1994

CONTENTS

Introduction	vii
Editorial advisors	ix
List of contributing authors	x

I. Gene Expression, Regulation, and Manipulation

Gene expression in plant cells <i>J.Z. Zhang and John Harada</i>	1
Gene regulation in plant cells <i>A. Shinmyo, A. Kawaoka and C. Intapruk</i>	11
T-DNA Transfer to Plants is Mediated by Pilus-Like Apparatus Encoded by the Ti Plasmid <i>virB</i> Operon <i>Clarence I. Kado</i>	23
Gene Regulation and Protein Secretion from Plant Cell Cultures: the Rice α -amylase System <i>Bruce R. Thomas, John Chandler, Carl R. Simmons, Ning Huang, Erik Karrer and Raymond L. Rodriguez</i>	37
Genetic Modification of Plant Secondary Metabolism: Alteration of Product Levels by Overexpression of Amino Acid Decarboxylases <i>J. Berlin, L. Fecker, S. Herminghaus and C. Rügenhagen</i>	57
Genetic Engineering of Medicinal Plants for Tropane Alkaloid Production <i>Y. Yamada, D.-J. Yun and T. Hashimoto</i>	83

II. Cell Physiology and Metabolic Pathway and Regulation

Regulation of the Shikimate Pathway in Suspension Cultured Cells of Parsley (<i>Petroselinum crispum</i> L.) <i>Eric E. Conn and Kent F. McCue</i>	95
Light Effect to Promote Secondary Metabolite Production of Plant Cell Culture <i>Hiroyuki Kurata, Minoru Seki and Shintaro Furusaki</i>	103
Effect of Elicitors on the Production of Secondary Metabolites <i>Arasuke Nishi</i>	135

Effect of Dissolved Oxygen Concentration on the Growth of Surface-Immobilized <i>Catharanthus Roseus</i> Cells: A Modelling and Experimental Study <i>J. Archambault, C.M. Pouyez, M.F. Pépin, M. Perrier and C. Chavarie</i>	153
Immobilization of Plant Cells <i>Atsuo Tanaka</i>	209
III. Bioreactors and Bioprocesses	
Tropane Alkaloid Production from <i>Datura stramonium</i> : An Integrated Approach to Bioprocess Optimization of Plant Cell Cultivation <i>Rabia Ballica and Dewey D.Y. Ryu</i>	221
Rheological Characteristics of Suspended Cultures of <i>Perilla frutescens</i> and Their Implications in Bioreactor Operation for Anthocyanin Production <i>Jian-Jiang Zhong and Toshiomi Yoshida</i>	255
Fluid Dynamic Studies on Plant Root Cultures for Application to Bioreactor Design <i>Divakar Ramakrishnan and Wayne R. Curtis</i>	281
Application of Hairy Root and Bioreactors <i>Nobuyuki Uozumi and Takeshi Kobayashi</i>	307
High Density Culture of Plant Cells Using an Air-Lift Column for Production of Valuable Metabolites <i>T. Matsushita, N. Koga, K. Ogawa, K. Fujino and K. Funatsu</i> .	339
Production of Plant Secondary Metabolites by Extractive Cultivation <i>Ho Nam Chang and Sang Jun Sim</i>	355
Index	371
