<i>Preface</i>	<i>xiii</i>

Part I

AlGaN UV Optoelectronics

1. Materials Challenges of AlGaN-Based UV Optoelectronic Devices	3
M.H. Crawford	
1. Introduction	3
2. Doping Challenges of AlGaN Alloys	4
3. Substrates for UV Optoelectronics	23
4. Summary and Outlook	34
Acknowledgments	36
References	36
2. Development of Deep UV LEDs and Current Problems in Material and Device Technology	45
M. Shatalov, R. Jain, T. Saxena, A. Dobrinsky, and M. Shur	
1. Introduction	45
2. Epitaxial Growth of AlN and AlGaN Alloys	48
3. Optical Properties of AlGaN	53
4. UV LED Device Design and Performance	68
5. Conclusions	77
Acknowledgments	77
References	77
3. Growth of High-Quality AlN on Sapphire and Development of AlGaN-Based Deep-Ultraviolet Light-Emitting Diodes	85
H. Hirayama	
1. Introduction	85
2. Research Background of DUV LEDs	86
3. Growth of High-Quality AlN on Sapphire Substrate	91
4. Increase in IQE	94
5. 222–351 nm AlGaN and InAlGaN DUV LEDs	101

6. Increase in EIE by MQB	106
7. Future LED Design for High LEE	113
8. Summary	118
References	118
4. III-N Wide Bandgap Deep-Ultraviolet Lasers and Photodetectors	121
T. Detchprohm, X. Li, S.-C. Shen, P.D. Yoder, and R.D. Dupuis	
1. Introduction	123
2. MOCVD Growth of III-N DUV Materials and Heterostructures	125
3. III-N Device Design and Simulation	132
4. Processing of III-N DUV Emitters and Photodetectors	138
5. Performance of III-N DUV Lasers and Photodetectors	141
6. III-N DUV Photodetectors	150
7. Conclusions	158
Acknowledgments	158
References	158
5. Al(Ga)N Nanowire Deep Ultraviolet Optoelectronics	167
S. Zhao and Z. Mi	
1. Introduction	167
2. Growth and Characterization of Al(Ga)N Nanowires	170
3. Al(Ga)N Nanowire LEDs	181
4. Electrically Injected Lasers with Ternary AlGa _x N Nanowires	188
5. Other Devices and Applications with Al(Ga)N Nanowires	191
6. Conclusion	192
References	193
Part II	
InGaN Nanostructures: Epitaxy, Properties, and Emerging Device Applications	
6. Growth and Structural Characterization of Self-Nucleated III-Nitride Nanowires	203
T. Auzelle and B. Daudin	
1. Introduction	203
2. Nucleation and Polarity	204
3. From Nucleation to Steady-State Growth: The Issue of Nuclei Ripening	217
4. Structural Properties of GaN NWs	221
5. Conclusion	224
References	225

7. Selective Area Growth of InGaN/GaN Nanocolumnar Heterostructures by Plasma-Assisted Molecular Beam Epitaxy	231
S. Albert, A.M. Bengoechea-Encabo, M.Á. Sánchez-García, and E. Calleja	
1. Introduction	231
2. SAG of InGaN/GaN NCs on GaN/Sapphire Templates	233
3. SAG of InGaN/GaN Core–Shell Micropillars	250
4. SAG of InGaN/GaN NCs on Silicon	255
5. Summary and Conclusions	261
Acknowledgments	262
References	262
8. InN Nanowires: Epitaxial Growth, Characterization, and Device Applications	267
S. Zhao and Z. Mi	
1. Introduction	268
2. Growth and Synthesis of InN Nanowires	271
3. Electrical and Optical Properties of <i>n</i> -Type Degenerate InN Nanowires	277
4. Electrical and Optical Properties of Intrinsic InN Nanowires	279
5. <i>p</i> -Type InN Nanowires	286
6. On the Surface Charge Properties of InN	291
7. InN Nanowire Devices and Applications	292
8. Summary	295
References	295
9. Dynamic Atomic Layer Epitaxy of InN on/in GaN and Its Application for Fabricating Ordered Alloys in Whole III-N System	305
K. Kusakabe and A. Yoshikawa	
1. Introduction	305
2. Development of Dynamic-ALEP in Highly Mismatched InN/GaN System	313
3. III-N Ordered Alloys Grown by Dynamic-ALEP	324
4. Summary	337
Acknowledgments	338
References	338
10. Nitride Semiconductor Nanorod Heterostructures for Full-Color and White-Light Applications	341
S. Gwo, Y.J. Lu, H.W. Lin, C.T. Kuo, C.L. Wu, M.Y. Lu, and L.J. Chen	
1. Introduction	341
2. Advantages of Nanorod/Nanowire Heterostructures	344
3. Polarization Effects	346

4. Nanorod/Nanowire Growth and Polarity Control	350
5. Doping and Surface Properties	354
6. III-Nitride Nanorod Heterojunction Band Alignments	357
7. Disk-in-Rod Nanorod Heterostructures as Full-Color Light Emitters	362
8. Tunable White LEDs Based on Disk-in-Rod Nanorod Heterostructures	366
9. Green and Full-Color Core–Shell Nanorod Plasmonic Lasers	368
10. Conclusions and Outlook	376
Acknowledgments	377
References	377
11. III-Nitride Electrically Pumped Visible and Near-Infrared Nanowire Lasers on (001) Silicon	385
P. Bhattacharya, A. Hazari, S. Jahangir, W. Guo, and T. Frost	
1. Introduction	385
2. Molecular Beam Epitaxy (MBE) of III-Nitride Nanowires on (001) Silicon	387
3. Fabrication of Nanowire Waveguides and Electrically Pumped Edge-Emitting Visible Lasers on (001) Silicon	391
4. Mode Confinement and Propagation in Nanowire Lasers	394
5. Characteristics of Visible Nanowire Lasers	396
6. Electrically Pumped 1.3 μm Disk-in-Nanowire Lasers on Silicon	400
7. Conclusion	405
References	406
12. Exploring the Next Phase in Gallium Nitride Photonics: Cubic Phase Light Emitters Heterointegrated on Silicon	411
C. Bayram and R. Liu	
1. Introduction to Photonics	411
2. Background	412
3. Cubic Gallium Nitride	416
4. Future Prospects of Cubic GaN Materials	429
5. Conclusion	431
Acknowledgments	432
References	432
<i>Index</i>	437
<i>Contents of Volumes in this Series</i>	447
