## Contents

Preface to the Second Edition . . . . .	V
Vorwort zur ersten Auflage . . . . .	VI
Introduction . . . . .	1
Historical . . . . .	1
Literature . . . . .	6
<b>1 General Description . . . . .</b>	<b>8</b>
11 The Stem . . . . .	8
111 The Epidermis . . . . .	11
112 The Cortex and the Pith . . . . .	16
113 The Stele . . . . .	26
The Vascular Bundle 26 – The Endodermis 42 – The Type of the Stele and the Stelar Theory 44	
114 The Cone Axis . . . . .	81
115 The Growing Point and the Meristem . . . . .	82
12 The Leaf . . . . .	86
121 The Petiole and the Rachis of the Filicopsida . . . . .	89
The Epidermis 89 – The Cortex and the Pith 92 – The Stele 93	
122 The Lamina . . . . .	119
The Epidermis 119 – The Mesophyll 127 – The Nerve 129 – The Ligule 130	
123 The Sporophyll . . . . .	130
124 The Growing Point . . . . .	131
13 The Root . . . . .	132
131 The Epidermis and the Rootcap . . . . .	135
132 The Cortex . . . . .	136
133 The Stele . . . . .	138
134 The Growing Point and the Meristem . . . . .	140
<b>2 Special Description . . . . .</b>	<b>144</b>
21 Class Psilophytopsida . . . . .	145
211 Order Psilophytales . . . . .	145
22 Class Psilotopsida . . . . .	149
221 Order Psilotales . . . . .	150
Family Psilotaceae 150	
23 Class Lepidopsida . . . . .	153
231 Order Protolpidodendrales . . . . .	155
232 Order Lepidodendrales . . . . .	155
233 Order Lepidocarpaceae . . . . .	178
234 Order Isoetales . . . . .	181
Family Pleuromeiaceae 181 – Family Isoetaceae 182	

235	Order Selaginellales . . . . .	191
	Family Selaginellaceae 192	
236	Order Lycopodiales . . . . .	202
	Family Lycopodiaceae 202	
24	Class Arthropsidea . . . . .	212
241	Order Protoarticulales . . . . .	213
242	Order Sphenophyllales . . . . .	215
	Family Sphenophyllaceae 215	
243	Order Cheirostrobales . . . . .	223
	Family Cheirostrobaceae 224	
244	Order Pseudoborniales . . . . .	225
	Family Pseudoborniaceae 225	
245	Order Calamariales . . . . .	225
	Family Calamariaceae 225	
246	Order Equisetales . . . . .	239
	Family Equisetaceae 239	
25	Class Filicopsida . . . . .	250
25a	Subclass Primofilicidae . . . . .	251
251	Order Protopteridales . . . . .	251
252	Order Cladoxylales . . . . .	253
253	Order Coenopteridales . . . . .	262
254	Order Archaeopteridales . . . . .	281
25b	Subclass Filicidae . . . . .	284
255	Order Eusporangiales . . . . .	284
	Family Ophioglossaceae 285 – Family Marattiaceae 294 – Family Psaroniaceae 303	
256	Order Noeggerathiales . . . . .	312
	Family Noeggerathiaceae 312	
257	Order Protopleptosporangiales . . . . .	313
	Family Osmundaceae 313	
258	Order Leptosporangiales . . . . .	325
	Family Schizaeaceae 326 – Family Gleicheniaceae 332 – Family Loxsomaceae 339 – Family Hymenophyllaceae 341 – Family Pteridaceae 347 – Family Parkeriaceae 357 – Family Hymenophyllopsaceae 360 – Family Davalliaceae 361 – Family Plagiogyriaceae 364 – Family Cyatheaceae 366 – Family Aspidiaceae 376 – Family Blechnaceae 379 – Family Aspleniaceae 382 – Family Matoniaceae 384 – Family Polypodiaceae 387 – Family Vittariaceae 393	
259	Order Hydropteridales . . . . .	395
	Family Marsileaceae 395 – Family Salviniaceae 400	
2510	Appendix. Fossil Filicidae of uncertain systematic position . . . . .	403
	Tempskya 404 – Stems with solenostelic or dictyostelic forms 404 – Shoot with polycyclic meristemes 405	
	Bibliography . . . . .	408
	Author Index . . . . .	470
	Index of Plant Names . . . . .	476
	Subject Index . . . . .	495
