer Complex Membranes for
Gas Separation **183**
Hiroyuki Nishide and Eishun Tsuchida
- 7** Polymer Complex for the Separation of Carbon
Monoxide and Ethylene **221**
Hidefumi Hirai
- Index **239**
