# Nitrogen, phosphorus and sulphur utilization by fungi

---

Symposium of the British Mycological Society held at  
the University of Birmingham April 1988

---

Edited by  
**Lynne Boddy, R. Marchant & D. J. Read**

*Published for The British Mycological Society by*

# Contents

<i>Contributors</i>	<i>page v</i>
<i>Preface</i>	<i>vii</i>
1 Some perspectives on nitrogen and phosphorus metabolism in fungi <i>D. H. Jennings</i>	1
2 The genetics and biochemistry of nitrate assimilation in ascomycete fungi <i>A. B. Tomsett</i>	33
3 Transport and metabolism of sulphur dioxide in yeasts and filamentous fungi <i>Anthony H. Rose</i>	59
4 Inorganic sulphur oxidation by fungi <i>M. Wainwright</i>	73
5 Sulphur compounds in fungi <i>J. C. Slaughter</i>	91
6 Phosphonates: antifungal compounds against Oomycetes <i>M. D. Coffey &amp; D. G. Ouimette</i>	107
7 Phosphorus and nitrogen fluxes between plant and fungus in parasitic associations <i>D. R. Walters</i>	131
8 Effects of fungal pathogens on nitrogen, phosphorus and sulphur relations of individual plants and populations <i>N. D. Paul</i>	155

9 The nitrogen nutrition of mycorrhizal fungi and their host plants	181
<i>D. J. Read, J. R. Leake &amp; A. R. Langdale</i>	
10 Acquisition of phosphorus by VA mycorrhizal fungi and the growth responses of their host plants	205
<i>B. A. D. Hetrick</i>	
11 Phosphorus metabolism in mycorrhizas	227
<i>V. Gianinazzi-Pearson &amp; S. Gianinazzi</i>	
12 Nitrogen relations of mat-forming lichens	243
<i>P. D. Crittenden</i>	
13 Role of fungi in nitrogen, phosphorus and sulphur cycling in temperate forest ecosystems	269
<i>J. Dighton &amp; Lynne Boddy</i>	
<i>Index</i>	299
