

Table of Contents

Preface	13
Part A	
Methods	15
Chapter 1	
The Concept of Time Budget Research	
What is Time Budget Research?	17
The Structure and the Major Elements of Time Budgets ..	22
Strengths and Weaknesses of Time Budget Data	32
Chapter 2	
Cross-National Comparative Time Budget Research	
and the Multinational Time Budget Project	
Historical Antecedents	36
The Set-up of the Multinational Time Budget Project	44
The Selection of the Survey Site	46
Demographic Specifications of the Populations	
to be Surveyed	48
Sampling Procedures and Sample Size	50
Data Collection	52
Coding	54
Chapter 3	
Analysis and Description of Time Budget Data	
Unit of Analysis	62
Levels of Analysis	71
File Creation	74
Descriptive Measures	76
Chapter 4	
Statistical Analysis of Time Budget Data	
Introduction	84

Descriptive Statistics for Time Budget Analysis	86
Central Tendency Measures	86
Measures of Variation	90
The "Basic Tables"	91
Measures of Association	95
Delta-Based Measures	97
PRE-Measures	100
Bivariate Correlation and Regression	104
Multivariate Analysis	108
Factor Analysis	108
Canonical Correlation	109
Analysis of Variance and Covariance	112
Discriminant Analysis	113

Chapter 5

Special Time Budget Measures

Profile Comparisons "T"	116
Time Elasticity	122
Emphasis Index	129
Hyper-Code Creation	132

Chapter 6

Event Analysis

Kinds of Event Data	136
Ways of Organizing Event Level Information	137
Additional Strategic Information for Event Records	144
Past Use of Event Analysis	150
Regularizing Occurrences	153
A Behavior Setting Approach	154

Part B

Topical Analysis	157
------------------------	-----

Chapter 7

Weekday or Weekend

The Weekend/Workday Concept	159
Weekly Pattern of Work Participation, Hungary and France	161
Weekly Pattern of Work Time Allocation, Hungary and France	162
The Structure of the Week in France	164

Chapter 8	
Time Use and the Status of Women	
The Status of Women	172
Verification of Findings with Time Budget Data	175
New Perspectives from Time Budget Data	176
Chapter 9	
The Family as a Unit	
Methodological Approaches	184
Dual Earner Families and Child Care Time	188
Market and Non-Market Work	190
Single Dual-Earner Families/Task-Sharing	192
Chapter 10	
Activities, Space and Time	
Techniques for Non-Diary Data	195
Single Factor Descriptions	195
Analysis of Linkages and Associations Between Spatial Order, Possessions, Timing, and Activities ...	199
Techniques for "Standard" Diary Data	200
The Study of Activities and Generic Spatial Coding ...	200
Estimations of Impact of Distance on Activities	201
Techniques for Geo-coded Time Budget Data	205
The Simulation of Activity Data	207
The Use of Metric Distance Measures	207
Analysis Based on Spatial Distributions of Activities ..	210
References	218
Appendix 1	
Description of City Sites	231
Appendix 2	
Codebook for the Multi-National Community Data File	
MNATCOM	239
Appendix 3	
Codebook for the additional Data File for the	
Halifax Subsample HFXSEQ (Event File)	252
