Chapter 1

COUNTERCURRENT CHROMATOGRAPHY

J.B.McALPINE and J.E.HOCHLOWSKI

Antiinfective Research, Abbott Laboratories, Abbott Park, Illinois 60064

1	INTRODUCTION.....	3
1.1	Historical Development.....	3
1.2	Basic Theory.....	4
1.3	Scope and Limitations.....	5
2	INSTRUMENTATION.....	7
2.1	Droplet Countercurrent Chromatography (DCCC).....	7
2.2	Rotary Locular Countercurrent Chromatography (RLCC).....	8
2.3	Spinning Column Countercurrent Chromatography (SCCC).....	9
2.4	Centrifugal Countercurrent Chromatography with a Rotating Seal Joint (CCCC-RJ).....	10
2.5	Coil Planet Centrifuge Countercurrent Chromatography (CPC).....	11
2.5.1	The Horizontal Synchronized Multilayered Coil.....	11
2.5.2	Other Configurations.....	15
3	PRACTICAL CONSIDERATIONS.....	17
3.1	Choosing a Solvent System.....	17
3.2	Pumping Systems and Sample Application.....	19
3.3	Eluent Monitoring Systems.....	19
4	SPECIFIC EXAMPLES.....	21
4.1	Droplet Countercurrent Chromatography Examples.....	21
4.1.1	Resolution of Enantiomers.....	21
4.1.2	Terpenoids from <i>Matricaria chamomilla</i>	22
4.1.3	Separation of Iridoid Glycosides.....	23
4.1.4	Isolation of a Phenolic Glycoside.....	24
4.2	Rotary Locular Countercurrent Chromatography Examples.....	24
4.2.1	Resolution of Norephedrine.....	24
4.2.2	Isolation of a Phenylpropanoid Plant Growth Regulator.....	24
4.2.3	Isolation of Flavanoid C-glycosides.....	25
4.2.4	Isolation of Raucaffricine.....	26
4.3	Spinning Column Countercurrent Chromatography Examples.....	26
4.3.1	Separation of Glucose Derivatives.....	26
4.3.2	Separation of Neutral Macrolide Antibiotics.....	27

4.3.3	Purification of Mocimycin.....	27
4.3.4	Purification of Chartreusin.....	28
4.4	Examples of the Use of Centrifugal Countercurrent Chromatography with Rotating Seal Joint.....	28
4.4.1	Separation of Retinals.....	28
4.4.2	Separation of Sugars.....	29
4.4.3	Separation of Fatty Acids.....	29
4.5	Examples of Use of the Coil Planet Centrifuge.....	30
4.5.1	Sesquiterpenes from <i>Artemisa annua</i>	30
4.5.2	Sesquiterpene Antibiotics - Pentalenolactone.....	30
4.5.3	Phenoxazinepeptolides - The Actinomycins.....	31
4.5.4	Tetramic Acids - The Tirandamycins.....	32
4.5.5	Macrolide Antibiotics - 2-Norerythromycins.....	32
4.5.6	Macrolide Antibiotics - Niddamycins.....	32
4.5.7	Quinoxaline Antibiotics.....	34
4.5.8	Pyrroles.....	35
4.5.9	Use as an Extraction Device.....	35
5	TABLES.....	37
5.1	Droplet Countercurrent Systems.....	37
5.2	Rotary Locular Systems.....	40
5.3	Spinning Column Systems.....	41
5.4	Systems Used With the Centrifugal Countercurrent with Rotating Seal Joint.....	42
5.5	Coil Planet Centrifuge Systems.....	43
6	VENDORS.....	48
7	REFERENCES.....	49
