

Table of Contents

1	Introduction.....	1
	THEORETICAL PART	3
2	The Concept of Potential Output: A History of Origins.....	5
2.1	Introduction.....	5
2.2	Okun's Contribution	6
2.3	The New Neoclassical Synthesis	7
2.4	Wicksell and Keynes Connections.....	10
2.4.1	Interest Rate Gaps and Inflation.....	10
2.4.2	Impulse Propagation Mechanisms	11
2.4.3	Monetary Policy and the Formation of Expectations and Capital... 13	
2.4.4	The Term Structure of Interest Rates and the Business Cycle	15
2.4.5	Effective Demand and Unemployment	18
2.4.6	Business Cycles and Economic Growth	20
2.4.7	Inflationary Gaps and Output Gaps.....	23
2.4.8	Interim Conclusion.....	26
2.5	Phillips Curve Debates.....	27
2.5.1	Full Employment and Monetary Stability – A Trade-off?	27
2.5.2	Inefficiency of Expansive Stabilisation Policy	29
2.5.3	Time Inconsistency of Stabilisation Policy.....	32
2.5.4	Equilibrium Business Cycles	35
2.5.5	Persistent Unemployment	37
2.5.6	Interim Conclusion.....	42
2.6	Empirics and Politics	42
2.6.1	The Progression of National Accounting.....	42
2.6.2	Potential Output in Political Advisory	45
2.6.3	Conclusion: The Evolution of Theories and Growth Regimes	47
3	Historical Positions and Controversies	57
3.1	Introduction.....	57
3.2	Macroeconomic Aggregates	57
3.3	Growth Trend and the Business Cycle.....	60
3.4	Non-Inflationary Unemployment.....	63
3.5	The Role of Monetary Policy.....	65

VI Table of Contents

4	Epistemological Subsumption.....	67
4.1	Introduction	67
4.2	System-Theoretical Concepts and Paradigmatic Considerations.....	67
4.3	Characteristics and Systems Performance in Closed Systems.....	70
4.4	Modelling the Economy as a Closed System: Systems Behaviour and Forecasting.....	71
4.5	Characteristics and Systems Behaviour in Open Systems	73
4.6	Modelling the Economy as an Open System: Systems Behaviour and Limits to Forecasting	78
METHODOLOGICAL-EMPIRICAL PART		83
5	Analysis and Criticism of Conventional Methods of Estimation.....	85
5.1	Introduction	85
5.2	Methods of Estimating Potential Output and Potential Growth.....	87
5.2.1	Univariate Methods of Estimating Potential Output and Potential Growth.....	87
5.2.2	Multivariate Methods of Estimating Potential Output and Potential Growth.....	90
5.3	“In-Sample” Analysis	99
5.4	“Out-of-Sample” Forecasts.....	103
5.5	Formal Assessment of Forecast Precision and Accuracy	105
5.6	Conclusions	111
6	Analysis of the Declining Trend in Germany’s Potential Growth Performance.....	113
6.1	Introduction	113
6.2	Direct Factors Contributing to Growth.....	115
6.2.1	Labour Volume Trends.....	116
6.2.2	Human Capital Formation	119
6.2.3	Accumulation of Real Capital.....	121
6.2.4	Technological Progress.....	124
6.3	Indirect Influencing Factors.....	126
6.3.1	The Institutional Framework.....	126
6.3.2	Fiscal Policy.....	130
6.4	Special Factors.....	136
6.4.1	European Economic and Monetary Union.....	136
6.4.2	Reunification.....	139
7	Alternative Methods for a Forward-Looking Assessment of Potential GDP Growth	141
7.1	Introduction	141
7.2	Overview of the Relevant Literature and Theoretical Aspects	141
7.3	Empirical Methodology	143
7.3.1	“In-Sample” Analysis	144
7.3.2	“Out-of-Sample” Analysis	144

7.4	Data and Descriptive Statistics	145
7.5	Results of the “In-Sample” Analysis	146
7.6	Results of the “Out-of-Sample” Analysis	155
7.6.1	RMSE and Theil’s U	155
7.6.2	Predictive Power and Model Performance over Time	157
7.7	Conclusion	160
8	Conclusions for Economic Policy and Empirical Macroeconomics	161
Annex	167	
AI:	Annex to Chapter 5.....	167
AI.1.	Data Sources for Chapter 5	167
AI.2.	Business Cycle Dating for Germany.....	169
AI.3.	Estimation of the Structural VAR (SVAR) Model	170
AI.4	The Production Function Approach (PFA).....	174
AII:	Annex to Chapter 7	180
