

# Contents

<i>Introduction</i>	xv
---------------------	----

## **Section A: Industry, technology and the primary school**

<i>Introduction</i>	2
1. Industry and technology in the primary school: some general principles W. HARLEN	5
2. A case study from Indonesia G. TANUPUTRA	15
3. Using elementary technology to teach primary science P. VIOLINO	21

## **Section B: Industrial and technological issues in secondary science curricula — setting the scene**

<i>Introduction</i>	26
4. Incorporation of industry and technology into the teaching of science J. W. STEWARD and P. J. TOWSE	27
5. Contrasting approaches to the introduction of industry and technology onto the secondary science curriculum J. S. HOLMAN	31
6. Do students want to learn about industry? J. N. LAZONBY	39
7. Discussion	41
	vii

## Section C: Technology in the secondary school curriculum

<i>Introduction</i>	44
8. Factors affecting the uptake of technology in schools R. T. ALLSOP	47
9. School physics and rural technology D. G. SWIFT	53
10. Assimilation of technology in Rural India — an educational approach S. R. MEHTA	59
11. Rural technology for the landless in Bangladesh M. IBRAHIM	61
12. Education and training for biotechnology R. A. KILLE	67
13. Teaching biotechnology K. JOHNSEN	75
14. Technology education: a union of science and technical skills J. B. HOLBROOK	85
15. The place of small-scale industry and technology in the curriculum of junior secondary schools in developing Africa: the case of Nigeria O. C. NWANA	91
16. Physics Plus: one way of linking school physics with technology F. R. MCKIM	97
17. Extracurricular activities: some developments in China SUN RUOHAN	101
18. Vocational science curriculum development in Thailand M. CHANDAVIMOL	107
19. Women in science and technology education I. J. MOTTIER and J. H. RAAT	111

## Section D: Industrial and technological issues: examples of some secondary science curricula

<i>Introduction</i>	114
20. The development of a relevant chemistry curriculum for Austrian secondary schools E. M. JARISCH	115
21. Chemical industry and a high school chemistry curriculum in Israel R. BEN ZVI	119
22. Introducing industry into science teaching T. R. HITCHINGS	125
23. Introducing the chemical industry into the science curriculum in Papua New Guinea A. C. W. PONNAMPERUMA and W. P. PALMER	133
24. Introducing chemical industries into the secondary curriculum in the Philippines M. C. TAN	139
25. Industry and technology: the CHEMCOM philosophy and approach S. WARE, H. HEIKKINEN and W. T. LIPPINCOTT	145
26. Chemistry and industry in Zimbabwe P. J. TOWSE	151
27. The Science in Ghanaian society project J. M. YAKUBU	153

## Section E: Industrial and technological issues: some teaching strategies in the secondary science curricula

<i>Introduction</i>	156
28. Using games and simulations to introduce industrial and technological issues J. S. HOLMAN	159
29. A laboratory-based industrial simulation — an experiment D. McCORMICK	167

30.	Interactive packages for teaching industrial issues N. REID	169
31.	Encouraging student participation in the broader issues of science C. J. GARRATT and B. J. H. MATTINSON	175
32.	Technology as problem-solving R. T. ALLSOP	181
33.	Industrial visits J. B. HOLBROOK	185
34.	Taking the classroom to industry C. CHAMBERS	191
35.	An alternative to industrial visits L. KANHASUWAN	195

## **Section F: Industrial and technological issues in the secondary science curriculum: Assessment**

	<i>Introduction</i>	198
36.	Assessing understanding of science, technology and society interactions in a public examination I. D. THOMAS	199
37.	Further examples of assessment items	211

## **Section G: Education and the world of work**

38.	The needs of industry	221
-----	-----------------------	-----

## **Section H: The role of tertiary institutions in development**

	<i>Introduction</i>	226
39.	University–industry relationships in developing countries H. J. WILLIAMS	229
40.	The teaching company scheme A. J. P. SABBERWAL	235

41. Appropriate research for development	241
G. SURYAN and A. R. V. MURTHY	
42. How best can universities of technology help industrialise Nigeria	243
P. B. U. ACHI	
43. Technology transfer to small industries in Ghana	249
J. W. POWELL	
44. A university chemistry course incorporating industrial economics and technology	257
J. McINTYRE and D. J. M. ROWE	
45. Chemical industry, chemistry teaching	263
D. McCORMICK	
46. The Student's Project Programme	269
M. A. SETHU RAO	
47. A postgraduate diploma course in industrial research and management	273
R. A. KULKARNI	
48. Development of resources for science teaching	275
K. V. SANE	
49. In praise of projects	283
J. A. LEISTEN	
50. Teaching organic and polymer chemistry in an industrial context	289
H. A. WITTCOFF	
51. Workshops on industrial organic chemistry in India	293
R. A. KULKARNI and H. A. WITTCOFF	
52. Some concluding comments	297
K. KING AND D. McCORMICK	

## **Section I: Technical training for development**

<i>Introduction</i>	300
---------------------	-----

53.	Technician training for development	303
	B. R. N. IYENGAR	
54.	Technician training: the role of the Colombo Plan Staff College	307
	Y. SARAN and S. A. BALU	
55.	Maintenance and repair of scientific equipment	313
	G. CURRELL <i>et al.</i>	
56.	Improving communication between trainers of technicians	319
	D. G. RIVERS	
57.	A successful innovation: link courses	321
	G. R. MEYER	
58.	The Workers' University in India	327
	A. GADGIL and V. G. GAMBHIR	

## **Section J: Making curricula relevant for industry: the role of teacher training**

<i>Introduction</i>		330
59.	Industrial issues in the science curriculum: training teachers in Zimbabwe	331
	P. J. TOWSE and J. W. STEWARD	
60.	The appropriate technology centre for education and research in Kenya	337
	R. J. A. KAPIYO	
61.	Some reflections on a design-technology workshop	339
	D. McCORMICK	
62.	Industry initiatives for science and mathematics education	345
	M. H. GARDNER	

## **Section K: Co-operative education**

<i>Introduction</i>		348
63.	Co-operative education: a means of relating work and education	349
	J. W. WILSON	

<b>64. Work experience for pupils in formal education</b>	<b>355</b>
G. R. MEYER	
<b>Index</b>	<b>363</b>
