Contents

1. Computers and Knowledge 1
Tabulation – a Classic Use of Computer Technology 1
Operations Analysis and Computerization 2
The Introduction of the 'Dialogue Computer' 3
Using Time-Sharing in Planning 5
Computers and Skills – the Automation of Advanced Calculations 6
Understanding a Computer System 8
Notes 11

2. The Computerization of a Work Process: A Case Study of the Long-term Effects on Professional Skills 13
The Research Method 13
The County Agricultural Boards and Forest Valuation 14
The Main Sources of Information 19
The Development of a Forest Valuation Method 21
Standardization 22
What were the Effects on Judgment over Time? 23
The Intermittent Function – a New Occupational Group 25
A Growing Conflict 27
Automated Cost Estimates 28
The Local View 29
Maintenance of the Forest Rangers' Professional Skills 31
The Phenomenon of Duality 31
Notes 32

3. The Dream of the Exact Language 37
Ars Magna: Thinking as Calculation 40
Clavis Magna 41
The Effectiveness of Language 43
What is meant by 'Interpreting' a Calculation? 44
The Principle of the Economy of Thought 46
Alternatives to the Mathematical View of Knowledge in the Age of Enlightenment 46
Rhythm in Work: Thinking as Doing 51
Diderot's Paradox 52
Notes 54

4. Literature, Language and Learning: Turing's Paradox and the Metaphor of Caliban 57
Research Method: Art as a Source of Knowledge 57
The Turing Machine 58
Turing – the Paradox 60
Turing's Man 62
Theatre and Technology 63
Literature, Reflection and the Theory of Knowledge 64
The Metaphor of Caliban in our Technological Culture 64
Notes 66

5. The Practical Intellect 71
Is the Computer a Tool? 71
EDP at the Social Insurance Offices – a Case Study 72
The ALLFA Project 72
The Research Method – the Study Circle 73
Computerized Administration 74
The Inner Weather Picture 78
Practice: Rule Following 80
Certainty in Action 82
Three Categories of Knowledge in a Practice 82
Transferring a Working Culture 83
Socrates as Knowledge Engineer 84
Transferring Ethics in a Working Culture – a Socratic Task 84
Expertise 85
Notes 88

6. Education and Professional Knowledge 93
Computation and Analytical Skills 93
The Information Society 95
Education for the Practical Intellect 97
Judging Light in Photography 99
A Final Comment 102
Notes 102
