

# Contents

<b>Chapter 1</b>	
What is Econometrics? .....	1
<b>Chapter 2</b>	
A Review of Some Basic Statistical Concepts .....	5
<b>Chapter 3</b>	
Simple Linear Regression .....	29
<b>Chapter 4</b>	
Multiple Regression Analysis .....	47
<b>Chapter 5</b>	
Violations of the Classical Assumptions .....	77
<b>Chapter 6</b>	
Distributed Lags and Dynamic Models .....	119
<b>Chapter 7</b>	
The General Linear Model: The Basics .....	151
<b>Chapter 8</b>	
Regression Diagnostics and Specification Tests .....	179
<b>Chapter 9</b>	
Generalized Least Squares .....	207
<b>Chapter 10</b>	
Seemingly Unrelated Regressions .....	223
<b>Chapter 11</b>	
Simultaneous Equations Model .....	247
<b>Chapter 12</b>	
Pooling Time-Series of Cross-Section Data .....	299

<b>Chapter 13</b>	
Limited Dependent Variables .....	317
<b>Chapter 14</b>	
Time-Series Analysis .....	343
